PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Sub-Fund is only suitable for investors who:
 - seek long term capital growth;
 - believe that the Index will increase in value;
 - are willing and able to accept that their principal will be at risk; and
 - seek an “index-based” approach to investing in Chinese companies listed in US, Hong Kong and China, and other markets from time to time, that are expected to derive significant revenues from energy storage technologies, autonomous vehicles, shared mobility and new transportation methods.

You should consult your financial advisers if in doubt about whether this product is suitable for you.

Further Information

Refer to Appendix I of the Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in an exchange traded fund constituted in Singapore that aims to replicate as closely as possible, before expenses, the performance of the Index.
- The Index is compiled and calculated by MSCI and aims to track the performance of Chinese companies listed in US, Hong Kong and China, and other markets from time to time, that are expected to derive significant revenues from energy storage technologies, autonomous vehicles, shared mobility and new transportation methods. The Index is reviewed and rebalanced quarterly.

Refer to Appendix I of the Prospectus for further information on features of the product.

The published figures for the value of the Index, a description of the Index methodology and latest information is available

¹ The Prospectus is available for collection at the Manager’s business address at 12 Marina View, #18-02, Asia Square Tower 2, Singapore 018961 during usual business hours or accessible at www.nikkoam.com.sg.

² Subject to change by the SGX-ST from time to time.

³ Audited expense ratio for the financial year ended 31 December 2023.

<ul style="list-style-type: none"> • Unlike “actively managed” unit trusts and mutual funds, the Manager does not attempt to outperform the Index nor does it seek temporary defensive positions when markets decline or appear overvalued by some standards. • Distributions, if any, will be determined by the Manager. Currently, no distributions will be made for the SGD Share Class. • The base currency of the Sub-Fund is SGD and the Sub-Fund will issue Shares denominated in SGD (for SGD Share Class). 	<p>at https://www.msci.com/index-methodology.</p>
Investment Strategy	
<ul style="list-style-type: none"> • The Sub-Fund will seek to achieve its investment objective by investing all, or substantially all, of its assets in securities which are for the time being constituent securities of the Index (“Index Securities”) in substantially the same weightings as reflected in the Index (i.e. using a full replication strategy). The Manager may in its absolute discretion adopt a representative sampling strategy instead of a full replication strategy. Representative sampling is a strategy of investing in a representative sample of securities in the Index which have a similar investment profile as that of the Index. The Manager may invest in certain securities that are not included in the Index (“non-Index Securities”) but have aggregate characteristics (such as yield and duration) similar to those of the Index. • The Sub-Fund is designed for investors who seek an “index-based” approach to investing in Chinese companies listed in US, Hong Kong and China, and other markets from time to time, in a cost effective and easy to access manner. • The Manager will rebalance the Sub-Fund’s portfolio of investments from time to time to reflect any changes to the composition of, or the weighting of securities in the Index of the Sub-Fund with a view to minimising tracking error of such Sub-Fund’s overall returns relative to the performance of its Index. Such rebalancing may be in the form of investments in non-Index Securities (if representative sampling is adopted). 	<p>Refer to Appendix I of the Prospectus setting out the description of the investment strategy of the Sub-Fund.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The issuer/Company is Nikko AM Asia Limited VCC. • The Manager is Nikko Asset Management Asia Limited. • The Investment Advisor is Straits Investment Management Pte. Ltd. • The Custodian is DBS Trustee Limited. 	<p>Refer to Sections II and III of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>You should be aware that the price of Shares can go down as well as up. The value of the product and its dividends or coupons may rise or fall. The following are key risk factors that may cause you to lose some or all of your investment:</p>	<p>Refer to Section IX of the Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • Shares may trade at prices other than NAV <ul style="list-style-type: none"> ○ The secondary market price of Shares may sometimes trade above or below the NAV per Share. This deviation is dependent on various factors but will be accentuated when there is a large imbalance between market supply and demand for Shares on the SGX-ST. There is a risk that you may not be able to buy or sell at a price close to the NAV per Share. • You are exposed to market risk <ul style="list-style-type: none"> ○ The price of securities comprised in the portfolio of the Sub-Fund and the Shares, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the 	

<p>corporations whose securities are comprised in the portfolio and the market's perception of the securities.</p>	
<p>Liquidity Risks</p>	
<ul style="list-style-type: none"> • You are exposed to the liquidity risk <ul style="list-style-type: none"> ○ The extent of market liquidity is dependent on the size and state of the markets and therefore affects the Sub-Fund's ability to acquire or dispose of securities at the price and time it so desires. • You should be aware there is a minimum creation and redemption size <ul style="list-style-type: none"> ○ Shares will only be issued or redeemed in-kind at the Company's discretion in Creation Unit or Redemption Unit aggregations (currently 500,000 Shares, and multiples thereof) or in cash at a minimum of 50,000 Shares (or such other higher number of Shares in multiples of 1,000) by or through Participating Dealers. ○ If you do not hold the minimum redemption number of Shares (i.e. 50,000 Shares), you will only be able to realise the value of your Shares by selling your Shares on the SGX-ST at the prevailing trading price of the Shares. ○ However, do note that the Participating Dealers are under no obligation to redeem your Shares. • Trading in Shares on SGX-ST may be suspended or even delisted <ul style="list-style-type: none"> ○ You will not be able to purchase or sell Shares on the SGX-ST during any period that the SGX-ST suspends trading in the Shares. Subject to the provisions of the CIS Code, the creation and redemption of Shares will also be suspended if the trading of Shares on the SGX-ST is suspended. ○ The Sub-Fund may not be able to continue to meet the requirements necessary to maintain the listing of Shares on the SGX-ST. The Sub-Fund may be terminated if Shares are delisted from the SGX-ST. 	<p>Refer to Sections IX and XIII of the Prospectus for situations in which trading of Shares may be suspended.</p>
<p>Product-Specific Risks</p>	
<ul style="list-style-type: none"> • You are exposed to tracking error risk <ul style="list-style-type: none"> ○ Changes in the NAV of the Sub-Fund are unlikely to replicate exactly changes in the Index due to various factors, especially if the Sub-Fund invests in securities that are non-Index Securities or invests in those Index Securities with different weighting from that of the Index. The Sub-Fund's returns may therefore deviate from those of the Index. • Risk associated with the investment strategy of the Sub-Fund/Lack of discretion of Manager to adapt to market changes <ul style="list-style-type: none"> ○ Unlike "actively managed" unit trusts and mutual funds, in its management of the Sub-Fund, the Manager does not attempt to outperform the Index nor does it seek temporary defensive positions when markets decline or appear overvalued by some standards. Accordingly, a fall in the Index may result in a corresponding fall in the NAV of the Sub-Fund. • You are exposed to currency risk <ul style="list-style-type: none"> ○ As the investments of the Sub-Fund may be denominated in currencies other than its base currency, fluctuations of the exchange rate of such currencies against the base currency of the Sub-Fund may have an impact on the investments and income of the Sub-Fund and affect the value of the Shares. The Manager reserves the discretion to hedge, whether fully, partially or not at all, the foreign currency exposure of the Sub-Fund depending on the prevailing foreign exchange rates, and in the event no hedging or partial hedging is made, the value of the Sub-Fund may be affected. • You are exposed to PRC market risk <ul style="list-style-type: none"> ○ Investing in the securities markets in the PRC is subject to the risks of investing in emerging markets generally and the risks specific to the PRC market. Many of the PRC economic reforms are unprecedented or experimental and are subject to adjustment and modification which may not always have a positive effect on investments in listed securities. 	

<ul style="list-style-type: none"> • You are exposed to risks relating to investing in Autonomous and Electric Vehicle Companies <ul style="list-style-type: none"> ○ Autonomous & Electric Vehicle companies typically face intense competition and potentially rapid product obsolescence. Many of these companies are also heavily dependent on intellectual property rights and may be adversely affected by loss or impairment of those rights. There can be no assurance these companies will be able to successfully protect their intellectual property to prevent the misappropriation of their technology, or that competitors will not develop technology that is substantially similar or superior to such companies' technology. • You are exposed to risks related to investing in Automobiles Industry <ul style="list-style-type: none"> ○ The automobiles industry can be highly cyclical, and companies in the industry may suffer periodic operating losses. The industry can be significantly affected by labor relations and fluctuating component prices. The automobile industry is also heavily dependent on components supplied by various third-party producers. Consequently, any delay in or shortage of such components or parts globally will have an adverse impact on automobile manufacturers and could adversely affect the NAV of the Sub-Fund. <p>You should be aware that your investment in the Sub-Fund may be exposed to other risks of an exceptional nature from time to time.</p>

FEES AND CHARGES

<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p> <p>Payable directly by you</p> <ul style="list-style-type: none"> • For purchase and sale of Shares on the SGX-ST using cash or SRS monies <ul style="list-style-type: none"> ○ If you deal on the SGX-ST, you will typically not bear any costs related to the creation and redemption of Shares. However, you will need to pay brokers' commissions, clearing fees and other costs associated with dealing on the SGX-ST. These amounts are subject to your individual agreement with, and are paid directly by you to, your broker, the CDP and your other service providers (including SRS operators). • For subscription and/or redemption of Shares in cash by or through Participating Dealers <ul style="list-style-type: none"> ○ Duties and Charges of up to 0.50% of the subscription or redemption amount (as the case may be) will be payable to the Sub-Fund. Normal brokerage and other fees apply. • For subscription and/or redemption of Shares in-kind by or through Participating Dealers <ul style="list-style-type: none"> ○ Transaction fee for each creation or redemption request is currently S\$ 800 per request (Maximum: S\$ 5,000 per request).
