continuing changes in the health same mentret anothed has mentated and a literated	
 continuing changes in the health care market created by regulatory and political changes. Key factors for the Fund's bottom-up security analysis are a company's business prospects, new product outlook, corporate strategy, and competitive position. The Fund's industry weightings are primarily a result of the stock selection process. Portfolio assets may be shifted opportunistically into those health care industries that have better potential for future performance. The Fund generally will not initiate new positions in the smallest market capitalisation companies in the health care sector. The market cap floor will typically be in the range of US\$1 billion to US\$1.5 billion but may fluctuate outside this range as market conditions shift over time. FDIs may be used or invested in for hedging existing positions, efficient portfolio management or a combination of both purposes. The Fund is actively managed with reference to its benchmark (Morgan Stanley Capital International All Countries World Index Healthcare) which is used for performance comparison purposes only. Units are EIP and the Fund will not invest in any product or engage in any transaction which may cause the Units not to be regarded as EIP. 	
Parties Involved	
 WHO ARE YOU INVESTING WITH? The Managers are UOB Asset Management Ltd. The Trustee is State Street Trust (SG) Limited. The Custodian is State Street Bank and Trust Company, acting through its Singapore Branch. The Sub-Manager is Wellington Management Singapore Pte. Ltd. The Sub-Manager may, from time to time, delegate any or all of their sub-management function to any one or more of their affiliates. 	Refer to <u>paragraphs 2</u> , <u>3</u> , <u>4</u> and <u>21.4</u> of the Prospectus for further information on these entities and what happens if they become insolvent.
