## **SINGAPORE PROSPECTUS**

This Singapore Prospectus incorporates and is not valid without the attached Luxembourg Prospectus dated 3 July 2025 for UBS (Lux) Key Selection SICAV (the “**Luxembourg Prospectus**”). Unless the context otherwise requires, terms defined in the Luxembourg Prospectus shall have the same meaning when used in this Singapore Prospectus except where specifically provided for by this Singapore Prospectus.

UBS (Lux) Key Selection SICAV is an open-ended investment company with variable capital incorporated under the laws of Luxembourg and is constituted outside Singapore. The management company of the UBS (Lux) Key Selection SICAV, UBS Asset Management (Europe) S.A. (formerly known as UBS Fund Management (Luxembourg) S.A.), has appointed UBS Asset Management (Singapore) Ltd. (whose details appear in the Directory of this Singapore Prospectus) as the UBS (Lux) Key Selection SICAV’s Singapore Representative and agent for service of process.

## IMPORTANT INFORMATION

The collective investment schemes offered in this Singapore Prospectus, namely, the UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD) and the UBS (Lux) Key Selection SICAV – European Growth and Income (EUR) (each a “**Sub-Fund**” and, collectively, the “**Sub-Funds**”), established as sub-funds of the UBS (Lux) Key Selection SICAV (the “**Company**”), are recognised schemes under the Securities and Futures Act 2001 of Singapore (the “**SFA**”).

A copy of this Singapore Prospectus has been lodged with and registered by the Monetary Authority of Singapore (the “**Authority**”). The Authority assumes no responsibility for the contents of this Singapore Prospectus. The registration of this Singapore Prospectus by the Authority does not imply that the SFA or any other legal or regulatory requirements have been complied with. The Authority has not, in any way, considered the investment merits of the Sub-Funds. **You should note that other sub-funds or other share classes referred to in the Luxembourg Prospectus but which are not listed or described in Paragraph 2 of this Singapore Prospectus are not available for subscription by retail investors in Singapore. Such references are not and should not be construed as an offer of shares in such other sub-funds and share classes to retail investors in Singapore.**

The date of registration of this Singapore Prospectus is 9 January 2026. This Singapore Prospectus shall be valid for a period of 12 months from the date of registration (up to and including 8 January 2027) and shall expire on 9 January 2027.

The Company is an umbrella fund that offers investors various sub-funds that invest in accordance with their specific investment policies. Each Sub-Fund is considered to be independent of the others. The assets of a Sub-Fund are only liable for liabilities incurred by that Sub-Fund. The Company may decide to create different share classes with specific characteristics within these Sub-Funds. Please note that only the classes of shares listed or described in Paragraph 2 in respect of each Sub-Fund are available to retail investors in Singapore.

The Board of Directors have taken all reasonable care to ensure that the facts stated in this Singapore Prospectus are true and accurate in all material respects and that there are no other material facts the omission of which makes any statement of fact or opinion in this Singapore Prospectus misleading. The Board of Directors accept responsibility accordingly.

The distribution of this Singapore Prospectus and the offering of shares of the Sub-Funds may be restricted in certain jurisdictions. This Singapore Prospectus is not an offer or solicitation in any jurisdiction where such offer or solicitation is unlawful, where the person making the offer or solicitation is not authorised to make it or a person receiving the offer or solicitation may not lawfully receive it.

You should be aware of (a) the legal requirements within your own country for the purchase of the shares, (b) any foreign exchange restrictions which may be applicable, and (c) the income and other tax consequences of purchase, conversion and redemption of the shares.

You are advised to carefully consider the risk factors set out in the Luxembourg Prospectus and under Paragraph 7 of this Singapore Prospectus. **You should note that the Sub-Funds may invest in financial derivative instruments for hedging purposes, for the purpose of efficient portfolio management or investment purposes (optimising returns) to the extent permitted under the Luxembourg laws.**

If you are in any doubt about the contents of this Singapore Prospectus, you should consult your stockbroker, bank manager, solicitor, accountant or other independent financial adviser. Shares are offered on the basis of the information contained in this Singapore Prospectus and the documents referred to in this Singapore Prospectus. No person is authorised to give any information or to make any representations concerning the Company or the Sub-Funds other than as contained in this Singapore Prospectus. Any purchase made by any person on the basis of statements or representations not contained in or inconsistent with the information and representations contained in this Singapore Prospectus will be solely at the risk of the purchaser.

The delivery of this Singapore Prospectus or the issue of shares in any Sub-Fund shall not, under any circumstances, create any implication that the affairs of the Company and/or the Sub-Funds have not changed since the date of this Singapore Prospectus. To reflect material changes, this Singapore Prospectus may be updated from time to time and you should investigate whether any more recent Singapore Prospectus is available.

You may wish to consult an independent financial adviser about the suitability of the Sub-Funds for your investment needs.

The shares of the Sub-Funds are capital markets products other than prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

**IMPORTANT: PLEASE READ AND RETAIN THIS SINGAPORE PROSPECTUS FOR FUTURE REFERENCE**

## 1. THE COMPANY

- 1.1 The Company was established on 9 August 2002 in Luxembourg as an open-ended investment fund in the form of a “Société d’Investissement à Capital Variable” (SICAV), pursuant to Part I of the Luxembourg Law of 30 March 1988 relating to undertakings for collective investment and was adapted in February 2004 to conform to the provisions of the Law of 20 December 2002 relating to undertakings for collective investment; it has been subject to the Law of 17 December 2010 on undertakings for collective investment (the “**Law of 2010**”) since 1 July 2011.
- 1.2 The Company is an umbrella fund that offers investors various sub-funds that invest in accordance with their specific investment policies. Each Sub-Fund is considered to be independent of the others. The assets of a Sub-Fund are only liable for liabilities incurred by that Sub-Fund. The Company may decide to create different share classes with specific characteristics within these Sub-Funds.
- 1.3 The articles of incorporation of the Company were first published in the *Mémorial, Recueil des Sociétés et Associations* on 23 August 2002 and the consolidated version of the articles of incorporation of the Company may be consulted at the Luxembourg trade and companies register (*Registre de Commerce et des Sociétés*).
- 1.4 You may inspect copies of the articles of incorporation of the Company, free of charge, at the operating office of the Singapore Representative, during normal Singapore business hours. You may also obtain, free of charge, copies of the articles of incorporation of the Company, the latest copies of the annual and semi-annual reports and the latest copies of the semi-annual accounts and annual accounts of the Company from the Singapore Representative upon request.
- 1.5 Full details of the Company are set out under the section headed “THE COMPANY” in the Luxembourg Prospectus.
- 1.6 In the interest of efficiency, the Company may permit internal merging and/or the collective management of assets from particular sub-funds. In such cases, assets from different sub-funds are managed collectively. A group of collectively managed assets is referred to as a ‘pool’; pooling is used exclusively for internal management purposes. Pools are not official entities and cannot be accessed directly by shareholders. Full details are set out under the section headed “INVESTMENT PRINCIPLES” under the sub-headings “ASSET POOLING”, “POOLS” and “COLLECTIVE MANAGEMENT” in the Luxembourg Prospectus.

## 2. THE SUB-FUNDS

- 2.1 The sub-funds currently offered in Singapore pursuant to this Singapore Prospectus are (each a “**Sub-Fund**” and, collectively, the “**Sub-Funds**”):

<u>Sub-Fund</u>	<u>Currency of account</u>
2.1.1 UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD) (the “ <b>China Allocation Opportunity (USD)</b> ”)	US Dollar

\* *This share class has not been launched as at the date of this Singapore Prospectus. You may wish to check with your Approved Singapore Distributor on the future availability of this share class.*

\*\* *This share class is currently inactive and therefore not available for subscription. You may wish to check with your Approved Singapore Distributor on the future availability of this share class.*

2.3 The Company may in its discretion from time to time and in respect of any Sub-Fund, make available for subscription any other share classes with "P" in their name (with the relevant additional characteristics referenced in the Luxembourg Prospectus) in addition to the share classes listed in the table above or may close any share class to new subscriptions. The list of share classes which may be available to you for subscription may therefore change from time to time. You may wish to contact your Approved Singapore Distributor for the latest list of available share classes. Share classes available for subscription in Singapore pursuant to this Singapore Prospectus shall be referred to as the "**Share Classes**" and shares within such Share Classes shall be referred to as "**Shares**".

2.4 Characteristics of the respective Share Classes are set out under the section headed "SHARE CLASSES" in the Luxembourg Prospectus.

2.5 Shares are issued as registered shares only (full details are set out in the section headed "ISSUE OF SHARES" in the Luxembourg Prospectus).

2.6 The Company may from time to time, subject to obtaining the relevant regulatory approvals if required, create additional share classes in respect of any Sub-Fund and may offer such additional share classes or any other existing share classes in Singapore.

### **3. MANAGEMENT AND ADMINISTRATION**

#### **3.1 Board of Directors of the Company**

The Board of Directors of the Company as listed in the Directory herein is ultimately responsible for managing the business affairs of the Company in accordance with the Company's articles of incorporation.

#### **3.2 Management Company and its Directors and Key Executives**

##### **3.2.1 Management Company**

With effect from 16 May 2011, UBS Asset Management (Europe) S.A. (formerly known as UBS Fund Management (Luxembourg) S.A.) (the “**Management Company**”) assumed the function of management company of the Company. The Management Company was established in Luxembourg on 1 July 2010 as an Aktiengesellschaft public limited company for an indefinite period. The Management Company is regulated by the Commission de Surveillance du Secteur Financier (CSSF).

In addition to the Company, the Management Company currently also manages other undertakings for collective investment. The Management Company has been managing collective investment schemes since 15 September 2010. The Management Company also acts as domiciliary agent for the Company and has delegated such domiciliary agent functions to UBS Europe SE, Luxembourg Branch.

If the Management Company becomes insolvent, a liquidator will be appointed and will organise the liquidation of the Management Company. The liquidator will take day-to-day management decisions in replacement of the board of directors of the Management Company. The assets of the Management Company are always separated from the assets of the funds under its management.

Further details on the Management Company are set out under the section headed “**MANAGEMENT COMPANY**” in the Luxembourg Prospectus.

### 3.2.2 **Directors of the Management Company**

**The list of directors of the Management Company may be changed from time to time without notice.<sup>1</sup>**

#### **Manuel Roller**

Mr. Manuel Roller is the Head of Fund Management in the Asset Management Division of UBS, based in Zurich. In this function, Mr. Roller is responsible for fund provider oversight and governance, as well as fund service provider strategy and management globally. Moreover, Mr. Roller is the Chair of the Board of Directors for UBS Fund Management (Switzerland) AG and UBS Asset Management (Europe) SA.

Previously, Mr. Roller was the Head of Pricing Asset Management from 2022 to 2024, where he was responsible for developing and implementing pricing strategies across the mandate and fund offering of UBS Asset Management. From 2018 to 2024, Mr. Roller also held several roles in the Products business area, being responsible for product lifecycle management, innovation, as well as inorganic strategic initiatives. Mr. Roller’s career at UBS began in 2015 in the strategy and business development department within the Swiss bank. From 2015 to March 2018, Mr. Roller served as the Chief of Staff to the President Asset Management and President EMEA. Before joining UBS, Mr. Roller gained valuable experience at Commerzbank AG, where he held roles as project manager as well as business development specialist in corporate banking and infrastructure finance.

---

<sup>1</sup> The appointments of Francesco Grana and Giovanni Papini, each as a Director of the Management Company, are not currently reflected in the Luxembourg Prospectus. The Luxembourg Prospectus will be updated to reflect such appointments in due course.

Mr. Roller holds a Master of Arts (M.A.) in Quantitative Economics and Finance and a Bachelor of Arts (B.A.) in Economics from the University of St. Gallen (HSG), and has over 15 years of experience in the investment industry.

#### **Francesca Prym**

Ms. Francesca Prym has been the CEO of the Management Company since February 2019. In her role as CEO, Ms. Prym is responsible for the overall management and conduct of business.

Ms. Prym was from 2016 until February 2019 acting as Head of Compliance and Operational Risk Control of the Management Company. In this capacity, she was responsible for implementation and monitoring of the compliance policy, centralization of information on compliance issues, analysis of compliance issues, interventions and follow-up, assistance and advice to senior management and board of directors in compliance matters, complaints handling, awareness and training of staff, communication with authorities, documentation of the work and internal reporting. Ms. Prym speaks Italian, English, French and has a good basic knowledge in German. Prior to joining UBS, Ms. Prym was working as Managing Director for SMBC Nikko during 4 years and Conducting Officer in charge of Risk Management at MDO during 5 years.

Ms. Prym holds a Master's degree in Economics & Finance from Università degli Studi di Firenze (Italy) and Sup de Co Reims (France).

#### **Eugène Del Cioppo**

Mr. Eugène Del Cioppo is CEO of UBS Fund Management (Switzerland) AG and is responsible for the White Labelling Solutions unit within UBS Asset Management Products. His remit includes the management of Business Development, Client and Product Management & Development teams in Switzerland and Luxembourg offering white labelling solutions to Wholesale, Institutional and Wealth Management clients.

He joined UBS Asset Management in April 2002 and in June 2006 he was appointed to lead the Client Relationship Management team followed by a promotion in August 2010 to become a member of the Executive Board of the Swiss Management Company UBS Fund Management (Switzerland) AG, leading the Business Development and Client Relationship Management teams. Since March 1st, 2014, Mr. Del Cioppo has enlarged his responsibilities to his current role and in 2015 he became the Chairman of the board of UBS Third Party Management Company and UBS Fund Services Luxembourg.

Since joining UBS Asset Management, Mr. Del Cioppo has gained deep knowledge of the Swiss and European fund market and how to understand and transform into solutions the needs of wholesale, institutional and wealth management clients.

Mr. Del Cioppo holds a Licentiate degree in Political Science from the University of Basel.

#### **Ann-Charlotte Lawyer**

Mrs. Ann-Charlotte Lawyer is an independent non-executive member of the board. Mrs. Lawyer has extensive experience in the financial industry.

Previously, Mrs. Lawyer was executive director and head of Swedbank Management Company S.A., Luxembourg, where she was conducting officer for investment management, distribution, internal audit, finance and information technology. Before joining

Swedbank in 2016, she was executive director, head of fund services and conducting officer for SEB Fund Services S.A (now known as Fundrock/Apex) for 7 years where she was responsible for risk management, compliance, internal audit and finance.

Prior to that, Mrs. Lawyer held various roles in Skandinaviska Enskilda Banken AB (publ) across a span of 18 years, including being an advisor to the Head of Merchant Banking and also had a decade of working experience in Trading and Capital Markets.

Mrs. Lawyer holds an International Economics and French degree from the University of Uppsala and a Bachelor's degree in Economics from Lawrence University, Appleton Wisconsin, USA. Mrs. Lawyer is also a CAMS – Certified Anti-Money Laundering Specialist and IFBL certified in specialist private equity administration and business processes.

#### **Francesco Grana**

Mr. Francesco Grana is the Head of Global Wholesale Client Coverage and Head of EMEA AM region and is responsible for running a team of 130 people located in all the major global locations. Previously, Mr. Grana was the Head of Wholesale Client Coverage for EMEA and Switzerland and was responsible for running a team of 60 people located in all the major EMEA locations, and was also Head of UBS Partner Global Development and was responsible for setting up and running the business development team of the newly formed technology outsourcing unit called UBS partner.

Mr. Grana is also the Chairman of the Board of UBS Asset Management (Italia) SGR Spa and is responsible for driving the overall strategy of the business and representing the company in a variety of forums. Previously, Mr. Grana was a board member of UBS Luxembourg S.A. and supported the planning, execution and monitoring of the strategic direction of the bank.

Mr. Grana holds a Degree in Economics from the Universita' Cattolica, Milan, Italy.

#### **Giovanni Papini**

Mr. Giovanni Papini is a member of the UBS AM Division EMEA Management Committee and was previously CEO and Country Head UBS Asset Management Italy, which primarily focused on client coverage and market strategy, people and team development / management and supervision and leadership of the company governance. Previously, Mr. Papini was also Head of Wholesale Business Italy and Head of Wholesale Business Southern Europe for UBS.

Mr. Papini attended the School of Statistics within the Economic department of the University of Florence and obtained his diploma in 1982.

#### **3.2.3 Key Executives of the Management Company**

**The list of key executives of the Management Company may be changed from time to time without notice.<sup>2</sup>**

##### **Francesca Prym (CEO)**

---

<sup>2</sup> The (a) appointments of Marcus Ulm, Anna Paola Ionna and Lisiane Asnouri-Favini; and (b) resignation of Stéphanie Minet, each as a Conducting Officer of the Management Company, are not currently reflected in the Luxembourg Prospectus. The Luxembourg Prospectus will be updated to reflect such appointments and resignation in due course.

Please refer to Ms. Prym's biography under the section headed "3.2.2 Directors of the Management Company" above.

**Valérie Bernard** (Conducting Officer)

Ms. Valérie Bernard is acting as conducting officer of the Management Company, which is domiciled in Luxembourg focusing on UBS investment funds and white labelling business.

In this capacity and with respect to Distribution, Compliance, Custody and Registration functions, she is responsible for identifying, assessing and monitoring risks to which the Management Company and the Luxembourg domiciled funds under management could be exposed, and to ensure adequate oversight and monitoring is in place.

Ms. Bernard joined UBS in January 1997 and before joining the Management Company in June 2013, Ms. Bernard had management responsibilities within UBS Fund Services Luxembourg where she acted as Product Control Head and subsequently as Head NAV Administration.

Prior to joining UBS, Ms. Bernard worked as an external auditor at Deloitte Luxembourg from 1993 to 1997.

Ms. Bernard holds a Masters in Business Administration from Liège University (Belgium) and a Masters in European Business from the University of Northampton (UK).

**Geoffrey Lahaye** (Conducting Officer)

Mr. Geoffrey Lahaye joined the Management Company on 15 September 2015, and is responsible for conducting the business of the Management Company.

In this capacity, he is responsible for identifying, assessing and monitoring risks to which the Management Company and the Luxembourg domiciled UBS funds (managed by the Management Company) could be exposed and to ensure adequate controls are in place.

Prior to joining UBS he was an Audit Manager at Ernst & Young Luxembourg for 7 years and, afterwards a Vice President at J.P. Morgan Bank Luxembourg S.A. for 7 years.

Mr. Lahaye holds a Master's in Business Administration from the University of Louvain-La-Neuve (Belgium).

**Olivier Humbert** (Conducting Officer)

Mr. Olivier Humbert is acting as a conducting officer of the Management Company. Mr. Humbert is responsible for the risk management function. In his role, he is coordinating and overseeing all risk monitoring activities in relation to investment risks, corporate risks as well as the risks resulting from the delegation of core activities of the Management Company.

Mr. Humbert joined UBS in April 2007 as an Operational Risk Manager of the central administrator, UBS Fund Services (Luxembourg) S.A. Prior to joining UBS, he had 5 years of experience at Deloitte Luxembourg within the Audit and then Advisory departments where he had responsibilities in various assignments related to the fund business (external & internal audit, risk & advisory assignments, etc).

Mr. Humbert holds a Master in Auditing (DESS Audit – IECS Strasbourg).

**Andrea Papazzoni** (Conducting Officer)

Mr. Andrea Papazzoni is acting as a conducting officer of the Management Company and is responsible for the ongoing implementation and management of white label funds in Luxembourg. In this role Andrea works closely with the financial intermediary market, administration service providers and financial advisors.

Prior to joining UBS, Mr. Papazzoni worked as Conducting Officer for a Japanese Management Company developing the due diligence team and he was responsible for setting up Cayman and Bermuda vehicles for Asian clients. Mr. Papazzoni also worked as Senior Risk Manager in an independent third-party management company in Luxembourg. Mr. Papazzoni started his career as a Junior Asset Manager in an Italian Family Office.

Mr. Papazzoni holds a Masters in Finance and Risk Management (University of Parma, Parma Italy).

**Nina Egelhof** (Conducting Officer)

Nina Egelhof is acting as a Conducting Officer of the Management Company, serving UBS investment funds and white labelling business.

In this capacity and with respect to branches of the Management Company, IT and project management, she is responsible for identifying, assessing and monitoring risks to which the Management Company and the funds which have appointed the Management Company as management company could be exposed, and to ensure adequate oversight and monitoring is in place.

Ms. Egelhof joined UBS in October 2024 as part of the Credit Suisse integration. Prior to joining UBS, she was a Conducting Officer for the Credit Suisse management company, responsible for IT and Product Management as well as project management and registrations.

Ms. Egelhof started her career in 2005 with PwC Luxembourg and worked from 2007 till 2011 for DZ Privatbank before joining Credit Suisse.

Ms. Egelhof holds a Diplom-Kauffrau (German MBA equivalent) from Universität des Saarlandes (Germany).

**Andreas Rossi** (Conducting Officer)

Andreas Rossi is heading the Investment Risk Control team of the Management Company, focusing on the investment funds and white labelling business conducted under the UBS management companies in Luxembourg. In this role he is responsible for the development and implementation of investment risks policies and procedures. He is responsible for identifying, assessing and monitoring investment risks to which investment funds are exposed. He acts as an advisor to Boards in regard to those risks.

He also chairs the Valuation Committee. In this role he ensures an adequate control framework in order to mitigate valuation related risks for UCITS and UCITS-like funds.

Mr. Rossi joined UBS in 2013.

Prior to joining UBS, he worked for 7 years as Investment Risk Manager at Allianz Global Investors.

Mr. Rossi holds a PhD in Finance from the University of Innsbruck.

**Marcus Ulm** (Conducting Officer)

Marcus Ulm is acting as a conducting officer of the Management Company for 3rd party client management and claim and complaint handling. He is also a member of the board of directors of MultiConcept Fund Management. He is responsible for life cycle management of 3rd party client business and represents the Management Company to (cross border) depository bank, service providers and sales organizations.

Mr. Ulm joined UBS in July 2025 as part of the Credit Suisse integration. Prior to joining UBS, he was a Board Member, CEO and Conducting Officer for MultiConcept Fund Management S.A., regulatory responsible for audit, financial management/accounting/MIS and information technology. Mr. Ulm worked in Credit Suisse since 2008, working across various roles including senior project manager, vice president and Chief Operating Officer.

Marcus Ulm holds a Master's in Business Administration and is a chartered Risk Manager (from University Augsburg (Germany)).

**Anna Paola Ionna** (Conducting Officer)

Anna Paola Ionna is acting as a conducting officer of the Management Company. Ms. Ionna is also the Head of Compliance and Anti Money Laundering Function of the UBS Italian AM entity and is in charge of setting up the Compliance and Anti Money Laundering Local Function, managing the compliance and operational risk control framework. Previously, Ms. Ionna was a senior auditor of a bank, acquired in December 2015 by Oaktree Capital Management Company, with the aim of creating a new financial intermediary through the implementation of a new banking strategy and a new organisation.

Ms. Ionna holds a degree in Business Administration from the L.Bocconi University in Milan.

**Lisiane Asnouni-Favini** (Conducting Officer)

Lisiane Asnouni-Favini is acting as a conducting officer of the Management Company. Ms. Asnouni-Favini is acting as the Responsable du Controle for the Management Company and is the team leader for the AML/CFT Team, ensuring compliance with applicable AML/CFT laws and regulations, including UBS Group policies and guidelines by providing appropriate advice and recommendations, keeping the AML/CFT framework up-to-date and reporting accordingly to the respective Board of Directors and authorities. Previously, Ms. Asnouni-Favini was the Compliance Lead for The Carlyle Group, Luxembourg, acting as the Responsable du Controle for SICARs and AIFs managed by a non-EU AIFM and was also Compliance Officer for UBS Europe SE, Luxembourg Branch, as part of the Financial Crime Prevention team within the Compliance Department covering the Private Banking and Depositary Bank Business.

Ms. Asnouni-Favini holds a Bachelor's Degree in Foreign Languages applied to Business Management obtained from the Université de Lorraine, Metz, France in 2015, a Master's Degree in European Law obtained from the Centre Européen Universitaire, Nancy, France in 2017 and is a Master Class Compliance Officer in the Financial Sector and holds a RC Capacity Certificate for the Fund Industry, both obtained from the House of Training, Luxembourg.

### 3.3 Portfolio Managers

Sub-Fund	Portfolio Manager
China Allocation Opportunity (USD)	UBS Asset Management (Hong Kong) Limited
European Growth and Income (EUR)	UBS Asset Management (UK) Ltd.

Each Portfolio Manager has been assigned the management of the securities portfolio of the respective Sub-Funds (as set out above) under the supervision and responsibility of the Management Company, to this end, it carries out all transactions relevant hereto in accordance with the prescribed investment restrictions.

A Portfolio Manager may transfer its mandates, fully or in part, to associated portfolio managers within UBS Asset Management. However, responsibility in each case remains with the relevant Portfolio Manager.

UBS Asset Management is a business division of UBS AG. UBS Asset Management provides a diverse range of traditional, alternative, real estate, infrastructure and private equity investment solutions to private clients, financial intermediaries and institutional investors around the globe.

#### 3.3.1 UBS Asset Management (Hong Kong) Limited

UBS Asset Management (Hong Kong) Limited, a subsidiary of UBS Asset Management AG incorporated in Hong Kong, is regulated by the Hong Kong Securities and Futures Commission.

UBS Asset Management (Hong Kong) Limited has been managing collective investment schemes and discretionary funds since 1992.

#### 3.3.2 UBS Asset Management (UK) Ltd.

UBS Asset Management (UK) Ltd. is a subsidiary of UBS Asset Management AG. UBS Asset Management (UK) Ltd. was incorporated in England on 19 February 1981 and is authorised and regulated in the United Kingdom in the conduct of financial services and investment management activities by the UK Financial Conduct Authority. UBS Asset Management (UK) Ltd. (through predecessor entities) began managing its first external pension fund in 1952.

***Past performance of the Management Company, the Portfolio Managers or their affiliates and subsidiaries is not necessarily indicative of their future performance or of the Sub-Funds.***

If any one of the Portfolio Managers becomes insolvent, a liquidator will be appointed and will organise the liquidation of the Portfolio Manager. The liquidator will take day-to-day management decisions in replacement of the board of directors of the Portfolio Manager. The assets of Portfolio Managers are always separated from the assets of the funds under their management.

## 4. OTHER PARTIES

### 4.1 The Singapore Representative and Agent for Service of Process

- 4.1.1 UBS Asset Management (Singapore) Ltd. has been appointed by the Management Company as the representative for the Sub-Funds in Singapore (the “**Singapore Representative**”) for the purposes of performing administrative and other related functions relating to the offer of Shares under Section 287 of the SFA and such other functions as the Authority may prescribe.
- 4.1.2 Key functions carried out by the Singapore Representative in respect of the distribution of the Sub-Funds in Singapore include:
  - (i) facilitating:
    - (a) the issue and redemption of Shares in the Sub-Funds;
    - (b) the publishing of the issue and redemption prices of Shares in the Sub-Funds;
    - (c) the sending of reports of the Sub-Funds to Singapore shareholders;
    - (d) the furnishing of such books relating to the sale and redemption of Shares in the Sub-Funds as the Authority may require;
    - (e) the inspection of instruments constituting the Company and the Sub-Funds; and
  - (ii) maintaining for inspection in Singapore a subsidiary register of shareholders who subscribed for or purchased their shares in Singapore (“**Singapore Participants’ Records**<sup>3</sup>”) or maintaining in Singapore any other facility that enables the inspection or extraction of the equivalent information.
- 4.1.3 The Singapore Participants’ Records are available for inspection by Singapore shareholders at the operating office of the Singapore Representative during normal business hours in Singapore.
- 4.1.4 The Singapore Representative has also been appointed by the Management Company to act as the Company’s local agent in Singapore to accept service of process on behalf of the Company.

## 4.2 **The UCI Administrator and registrar**

Northern Trust Global Services SE has been appointed as the UCI administrator of the Company (the “**UCI Administrator**”) as well as the Company’s registrar.

The UCI Administrator is responsible for the general administrative tasks involved in managing the Company as prescribed by Luxembourg law. These administrative services mainly include calculating the net asset value per share, keeping the Company’s accounts and carrying out reporting activities. In addition, as registrar and transfer agent of the Company, the UCI Administrator is also responsible for collecting the required information and performing verifications on investors to comply with applicable anti-money laundering rules and regulations. Furthermore, the UCI Administrator provides client communication services, being responsible for the production and dispatch of documents intended for investors.

---

<sup>3</sup> Commonly referred to in Singapore as a “Singapore Subsidiary Register”.

#### 4.3 The Depositary and Main Paying Agent

UBS Europe SE, Luxembourg Branch (the “**Depositary**”) has been appointed as depositary of the Company. The Depositary will also provide paying agent services to the Company. The Depositary is regulated by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg.

The Depositary has been assigned the safekeeping of those financial instruments of the Company that can be held in custody, as well as the record keeping and verification of ownership for other assets held by the Company. The Depositary shall also ensure the effective and proper monitoring of the Company's cash flows pursuant to the provisions of the Law of 2010 and the depositary agreement, each as amended.

The Depositary may, subject to certain conditions and with the aim of effectively fulfilling its duties, appoint sub-depositaries. In order to ensure that its tasks are only delegated to sub-depositaries providing an adequate standard of protection, the Depositary must exercise all due skill, care and diligence as required by the Law of 2010 in the selection and appointment of any sub-depository to which it intends to delegate a portion of its tasks.

If the Depositary becomes insolvent, a liquidator will be appointed and will organise the liquidation of the Depositary. The liquidator will take day-to-day management decisions in replacement of the board of directors of the Depositary. The assets of the Depositary are always separated from the assets of the funds under its custody.

Further details on the Depositary and the custodial arrangements in respect of the assets of the Company are set out under the section headed “DEPOSITARY AND MAIN PAYING AGENT” in the Luxembourg Prospectus.

### 5. INVESTMENT OBJECTIVES AND POLICIES

The investment objectives and policies of the Company are described in the section headed “INVESTMENT OBJECTIVE AND INVESTMENT POLICY OF THE SUBFUNDS” of the Luxembourg Prospectus and should be read together with the investment objective and policy of the Sub-Funds as described in the same section under the sub-headings “UBS (LUX) KEY SELECTION SICAV – CHINA ALLOCATION OPPORTUNITY (USD)” and “UBS (LUX) KEY SELECTION SICAV – EUROPEAN GROWTH AND INCOME (EUR)”.

For easy reference, part of the investment objectives and policies of the Sub-Funds on offer in Singapore has been extracted from these sections of the Luxembourg Prospectus and is reproduced below. **You should review the full investment objectives and policies as set out in the Luxembourg Prospectus.**

#### 5.1 Investment objective and general investment policy of the Company

The Company aims to achieve high growth and/or current earnings, while giving due consideration to capital security and the liquidity of the Company's assets.

Assets of the sub-funds under the Company are invested following the principle of risk diversification and their assets are invested worldwide in equities, other share-like equity interests, such as cooperative shares, dividend-right certificates and participation certificates (other equity instruments and rights), short-term securities, money market instruments, warrants on securities, as well as debt instruments and claims. Debt instruments and claims include bonds, notes, all types of asset-backed securities,

convertible bonds, convertible notes, warrant-linked bonds, as well as all legally permissible assets. In addition, the sub-funds under the Company may invest in American depository receipts (ADRs), global depository receipts (GDRs) and structured products linked to equities, such as equity-linked notes.

## 5.2 **ESG Integration**

UBS Asset Management categorises certain Sub-Funds as ESG Integration funds. The Portfolio Manager aims to achieve investors' financial objectives while incorporating sustainability into the investment process. The Portfolio Manager defines sustainability as the ability to leverage the Environmental, Social and Governance (ESG) factors of business practices seeking to generate opportunities and mitigate risks that contribute to the long-term performance of issuers ("Sustainability"). The Portfolio Manager believes that consideration of these factors will deliver better informed investment decisions. Unlike funds which promote ESG characteristics or with a specific sustainability or impact objective that may have a focused investment universe, ESG Integration funds are investment funds that primarily aim at maximising financial performance, whereby ESG aspects are input factors within the investment process. Investment universe restrictions applied on all actively managed funds are captured in the Sustainability Exclusion Policy. Further binding factors, if applicable, are outlined in the Investment Policy of the Sub-Fund.

ESG integration is driven by taking into account material ESG risks as part of the research process. For corporate issuers, this process utilises the ESG Material Issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager employs a proprietary ESG Risk Dashboard that combines multiple ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process. For non-corporate issuers, the Portfolio Manager may apply a qualitative or quantitative ESG risk assessment that integrates data on the most material ESG factors. The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.

The Portfolio Manager takes ESG integration into account in allocation in underlying strategies, including target funds (as defined in Paragraph 6 below). In the case of underlying strategies managed by UBS, the Portfolio Manager identifies ESG-integrated assets on the basis of the aforementioned research on ESG integration. For externally managed strategies, ESG integrated assets are identified via the third party manager research process.

## 5.3 **Sustainability Exclusion Policy**

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the Sub-Funds.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing.html>

#### **5.4 Sustainability Annual Reporting**

The “UBS Sustainability Report” is the medium for UBS’ sustainability disclosures. Published annually, the report aims to openly and transparently disclose UBS’ sustainability approach and activities, consistently applying UBS’ information policy and disclosure principles.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing.html>

#### **5.5 Engagement Program**

The engagement program aims to prioritize/select companies where UBS Asset Management has identified concerns or thematic topics on particular ESG factors. These companies are selected from across the universe of companies in which UBS Asset Management invests using a top-down approach in accordance with our principles, as outlined in the Global Stewardship Policy. The prioritization process determines if and when engagement with a company is required. If a company is selected for the Engagement Program, engagement dialogue will generally last for at least two years. This is not an indication that sustainability related engagement has taken place with respect to companies in this portfolio during any given time period or that the companies in this portfolio were chosen with the goal to actively engage. Information on UBS Asset Management's selection of companies, engagement activities, prioritization process and understanding of concerns can be found in the UBS Asset Management Stewardship Annual Report and Stewardship Policy.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing/stewardship-engagement.html>

#### **5.6 Voting**

UBS will actively exercise voting rights based on the principles outlined in the UBS Asset Management Proxy Voting policy and UBS Asset Management Stewardship policy, with two fundamental objectives:

1. To act in the best financial interests of our clients to enhance the long-term value of their investments.
2. To promote best practice in the boardroom and encourage strong sustainability practices.

This is not an indication that voting on sustainability related topics has taken place with respect to companies held by a sub-fund during any given time period. For information about voting activities with specific companies please refer to the UBS Asset Management Stewardship Annual Report.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing/stewardship-engagement.html>

#### **5.7 Investment objective and policy of the Sub-Funds**

##### **5.7.1 UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD)**

UBS Asset Management categorises this Sub-Fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective. Please refer to Paragraphs 5.2 to 5.4 above for

further details on ESG integration, Sustainability Exclusion Policy and Sustainability Annual Reporting.

The objective of the Sub-Fund is to achieve capital growth and generate income by investing in a diversified portfolio with a focus on China. This Sub-Fund is actively managed, without reference to a benchmark.

To achieve this objective, the Sub-Fund invests mainly in equities and equity rights or bonds and claims of companies domiciled or chiefly active in China, in addition to other permissible investments which focus on China. To the extent permitted by law, the Sub-Fund may also invest in securities traded on the Chinese onshore securities market. This includes Chinese A shares as well as fixed-income instruments denominated in RMB traded on China's interbank bond market ("CIBM") or on the market for exchange-traded bonds ("**Chinese onshore bonds**"). In particular, the Sub-Fund may invest directly or indirectly in Chinese A shares/Chinese onshore bonds through the Qualified Foreign Investors ("**QFI**") programme, in UCITS or other UCIs with exposure to Chinese A shares/Chinese onshore bonds and/or access products such as exchange traded funds (ETFs). You should note that the Sub-Fund's exposure may also include Chinese A shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect.

The Sub-Fund may invest no more than 20% of its net assets in fixed-income instruments denominated in RMB and traded on the CIBM. The Sub-Fund may invest in bonds and claims with a low rating, i.e. a rating of BBB (Standard & Poor's) or lower, a comparably low rating from another recognised rating agency or – insofar as a new issue is concerned that does not yet have an official rating or an issue that has no rating at all – a comparably low internal UBS rating. Investments with lower ratings may carry an above-average yield, but also a higher credit risk than investments in securities of first-class borrowers.

The Sub-Fund may make investments denominated in USD and other currencies (including HKD and RMB).

In order to fulfil its investment objective and achieve broad diversification, the Sub-Fund may invest up to 10% of its net assets in UCITS<sup>4</sup> and other UCIs<sup>2</sup>. You should refer to the section headed "**INVESTMENTS IN UCIs AND UCITS**" of the Luxembourg Prospectus for details on this method of investment and the associated expenses.

In order to fulfil its investment objective, the Sub-Fund may also invest in all other legally permissible instruments, including structured products, certificates and derivative financial instruments, which can be used for hedging purposes and/or for participating in the expected market developments.

Further information on such investments is set out in the section headed "**INVESTMENT OBJECTIVE AND INVESTMENT POLICY OF THE SUBFUNDS**" of

---

<sup>4</sup> "UCIs" means Undertakings for Collective Investment and "UCITS" means Undertakings for Collective Investment in Transferable Securities constituted under Part I of the Law of 2010.

the Luxembourg Prospectus under the sub-heading “UBS (LUX) KEY SELECTION SICAV – CHINA ALLOCATION OPPORTUNITY (USD)”.

5.7.2 UBS (Lux) Key Selection SICAV – European Growth and Income (EUR)

UBS Asset Management categorises this Sub-Fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective. Please refer to Paragraphs 5.2 to 5.4 above for further details on ESG integration, Sustainability Exclusion Policy and Sustainability Annual Reporting.

The actively managed Sub-Fund uses a composite benchmark consisting of one-third MSCI Europe Index (net div. reinvested), one-third ICE BofA EUR High Yield 3% Constrained Index and one-third convertible bond indices (comprised of 50% Refinitiv Eurozone Convertible Bond Index (EUR) and 50% Refinitiv Global Convertible Index – Global Vanilla (hedged in EUR)) as reference for portfolio construction, performance evaluation and risk management purposes<sup>5</sup>. For Share Classes with “hedged” in their name, currency-hedged versions of the relevant benchmark (if available) are used. Although part of the relevant portfolio may be invested in the same instruments and applying the same weightings as the relevant benchmark, the Portfolio Manager is not constrained by the relevant benchmark in terms of choice of instruments. The Portfolio Manager may use other instruments in pursuit of the investment strategy. The performance of the Sub-Fund may therefore differ considerably from the relevant benchmark in periods of high market volatility.

The aim of the Sub-Fund is to put together a diversified portfolio consisting primarily of European equities, bonds and convertible bonds in such a way as to achieve long-term growth. Investing in high-yield bonds plays a central role in the investment strategy. Specifically, a maximum of 75% of the Sub-Fund's investments shall be in debt securities, receivables and convertible bonds with a low rating, i.e. a maximum rating of BBB (Standard & Poor's), a comparably low rating from another recognised rating agency or – insofar as a new issue is concerned that does not yet have an official rating or an issue that has no rating at all – a comparably low internal UBS rating. Investments with lower ratings may carry an above-average yield, but also a higher credit risk than investments in securities of first-class borrowers. The Sub-Fund may invest a maximum of 40% of its assets in all types of convertible, exchangeable and warrant-linked bonds, including synthetic convertible bonds (combination of derivatives and bonds), worldwide.

In order to fulfil its investment objective and achieve broad diversification, the Sub-Fund may invest its total assets in UCITS<sup>2</sup>. Investments in UCIs<sup>2</sup> other than UCITS may not exceed 30% of the Sub-Fund's net assets. You should refer to the section headed “INVESTMENTS IN UCIs AND UCITS” of the Luxembourg Prospectus for details on this method of investment and the associated expenses.

In order to fulfil its investment objective, the Sub-Fund may also invest in all other legally permissible instruments, including structured products, certificates and

---

<sup>5</sup> This means that the benchmark is used for the purpose of portfolio management risk assessment.

derivative financial instruments, which can be used for hedging purposes and/or for participating in the expected market developments.

In principle, investments made by the Sub-Fund are carried out in EUR. If other currencies are used, then these shall be partially hedged against the currency of account (EUR).

Further information on such investments is set out in the section headed “INVESTMENT OBJECTIVE AND INVESTMENT POLICY OF THE SUBFUNDS” of the Luxembourg Prospectus under the sub-heading “UBS (LUX) KEY SELECTION SICAV – EUROPEAN GROWTH AND INCOME (EUR)”.

***No guarantee can be given that the investment objective of any of the Sub-Funds will be achieved.***

***The Sub-Funds are not capital guaranteed funds. You should consider carefully and understand the risks of investing in each Sub-Fund, which are set out in Paragraph 7 headed “RISK FACTORS” below, before making an investment decision.***

5.8 Profile of the typical investor

5.8.1 UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD)

The actively managed Sub-Fund is only suitable for investors who wish to invest in a diversified portfolio of equities and bonds with a focus on China. Investors should be prepared to assume the risk associated with investing in Chinese assets.

5.8.2 UBS (Lux) Key Selection SICAV – European Growth and Income (EUR)

The actively managed Sub-Fund is only suitable for risk-conscious investors who wish to invest in a diversified portfolio of equities, bonds and convertible bonds with a focus on Europe and with a bond component consisting primarily of high yield bonds. Investors should be prepared to assume the risk associated with investing in equities and high yield bonds.

**You should consult your financial advisers if in doubt whether this product is suitable for you.**

***Investments of the Sub-Funds may be subject to substantial fluctuations. The net asset value of the Sub-Funds may fluctuate significantly due to their equity exposure, which may be very high, and are also impacted by changes in interest rates given their fixed income holdings. No guarantee can be given that the net asset value of the Sub-Funds will not fall below their respective values at the time of acquisition.***

5.9 **Investment Principles and Investment Restrictions**

Details on the investments that may be made by the Sub-Funds as well as the investment principles and investment restrictions on such investments are set out in the section headed “INVESTMENT PRINCIPLES” of the Luxembourg Prospectus.

5.9.1 Investments in financial derivative instruments

You should note that each Sub-Fund may invest in financial derivative instruments for hedging purposes, for the purpose of efficient portfolio management or

investment purposes (optimising returns) to the extent permitted under the Luxembourg laws.

Investments by the Sub-Funds in financial derivative instruments shall be in accordance with the investment restrictions set out in paragraphs 1.1(g) and 1.3 of the section headed “INVESTMENT PRINCIPLES” under the sub-heading “PERMITTED INVESTMENTS OF THE COMPANY” in the Luxembourg Prospectus.

The Management Company will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risk relating to the use of financial derivative instruments.

In addition, the Company may employ the techniques and instruments for each Sub-Fund as described in the section headed “INVESTMENT PRINCIPLES” under the sub-heading “SPECIAL TECHNIQUES AND INSTRUMENTS WITH SECURITIES AND MONEY MARKET INSTRUMENTS AS UNDERLYING ASSETS” of the Luxembourg Prospectus.

You should also take note of the sections in the Luxembourg Prospectus headed “USE OF DERIVATIVES”, “RISK MANAGEMENT” and “LEVERAGE” (which sets out the global risk calculation method used for the relevant Sub-Fund).

You may obtain supplementary information relating to the risk management methods employed by the Sub-Funds, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments from the Singapore Representative (whose contact details are set out in the Directory of this Singapore Prospectus) upon request.

#### 5.9.2 Use of repurchase agreements, reverse repurchase agreements and securities lending agreements

Subject to the conditions and limits set out in the Law of 2010, the Company and its Sub-Funds may use repurchase agreements, reverse repurchase agreements, securities lending agreements and/or other techniques and instruments that have securities and money market instruments as underlying assets for efficient portfolio management purposes in accordance with the requirements defined by the CSSF.

The Sub-Funds will only use repurchase agreements, reverse repurchase agreements or securities lending transactions for the purpose of either reducing risks (hedging) or generating additional capital or income for the relevant Sub-Fund.

If such transactions relate to the use of derivatives, the terms and limits must comply with the provisions of the Law of 2010. The techniques will be used on an ongoing basis as described in the “EXPOSURE TO SECURITIES FINANCING TRANSACTIONS” section of the Luxembourg Prospectus, but it may be decided from time to time, depending on market conditions, to suspend or reduce exposure to securities financing transactions. The use of these techniques and instruments must be in accordance with the best interests of the investors.

Securities lending may be effected only via recognised clearing houses such as Clearstream International or Euroclear, or using first-class financial institutions that specialise in such activities and following the procedure specified by them.

In the case of securities lending transactions, the Company must, in principle, receive collateral, the value of which must at least correspond to the total value of the securities lent out and any accrued interest thereon. This collateral must be issued in a form of financial collateral permitted by the provisions of Luxembourg law. Such collateral is not required if the transaction is effected via Clearstream International or Euroclear, or another organisation which guarantees the Company that the value of the securities lent will be refunded.

Currently, 60% of the gross revenue received from securities lending transactions negotiated at arm's length is credited to the relevant Sub-Fund, while 30% of the gross revenue are retained as fees by UBS Switzerland AG as the securities lending service provider, responsible for the ongoing securities lending activities and collateral management, and 10% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch (the "**Securities Lending Agent**") as the securities lending agent, responsible for the transactions management, ongoing operational activities and collateral safekeeping. All fees for operating the securities lending program are paid from the securities lending agent's portion of the gross income. This covers all direct and indirect costs incurred through securities lending activities. The Securities Lending Agent and the Securities Lending Service Provider are part of the UBS Group.

Furthermore, the Company has drawn up internal framework agreements regarding securities lending. These framework agreements contain, among other things, the relevant definitions, the description of the principles and standards of the contractual management of the securities lending transactions, the quality of the collateral, the approved counterparties, the risk management, the fees to be paid to third parties and fees to be received by the Company, as well as the information to be published in the annual and semi-annual reports.

The Board of Directors of the Company has approved instruments of the following asset classes as collateral from securities lending transactions: (i) fixed and variable-rate interest-bearing instruments; and (ii) shares.

In general, the following requirements apply to repurchase/reverse repurchase agreements and securities lending agreements:

- (i) Counterparties to a repurchase/reverse repurchase agreement or securities lending agreement will be entities with legal personality typically located in OECD jurisdictions. These counterparties will be subject to a credit assessment. Where the counterparty is subject to a credit rating by any agency registered and supervised by ESMA, that rating shall be taken into account in the credit assessment. Where a counterparty is downgraded to A2 or below (or comparable rating) by such a credit rating agency, a new credit assessment in respect of the counterparty will be undertaken without delay.

- (ii) The Company must be able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.
- (iii) When the Company enters into a reverse repurchase agreement it must ensure that it is able at any time to recall the full amount of cash (including the interest incurred up to the time of being recalled) or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the net asset value of the relevant Sub-Fund. Fixed-term reverse repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.
- (iv) When the Company enters into a repurchase agreement it must ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered. Fixed-term repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.
- (v) Repurchase/reverse repurchase agreements or securities lending do not constitute borrowing or lending for the purposes of the UCITS Directive.
- (vi) All the revenues arising from efficient portfolio management techniques, net of direct and indirect operational costs/fees, will be returned to the relevant Sub-Fund.
- (vii) Any direct and indirect operational costs/fees arising from efficient portfolio management techniques that may be deducted from the revenue delivered to the relevant Sub-Fund must not include hidden revenue. Such direct and indirect operational costs/fees will be paid to the entities outlined in the respective annual or semi-annual report of the Company, which shall indicate the amounts of the respective fees and whether the entities are related to the Management Company or the Depositary.

The Company and its Sub-Funds may under no circumstances deviate from their investment objectives for these transactions. Equally, the use of these techniques may not cause the risk level of the Sub-Fund in question to increase significantly with regard to its original risk level (i.e. without the use of these techniques).

The Management Company and the Portfolio Managers currently do not expect conflicts of interest to arise in relation to such securities lending transactions. However, should any potential conflicts of interest arise, such conflicts of interest will be managed in accordance with Paragraph 17 of this Singapore Prospectus.

The Sub-Fund's exposure to repurchase agreements, reverse repurchase agreements and securities lending agreements is set out in the "EXPOSURE TO SECURITIES FINANCING TRANSACTIONS" section of the Luxembourg Prospectus.

Further details on the securities lending transactions which the Company may engage in are set out in the section headed “INVESTMENT PRINCIPLES” under the sub-heading “SPECIAL TECHNIQUES AND INSTRUMENTS WITH SECURITIES AND MONEY MARKET INSTRUMENTS AS UNDERLYING ASSETS” of the Luxembourg Prospectus. As at the date of this Singapore Prospectus, the Management Company intends to lend the securities of the Sub-Funds to its related corporations.

## 6. FEES, CHARGES AND EXPENSES

A summary of the fees and charges applicable to the Share Classes on offer is set out below:

Fees and charges payable by you in respect of each Share Class*	
<b>Subscription Charge<sup>6</sup> (or sales charge)**</b>	Share Classes with “mdist” in their name: Up to 6% of the gross subscription amount  Other Share Classes: Up to 4% of the gross subscription amount
<b>Redemption Commission (or redemption charge)**</b>	Nil
<b>Conversion Commission<sup>7</sup> (or switching fee)**</b>	Up to the amount of the maximum conversion fee described under “INVESTING IN UBS (LUX) KEY SELECTION SICAV” section of the Luxembourg Prospectus under the sub-heading “CONVERSION OF SHARES”

\* You may have to pay additional fees and charges in addition to the Subscription Charge, Redemption Commission and Conversion Commission to the Approved Singapore Distributors depending on the specific nature of services provided to you by the Approved Singapore Distributors. You should check with the Approved Singapore Distributors to confirm the applicable fees and charges (including any additional taxes or commissions, where applicable) incurred in Singapore on the issuance, redemption or conversion of Shares.

\*\* Any Subscription Charge, Redemption Commission and Conversion Commission is currently paid to and retained by the Approved Singapore Distributors.

In addition to the Subscription Charge and Redemption Commission, if you request for an in-kind subscription or redemption, you should note that the associated costs of an audit on the investments or payments for such in-kind subscription or redemption will be charged to you. You should refer to the “INVESTING IN UBS (LUX) KEY SELECTION SICAV” section of the Luxembourg Prospectus under the sub-headings “CONDITIONS FOR THE ISSUE

<sup>6</sup> “Subscription Charge” means a charge in respect of a subscription for Shares which may be deducted from the gross subscription amount and paid to the Approved Singapore Distributors.

<sup>7</sup> “Conversion Commission” means a charge in respect of a conversion of Shares into those of another Share Class within the same Sub-Fund, and/or those of another Sub-Fund which may be deducted from the gross subscription amount and paid to the Approved Singapore Distributors.

AND REDEMPTION OF SHARES", "ISSUE OF SHARES" and "REDEMPTION OF SHARES" for further information.

Notes:

1. A maximum flat fee based on the net asset value of the Sub-Fund is paid from the Sub-Fund's assets for the management, administration, portfolio management,

investment advice, and distribution of the Company (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Company's assets, the processing of payment transactions and all other tasks listed in the "DEPOSITARY AND MAIN PAYING AGENT" section of the Luxembourg Prospectus. In respect of the distribution of the Company, the Management Company has appointed UBS Asset Management Switzerland AG (the "**Distributor**") to act as distributor of the Shares of each Sub-Fund. The Distributor may appoint sub-distributors for the distribution of Shares in different countries. A portion of the maximum flat fee received by the Management Company from the Sub-Fund will be paid to the relevant Portfolio Manager and the Distributor in connection with the delegated portfolio management and distribution tasks in respect of the relevant Sub-Fund. The maximum flat fee for Share Classes with "hedged" in their name may include foreign exchange risk hedging charges. The maximum flat fee does not include certain other fees and additional expenses listed in the "TAXES AND EXPENSES" section of the Luxembourg Prospectus (under the sub-heading "Expenses paid by the Company") which are also charged to the Company.

2. These figures may change from time to time without prior notice depending on the agreements between the parties. Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company/ Distributor.
3. You should note that where the Sub-Funds invest in other UCIs or UCITS (i.e. the "**target funds**") there may also be charges at the level of the target funds. As the Sub-Funds may invest in the target funds from time to time, all fees and charges incurred by a Sub-Fund in respect of its investment into the target funds are currently not ascertainable. In such a case, the management fees (excluding performance fees) of the target fund in which the assets of a Sub-Fund are invested may amount to a maximum of 3.00%, taking into account any trailer fees. Certain fees and charges may be incurred more than once when investing in existing funds (such as Depositary and central UCI administrator fees, management/advisory fees and issuing/redemption charges of the UCI and/or UCITS in which the investment is made). Such commission payments and expenses are charged at the level of the target fund as well as of the Sub-Funds.

The Sub-Funds may also invest in UCIs and/or UCITS managed by the Management Company or by a company linked to the Management Company through common management or control, or through a substantial direct or indirect holding. In this case, no issuing or redemption charge will be charged on subscription to or redemption of these units. The double charging of commissions and expenses referred to above does, however, remain.

Please note that the actual fees and charges of the target funds in which the Sub-Funds invest may vary and the actual charges charged will be disclosed in the annual and semi-annual reports of the Company.

**A more detailed description of the fees and charges payable by the Sub-Funds is set out in the "TAXES AND EXPENSES" section of the Luxembourg Prospectus. You should read this section carefully for further information on the fees and charges payable by the Sub-Funds.**

You should also note that due to fees and charges as well as the buy-sell spread for the underlying investments, the actual costs of buying and selling assets and investments for a Sub-Fund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per Share. These costs have a negative effect on the value of a Sub-Fund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per Share (swing pricing).

Shares are generally issued and redeemed based on a single price: the net asset value per Share. To reduce the effects of dilution, the net asset value per Share is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the Sub-Fund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in any Sub-Fund or Share Class of a Sub-Fund on a particular valuation day, the unadjusted net asset value per Share is applied. The circumstances in which such a dilution adjustment is made are determined at the discretion of the Board of Directors. If a partial swing pricing is applied by the Board of Directors in respect of a Sub-Fund, the net asset value would be adjusted only if the swing threshold is exceeded and an existing shareholder's shareholding may be diluted when net subscriptions or redemptions are below the swing threshold. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of Shares in the relevant Sub-Fund. The Board of Directors may carry out a dilution adjustment if, in its view, the existing shareholders (in the case of subscriptions) or remaining shareholders (in the case of redemptions) could be put at a disadvantage. The dilution adjustment may take place if:

- (a) a Sub-Fund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a Sub-Fund records a considerable volume of net subscriptions relative to its size;
- (c) a Sub-Fund shows a net subscription or net redemption position on a particular valuation day; or
- (d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the shareholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per Share depending on whether the Sub-Fund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the spreads of buy and sell prices. In particular, the net asset value of the respective Sub-Fund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the Sub-Fund, and (iii) the estimated bid-ask spread for the assets in which the Sub-Fund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. The adjustments are generally limited to a maximum of 2% of the prevailing net asset value per Share at the time. The Board of Directors may decide to temporarily apply a dilution adjustment of more than 2% of the prevailing net asset value per Share at the time in respect of any Sub-Fund and/or valuation date in exceptional circumstances (e.g. high market volatility and/or liquidity, exceptional market conditions, market disruption, etc.), provided the Board of Directors can justify that this is representative of the prevailing market conditions and that it is in the best interest of the shareholders. This dilution adjustment will be calculated in accordance with the method determined by the

Board of Directors. Shareholders will be informed via the usual communication channels when the temporary measures are introduced and when they end.

The net asset value of each Share Class of the Sub-Fund is calculated separately. However, dilution adjustments affect the net asset value of each Share Class to the same degree in percentage terms. The dilution adjustment is made at sub-fund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction. You should note that a Sub-Fund's performance is calculated based on the published net asset value which may be partially swung, and the use of swung prices to calculate performance returns may increase the variability of the Sub-Fund's returns. Apart from the underlying investments of the Sub-Funds, the returns of a Sub-Fund may be influenced by the level of subscription or redemption activity which may result in the application of swing pricing.

Please refer to the section headed "NET ASSET VALUE, ISSUE, REDEMPTION AND CONVERSION PRICE" of the Luxembourg Prospectus for further details on potential dilution adjustments to the net asset value of a Sub-Fund. The maximum flat fee of the Company is based on the total net assets of the Company which is calculated without swing pricing.

## **7. RISK FACTORS**

### **7.1 General**

You should consider and understand the risks of investing in any of the Sub-Funds. Investments in the Sub-Fund may go up or down due to changing economic, political or market conditions that impact the share price of the companies that the Sub-Funds invest in. There can be no assurance that the Sub-Funds will achieve their investment objectives. The value of the Shares and its dividends or coupons (if any) may rise and fall, as the capital value of the securities in which a Sub-Fund invests may fluctuate and you may not realise the value of your initial investment.

### **7.2 Risks specific to the Sub-Funds**

#### **7.2.1 UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD)**

Due to the political situation and economic and regulatory developments in China, investments with a focus on China may be affected by legal uncertainties or other accompanying factors. The Sub-Fund is exposed to specific risks that may be greater than those normally associated with investments with an international focus; as a result, the Sub-Fund is suitable for risk-conscious investors. Please refer to the sections headed "INVESTING IN EMERGING MARKETS" and "SPECIFIC RISKS OF INVESTING IN THE PEOPLE'S REPUBLIC OF CHINA ("PRC")" for a detailed description of the risks connected with an investment in the Sub-Fund. The Sub-Fund is only suitable for investors who are willing to accept these risks.

As the Sub-Fund makes investments in bonds and high-yield bonds, the Sub-Fund may be exposed to risks associated with such investments. Please refer to the section headed "GENERAL RISK INFORMATION" of the Luxembourg Prospectus under "BONDS" and "HIGH-YIELD BONDS" for further details.

The Sub-Fund may invest in securities that may subsequently prove difficult to sell due to reduced liquidity. This may have a negative effect on their market price and

consequently on the Sub-Fund's net asset value. Please refer to the section headed "GENERAL RISK INFORMATION" of the Luxembourg Prospectus under "LIQUIDITY RISK" for further details.

The Sub-Fund is exposed to sustainability risks. If a sustainability risk associated with an investment materialises, it could lead to the loss in value of an investment. Please refer to the section headed "GENERAL RISK INFORMATION" of the Luxembourg Prospectus under "ESG RISKS" for further details.

The Sub-Fund's net asset value is likely to have a high volatility due to its investment policies or portfolio management techniques.

#### 7.2.2 UBS (Lux) Key Selection SICAV – European Growth and Income (EUR)

The aim of this Sub-Fund is to put together a diversified portfolio consisting primarily of European equities, bonds and convertible bonds in such a way as to achieve long-term growth. Investing in high-yield bonds plays a central role in the investment strategy of the Sub-Fund. Specifically, a maximum of 75% of the Sub-Fund's investments shall be in debt securities, receivables and convertible bonds with a low rating, i.e. a maximum rating of BBB (Standard & Poor's), a comparably low rating from another recognised rating agency or – insofar as a new issue is concerned that does not yet have an official rating or an issue that has no rating at all – a comparably low internal UBS rating.

The Sub-Fund will be subject to the credit risks of issuers of its bonds. Although investments with lower ratings may carry an above-average yield, such investments may also carry a higher credit risk than investments in securities of first-class borrowers. The risks associated with bonds and high-yield bonds are listed in the section headed "GENERAL RISK INFORMATION" of the Luxembourg Prospectus under "BONDS" and "HIGH-YIELD BONDS".

The Sub-Fund may invest in securities that may subsequently prove difficult to sell due to reduced liquidity. This may have a negative effect on their market price and consequently on the Sub-Fund's net asset value. Please refer to the section headed "GENERAL RISK INFORMATION" of the Luxembourg Prospectus under "LIQUIDITY RISK" for further details.

The Sub-Fund is exposed to sustainability risks. If a sustainability risk associated with an investment materialises, it could lead to the loss in value of an investment. Please refer to the section headed "GENERAL RISK INFORMATION" of the Luxembourg Prospectus under "ESG RISKS" for further details.

The Sub-Fund's net asset value is likely to have a high volatility due to its investment policies or portfolio management techniques.

#### 7.3 Exchange rate risks

An investment in the Shares of any Sub-Fund may entail exchange rate risks as: (i) the investments of the Sub-Fund may be denominated in currencies different from that of the currency of account of that Sub-Fund; and (ii) a Share Class may be denominated in a currency different from that of the Sub-Fund.

You should note that the Sub-Funds are not denominated in Singapore Dollars and the Share Classes may not be denominated in Singapore Dollars. With the exception of the SGD hedged Share Classes, the relevant Portfolio Manager currently does not intend to hedge against currency fluctuations between the Singapore Dollar and that of the currency of account of the Sub-Funds and between the Singapore Dollar and that of the currency denomination of the Share Classes. You may therefore be exposed to this exchange rate risk if your reference currency is Singapore Dollars.

You should also note that for Share Classes with “hedged” in their name and with reference currencies different to the Sub-Fund’s currency of account (“**Share Classes in foreign currencies**”), the risk of fluctuations in the value of the reference currency (SGD in case of “SGD hedged” Share Classes) is hedged against the Sub-Fund’s currency of account. This hedging shall be between 95% and 105% of the total net assets of the Share Class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of Share Classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

You should also note that the hedging described above has no effect on possible currency risks resulting from investments denominated in a currency other than the Sub-Fund’s currency of account.

A Sub-Fund may engage in foreign currency transactions in order to hedge against currency fluctuations between its currency of account and its underlying investments.

In the case of the UBS (Lux) Key Selection SICAV – European Growth and Income (EUR), in principle, investments made by the Sub-Fund are in EUR. If other currencies are used, then these shall be partially hedged against the currency of account (EUR).

A Sub-Fund’s hedging transactions, while potentially reducing the currency risks to which the Sub-Fund would otherwise be exposed, involve certain other risks, including risk of default by a counterparty.

You should also note the specific RMB exchange rate risks associated with an investment into RMB Share Classes as set out in the section headed “SHARE CLASSES” in the Luxembourg Prospectus under the “RMB hedged” section.

## 7.4 **Risks associated with securities lending and repurchase transactions**

### 7.4.1 Securities lending transactions

A Sub-Fund may enter into securities lending transactions subject to the conditions and limits set out in Paragraph 5.7.2 of this Singapore Prospectus. Securities lending transactions involve counterparty risk, including the risk that the securities lent cannot be returned or redeemed on time. If the borrower of securities fails to return the securities lent by a Sub-Fund, there is a risk that the collateral received may be realised at a lower value than the securities lent, whether due to inaccurate pricing of the collateral, adverse market movements, a deterioration in the creditworthiness of the collateral issuer, illiquidity of the market on which the collateral is traded, negligence or insolvency of the custodian holding collateral or termination of legal agreements, e.g. due to insolvency, which adversely affects the performance of the Sub-Fund. If the other party to a securities lending transaction

should default, that Sub-Fund might suffer a loss to the extent that the proceeds from the sale of the collateral held by the Company in connection with the securities lending transaction are less than the value of the securities lent. In addition, in the event of the bankruptcy or similar proceedings of the other party to the securities lending transaction or its failure to return the securities as agreed, that Sub-Fund could suffer losses, including loss of interest on or principal of the securities and costs associated with delay and enforcement of the securities lending agreement.

#### **7.4.2 Repurchase transactions**

A Sub-Fund may enter into repurchase agreements and reverse repurchase agreements as a buyer or as a seller subject to the conditions and limits set out in Paragraph 5.7.2 of this Singapore Prospectus. If the other party to a repurchase agreement or reverse repurchase agreement should default, that Sub-Fund might suffer a loss to the extent that the proceeds from the sale of the underlying securities and/or other collateral held by that Sub-Fund in connection with the repurchase agreement or reverse repurchase agreement are less than the repurchase price or, as the case may be, the value of the underlying securities. In addition, in the event of bankruptcy or similar proceedings of the other party to the repurchase agreement or reverse repurchase agreement or its failure otherwise to perform its obligations on the repurchase date, that Sub-Fund could suffer losses, including loss of interest on or principal of the security and costs associated with delay and enforcement of the repurchase agreement or reverse repurchase agreement.

You should also refer to the section headed “RISKS CONNECTED WITH THE USE OF EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES” of the Luxembourg Prospectus for further details on the inherent risks of the securities lending and repurchase transactions.

#### **7.5 Liquidity risks associated with the redemption of Shares**

The Sub-Funds are not listed in Singapore and there is no secondary market for the Sub-Funds in Singapore. Therefore, you can only redeem your Shares on Dealing Days by submitting your redemption request as described in Paragraph 10 of this Singapore Prospectus. The Company reserves the right to refrain from executing redemption and conversion orders in full (redemption gate) on order dates on which the total orders would cause an outflow of funds of more than 10% of the relevant Sub-Fund's net assets on that date. In addition, if there is a large volume of redemption orders the Company may decide to postpone the execution of redemption orders. Please refer to Paragraph 10.3 below for further details. The Company may also temporarily suspend redemption of Shares in any Sub-Fund in certain circumstances as described in Paragraph 14 below.

#### **7.6 Risks associated with the use of financial derivative instruments**

The Sub-Funds use the following approaches in determining their exposure to financial derivatives instruments. The average leverage for each Sub-Fund using the value-at-risk (“VaR”) approach is expected to be within the range stated in the table below. Leverage is expressed as a ratio between the sum of the notional amounts and the net asset value of the relevant Sub-Fund. You should note that greater leverage amounts may be attained for all Sub-Funds, under certain circumstances.

Sub-Fund	Global risk calculation method	Expected range of leverage	Reference portfolio
UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD)	Commitment approach	N/A	N/A
UBS (Lux) Key Selection SICAV – European Growth and Income (EUR)	Commitment approach	N/A	N/A

The commitment approach used in determining the Sub-Funds' exposure to financial derivative instruments are as described in the Committee of European Securities Regulators' guidelines on Risk Measurement and the Calculation of Global Exposure and Counterparty Risk for UCITS, i.e. CESR/10-788.

You should also refer to the sections headed "USE OF DERIVATIVES", "SWAP AGREEMENTS", "INSOLVENCY RISK ON SWAP COUNTERPARTIES", "POTENTIAL ILLIQUIDITY OF EXCHANGE TRADED INSTRUMENTS AND SWAP CONTRACTS", "EXPOSURE TO SECURITIES FINANCING TRANSACTIONS", "RISKS CONNECTED WITH THE USE OF DERIVATIVES", "RISK MANAGEMENT", "LEVERAGE" and "COLLATERAL MANAGEMENT" of the Luxembourg Prospectus for details of the risks associated with the use of financial derivative instruments.

## 7.7 Other risks

The general approach taken by the Company to help manage the liquidity of the Sub-Funds is to activate liquidity management tools, such as dilution adjustment, the imposition of redemption gates and the suspension of dealings if necessary and as described in Paragraphs 6, 10.3 and 14 of this Singapore Prospectus. The activation of the last two liquidity management tools may have an adverse impact on your ability to place redemptions from the Sub-Funds. For instance, the suspension of dealings as described in Paragraph 14 of this Singapore Prospectus will mean that you will not be able to redeem from the Sub-Funds during the suspension period and the postponement of redemptions under certain circumstances (redemption gate) as referred to in Paragraph 10.3 of this Singapore Prospectus may mean you may not be able to redeem from the Sub-Funds on that Dealing Day.

Other risks on the Sub-Funds' investments are detailed in the section headed "RISK PROFILE" of the Luxembourg Prospectus and risks that may be specific to a Share Class are detailed in the section headed "SHARE CLASSES" in the Luxembourg Prospectus.

**The above should not be considered to be an exhaustive list of the risks which you should consider before investing into any Sub-Fund. You should be aware that an investment in any of the Sub-Funds may be exposed to other risks of an exceptional nature from time to time.**

## 8. SUBSCRIPTION FOR SHARES

### 8.1 Subscription Procedure

You may purchase Shares through approved Singapore distributors appointed by the Management Company (or its agents) (“**Approved Singapore Distributors**”).

Your subscription for Shares should be made on a share order form as may be prescribed by the Company or the relevant Approved Singapore Distributor and sending the order form, together with the payment for the Shares as may be advised by the relevant Approved Singapore Distributor, to any Approved Singapore Distributor.

The Company reserves the right to reject in whole or in part any subscription for Shares or to request further details or evidence of identity from an applicant for, or transferee of, Shares.

At the shareholders’ request, the Company may also accept full or partial subscriptions in kind at its own discretion subject to certain terms and conditions as may be imposed by the Company.

Subscriptions using Supplementary Retirement Scheme (“**SRS**”) monies are currently available in respect of UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD) and the UBS (Lux) Key Selection SICAV – European Growth and Income (EUR), through certain Approved Singapore distributors only. You should contact the relevant Approved Singapore distributors to check on the availability of such subscriptions. If you intend to purchase Shares of the UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD) and the UBS (Lux) Key Selection SICAV – European Growth and Income (EUR) using monies in your SRS account, you should instruct the relevant SRS operator bank for monies to be withdrawn from your SRS account to pay for the Shares.

Full details on the subscription procedure are set out under the “INVESTING IN UBS (LUX) KEY SELECTION SICAV” section of the Luxembourg Prospectus under the sub-headings “CONDITIONS FOR THE ISSUE AND REDEMPTION OF SHARES” and “ISSUE OF SHARES”.

### 8.2 Minimum Initial Subscription Amount and Minimum Subsequent Subscription

While the Company does not currently impose any requirements on minimum initial subscription amount or minimum subsequent subscription amount, Approved Singapore Distributors may impose certain requirements on their clients. You should check with the relevant Approved Singapore Distributor whether any such requirements are imposed.

### 8.3 Dealing Deadline and Pricing Basis

Shares shall be issued on a forward pricing basis. Accordingly, the issue price of Shares shall not be ascertainable at the time of subscription. The issue price per Share is expressed in the currency of account of the relevant Sub-Fund or Share Class, and is calculated each Dealing Day<sup>8</sup> by dividing the overall net assets of the Sub-Fund attributable to the relevant Share Class by the number of Shares in circulation in that Share Class.

---

<sup>8</sup> “**Dealing Day**” means any Business Day. “**Business Day**” means a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December, individual, non-statutory days of rest in Luxembourg (i.e. days on which banks and financial institutions are closed) and days on which stock exchanges in the main countries in which the respective Sub-Fund invests are closed, or

You may place orders for subscription through the Approved Singapore Distributors. In order to subscribe for Shares on a Dealing Day, a properly completed share order form, together with any relevant supporting documents and subscription monies must be received by the Approved Singapore Distributor before 4.00 p.m. (Singapore time) on a Singapore Dealing Day<sup>9</sup> (“**Singapore Cut Off Time**”). An Approved Singapore Distributor may impose an earlier Singapore Cut Off Time, and you should confirm the applicable Singapore Cut Off Time with the relevant Approved Singapore Distributor.

The Approved Singapore Distributor shall collect all orders it receives on or before the Singapore Cut Off Time and will forward such orders to the Singapore Representative for processing with the UCI Administrator.

Orders received by the Approved Singapore Distributors before the applicable Singapore Cut Off Time will, if accepted by the UCI Administrator prior to the dealing deadline<sup>10</sup> for such Dealing Day, be processed on the basis of the net asset value calculated as per that day after the dealing deadline<sup>11</sup>.

Orders received by the Approved Singapore Distributors after the Singapore Cut Off Time or at any time on a day which is not a Singapore Dealing Day shall be deemed as having been received by the Approved Singapore Distributor before the Singapore Cut Off Time on the next Singapore Dealing Day.

**Approved Singapore Distributors may impose additional requirements on supporting documents and payment of cleared funds. You should confirm the applicable dealing procedures with the relevant Approved Singapore Distributor.**

Details of determining the net asset value (including details on the dilution adjustment of a Sub-Fund’s net asset value) are set out under the section headed “NET ASSET VALUE, ISSUE, REDEMPTION AND CONVERSION PRICE” of the Luxembourg Prospectus.

Fractions of shares can be issued. Fractions of Shares are expressed up to three decimal places and do not confer the right to vote at general meetings. If the relevant Sub-Fund or Share Class is liquidated, however, fractional shares entitle the holder to a distribution or proportionate share of the liquidation proceeds.

#### 8.4 Numerical Example of How Shares are Allotted

The following is an illustration of the number of Shares that will be issued based on an initial subscription amount of \$1,000, a notional issue price of \$100.00 per Share and a notional Subscription Charge of 4%. The notional issue price is for illustrative purposes only, and the

---

on which 50% or more of the investments of the Sub-Fund cannot be adequately valued. In respect of UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD), days which are not normal banking days in the PRC are not deemed business days of this Sub-Fund.

<sup>9</sup> “**Singapore Dealing Day**” means a Singapore Business Day which is also a Dealing Day and a “**Singapore Business Day**” means any day other than Saturday or Sunday on which commercial banks in Singapore are generally open for business.

<sup>10</sup> The “**dealing deadline**” as referred to in this Singapore Prospectus is the “cut-off time” as referred to in the Luxembourg Prospectus. Please see the “INVESTING IN UBS (LUX) KEY SELECTION SICAV” section of the Luxembourg Prospectus under the sub-heading “CONDITIONS FOR THE ISSUE AND REDEMPTION OF SHARES”.

<sup>11</sup> The day after the dealing deadline is the “valuation date” as defined in the Luxembourg Prospectus. Please see the “INVESTING IN UBS (LUX) KEY SELECTION SICAV” section of the Luxembourg Prospectus under the sub-heading “CONDITIONS FOR THE ISSUE AND REDEMPTION OF SHARES”.

actual issue price will fluctuate according to the net asset value of the relevant Share Class as well as the applicable Subscription Charge\*:

<u>\$1,000</u>	<u>-</u>	<u>\$40</u>	<u>=</u>	<u>\$960</u>	<u>/</u>	<u>\$100.00</u>	<u>=</u>	<u>9.6</u>	<u>Shares</u>
<i>Initial Subscription Amount</i>		<i>Notional Subscription Charge of 4%*</i>		<i>Net Subscription Amount</i>		<i>Notional Issue Price</i>		<i>Shares Issued</i>	

\*The Subscription Charge is currently up to 6% for Share Classes with “mdist” in their name and up to 4% for other Share Classes.

## 8.5 **Trade Confirmations**

A trade confirmation will be sent by the Singapore Representative to the relevant Approved Singapore Distributor, normally two Singapore Business Days following the Singapore Representative's receipt of the Share allocation from the Company.

You should contact your Approved Singapore Distributor for the details on when you may expect to receive the trade confirmations confirming ownership of the number of Shares issued to you as the trade confirmation policy may vary amongst the Approved Singapore Distributors. The trade confirmation will provide full details of the transaction.

## 8.6 **Cancellation of Subscription**

You should note that the Company does not offer a right to cancel subscription orders for Shares of the Sub-Funds after the dealing deadline.

## 9. **REGULAR SAVINGS PLAN (RSP)**

An Approved Singapore Distributor may, at its discretion, allow you to invest in one or more Share Classes offered in respect of each Sub-Fund by way of a regular savings plan (“RSP”).

You should check with the relevant Approved Singapore Distributor on whether any such RSP is offered and the terms and conditions on which such RSP may be offered (including the minimum amount of periodic contributions, when monies will be deducted from your account and when Shares subscribed will be allotted to you each month).

You may cease your participation in the RSP, without suffering any penalty, by giving written notice to the relevant Approved Singapore Distributor as may be required by that Approved Singapore Distributor provided that the required notice period is not longer than the period between your regular subscriptions.

## 10. **REDEMPTION OF SHARES**

### 10.1 **Redemption Orders and Redemption Procedure**

Shares may be redeemed on any Dealing Day. You must however redeem your Shares via the same Approved Singapore Distributor through whom you originally purchased your Shares. You may therefore only place redemption orders on Singapore Dealing Days.

Your orders for redemption of your Shares should be made on a share redemption form as may be prescribed by the Company or the relevant Approved Singapore Distributor and sending it, together with such documents as may be required by the Company, to the relevant Approved Singapore Distributor before the Singapore Cut Off Time (as set out in Paragraph 8.3 above).

At the shareholders' request, the Company may grant full or partial redemptions in kind at its own discretion subject to certain terms and conditions as may be imposed by the Company.

Full details on the redemption procedure are set out under the "INVESTING IN UBS (LUX) KEY SELECTION SICAV" section of the Luxembourg Prospectus under the sub-headings "CONDITIONS FOR THE ISSUE AND REDEMPTION OF SHARES" and "REDEMPTION OF SHARES".

#### **10.2 Minimum Holding Amount and Minimum Redemption Amount**

While the Company does not currently impose any requirements on minimum holding amount or minimum redemption amount, Approved Singapore Distributors may impose certain requirements on their clients. You should check with the relevant Approved Singapore Distributor whether any such requirements are imposed.

#### **10.3 Dealing Deadline and Pricing Basis**

The redemption price per Share is calculated on a forward pricing basis. Therefore, the redemption price of Shares will not be ascertainable at the time of the redemption request. The redemption price for the Shares is based on the net asset value per Share calculated on each Dealing Day by dividing the net asset value that is attributable to the relevant Share Class by the number of Shares in circulation in that Share Class.

Details of determining the net asset value (including details on the dilution adjustment of a Sub-Fund's net asset value) are set out under the section headed "NET ASSET VALUE, ISSUE, REDEMPTION AND CONVERSION PRICE" of the Luxembourg Prospectus.

You may place orders to redeem Shares of any Share Class up to the Singapore Cut Off Time (as set out in Paragraph 8.3 above) on any Singapore Dealing Day. An Approved Singapore Distributor may impose an earlier Singapore Cut Off Time, and you should confirm the applicable Singapore Cut Off Time with the relevant Approved Singapore Distributor.

The Approved Singapore Distributor shall collect all orders received prior to the Singapore Cut Off Time and will forward such orders to the Singapore Representative for processing with the UCI Administrator.

Orders received by the Approved Singapore Distributors before the Singapore Cut Off Time will, if accepted by the UCI Administrator prior to the dealing deadline for such Dealing Day, be processed on the basis of the net asset value calculated as per that day after the dealing deadline.

Orders received by the Approved Singapore Distributors after the Singapore Cut Off Time or at any time on a day which is not a Singapore Dealing Day shall be deemed as having been received by the Approved Singapore Distributor before the Singapore Cut Off Time on the next Singapore Dealing Day.

**Approved Singapore Distributors may impose additional requirements on supporting documents and timing for payment of redemption proceeds. You should confirm the applicable dealing procedures with the relevant Approved Singapore Distributor.**

The Company reserves the right to refrain from executing redemption and conversion orders in full (redemption gate) on order dates on which the total orders would cause an outflow of funds of more than 10% of the relevant Sub-Fund's net assets on that date. In such cases, the Company may decide to execute only a portion of redemption and conversion orders, and to postpone the execution of the remaining redemption and conversion orders for that order date with priority status and for a period generally not to exceed 20 Business Days.

If there is a large volume of redemption orders, the Company may decide to postpone the execution of redemption orders until the equivalent Sub-Fund assets have been sold, without undue delay. Should such a measure be necessary, all redemption orders received on the same day will be processed at the same price.

#### 10.4 Numerical Examples of Calculation of Redemption Proceeds

The following is an illustration of the redemption proceeds payable based on a redemption order for 1,000 Shares and a notional redemption price of (i) \$110.00; and (ii) \$90.00 per Share. The notional redemption price is for illustrative purposes only, and the actual redemption price will fluctuate according to the net asset value of the relevant Share Class as well as the applicable Redemption Commission\*:

<u>1,000</u> <u>Shares</u>	x	<u>\$110.00</u>	=	<u>\$110,000.00</u>	-	<u>\$0</u>	=	<u>\$110,000.00</u>
<i>Redemption request</i>		<i>Redemption Price</i>		<i>Gross Redemption Proceeds</i>		<i>Redemption Commission*</i>		<i>Net Redemption Proceeds</i>
OR								
<u>1,000</u> <u>Shares</u>	x	<u>\$90.00</u>	=	<u>\$90,000.00</u>	-	<u>\$0</u>	=	<u>\$90,000.00</u>
<i>Redemption request</i>		<i>Redemption Price</i>		<i>Gross Redemption Proceeds</i>		<i>Redemption Commission*</i>		<i>Net Redemption Proceeds</i>

\*There is currently no Redemption Commission payable.

#### 10.5 Payment of Redemption Proceeds

Redemption proceeds may, in principle, only be received by shareholders in the currency in which the relevant Share Class is denominated. Further details are set out under the "INVESTING IN UBS (LUX) KEY SELECTION SICAV" section of the Luxembourg Prospectus under the sub-heading "REDEMPTION OF SHARES".

Redemption proceeds will normally be paid no later than on the third day after the order date unless legal provisions, such as foreign exchange controls or restrictions on capital movements, or other circumstances beyond the control of the Depositary make it impossible to transfer redemption proceeds to Singapore.

If you had invested via an Approved Singapore Distributor, your redemption proceeds will normally be paid by the Company to your Approved Singapore Distributor. You will receive your redemption proceeds from your Approved Singapore Distributor in accordance with such instructions as agreed between you and your Approved Singapore Distributor. You should contact your Approved Singapore Distributor for further details (including the period within which the redemption proceeds will be paid out to you by the Approved Singapore Distributor) as the payment policy amongst the Approved Singapore Distributors may vary. The cost of any settlement by telegraphic transfer may be passed on to you.

If you had purchased your Shares with SRS monies, your redemption proceeds will be paid to you by transferring the proceeds to the relevant bank for credit to your SRS account or otherwise in accordance with the provisions of any applicable law, regulations or guidelines. Where your SRS account has been closed, your redemption proceeds will be paid to you in accordance with the provisions of any applicable law, regulations or guidelines.

#### **10.6 Compulsory Redemptions**

If the value of a Share Class in relation to the total net asset value of a Sub-Fund has fallen below, or failed to reach, a level that the Board of Directors of the Company has fixed as the minimum level for the economically efficient management of a Share Class, the Board of Directors of the Company may decide that all Shares in this Class are to be redeemed against payment of the redemption price on a business day determined by the Board of Directors. Investors of the Share Class/Sub-Fund concerned shall not have to bear any additional costs or other financial burdens as a result of this redemption. Where applicable, the swing pricing principle described in the “NET ASSET VALUE, ISSUE, REDEMPTION AND CONVERSION PRICE” section of the Luxembourg Prospectus shall apply.

Please also refer to the “INVESTING IN UBS (LUX) KEY SELECTION SICAV” section of the Luxembourg Prospectus under the sub-heading “SUSPENSION OF NET ASSET VALUE CALCULATION, AND SUSPENSION OF THE ISSUE, REDEMPTION AND CONVERSION OF SHARES” for information on powers of the Company to redeem Shares at any time as well as to request that a shareholder returns, transfers or converts his Shares if such shareholder no longer meets the requirements of a Share Class. Please also refer to the “TAXES AND EXPENSES” section of the Luxembourg Prospectus under the sub-heading “AUTOMATIC EXCHANGE OF INFORMATION – FATCA AND THE COMMON REPORTING STANDARD” for information on circumstances under which you may be subject to the compulsory redemption or liquidation of your interest in the Company.

#### **11. CONVERSION OF SHARES<sup>12</sup>**

At any time, you may convert your Shares into those of another Share Class within the same Sub-Fund, and/or may convert your Shares into those of another Sub-Fund, which shall be subject to payment of a Conversion Commission, if any (as set out in Paragraph 6 above).

Conversion orders are subject to the same procedures as to the issue and redemption of Shares.

---

<sup>12</sup> More commonly referred to in Singapore as “switching”.

**You should note in addition that, as a condition of your conversions, the new sub-fund or share class subscribed into as a result of the conversion must be available to you for subscription.**

The Company reserves the right to refrain from executing redemption and conversion orders in full (redemption gate) on order dates on which the total orders would cause an outflow of funds of more than 10% of the relevant Sub-Fund's net assets on that date. In such cases, the Company may decide to execute only a portion of redemption and conversion orders, and to postpone the execution of the remaining redemption and conversion orders for that order date with priority status and for a period generally not to exceed 20 Business Days.

Further details on conversion procedures are set out under the "INVESTING IN UBS (LUX) KEY SELECTION SICAV" section of the Luxembourg Prospectus under the sub-heading "CONVERSION OF SHARES".

## **12. OBTAINING PRICE INFORMATION IN SINGAPORE**

The indicative issue prices and redemption prices of the Shares are normally published in Singapore on the Singapore Representative's website at <https://www.ubs.com/sg/en/asset-management.html> within two Singapore Business Days immediately succeeding each Dealing Day.

Please refer to the provisions under the "INFORMATION FOR SHAREHOLDERS" section of the Luxembourg Prospectus under the sub-heading "REGULAR REPORTS AND PUBLICATIONS" for other sources of price information.

## **13. VALUATION OF UNDERLYING INVESTMENTS**

The net asset value per Share of each Sub-Fund or Share Class is expressed in the currency of account of the Sub-Fund or Share Class concerned, and is calculated every Business Day by dividing the overall net assets of the Sub-Fund attributable to each Share Class by the number of Shares in circulation in this Share Class of the Sub-Fund.

Details on the method of valuation in respect of the assets of the Sub-Funds are set out under the "NET ASSET VALUE, ISSUE, REDEMPTION AND CONVERSION PRICE" section of the Luxembourg Prospectus.

## **14. TEMPORARY SUSPENSION OF THE CALCULATION OF THE NET ASSET VALUE AND SUSPENSION OF THE ISSUE, REDEMPTION AND CONVERSION OF SHARES**

The Company may temporarily suspend the calculation of the net asset value of one or more Sub-Funds, as well as the issue and redemption of Shares, and conversions between individual Sub-Funds, for one or more business days in the circumstances described in the "INVESTING IN UBS (LUX) KEY SELECTION SICAV" section of the Luxembourg Prospectus under the sub-heading "SUSPENSION OF NET ASSET VALUE CALCULATION, AND SUSPENSION OF THE ISSUE, REDEMPTION AND CONVERSION OF SHARES".

Please also refer to this section of the Luxembourg Prospectus for information on powers of the Company to refuse subscription orders, to redeem at any time Shares that were purchased in defiance of an exclusion clause as well as to request that a shareholder

returns, transfers or converts his Shares if such shareholder no longer meets the requirements of a Share Class.

## 15. PERFORMANCE OF THE SUB-FUNDS

### 15.1 Performance of the Sub-Funds (as at 31 October 2025)<sup>13</sup>

<sup>13</sup> Source: UBS AG. The performance of each of the Share Classes is calculated on a single pricing basis, with dividends being reinvested net of all charges payable upon reinvestment and in the respective currency of denomination. The performance of the benchmark for UBS (Lux) Key Selection SICAV – European Growth and Income (EUR) is calculated with gross dividends reinvested and in EUR. The comparison between the performance of each Share Class and its benchmark (if any) is made on a "gross of fees" basis.

- \* “*Gross of costs and commissions*” means *not taking into account any costs and commissions charged when subscribing and realising shares*.
- \*\* “*Net of costs and commissions*” means *taking into account such costs and commissions charged when subscribing and realising shares (and calculated based on a Subscription Charge of 6% in respect of Share Classes with “*mdist*” in their names and 4% in respect of other Share Classes and nil redemption charge)*.

Notes:

1. Due to the nature of the UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD) being managed as an allocation fund which is invested in several asset classes, no benchmark has been assigned to this Sub-Fund or its Share Classes as there is no representative benchmark considered to be reflective of the Sub-Fund's investment strategy.
2. The UBS (Lux) Key Selection SICAV – European Growth and Income (EUR) had no benchmark prior to 22 June 2020. A composite benchmark consisting of one-third MSCI Europe Index (net div. reinvested), one-third ICE BofA EUR High Yield 3% Constrained Index and one-third convertible bond indices (comprised of 50% Refinitiv Eurozone Convertible Bond Index (EUR) and 50% Refinitiv Global Convertible Index – Global Vanilla (hedged in EUR)) was assigned to this Sub-Fund with effect from 22 June 2020 in order to comply with the European Securities & Markets Authority benchmark disclosure requirements.

***Any past performance of the Share Classes is not necessarily indicative of their future performance.***

Save as otherwise disclosed above, other Share Classes available for subscription in Singapore as listed or described in Paragraph 2 above for which performance figures have not been provided in the above table have either not been inceptioned or have been inceptioned for less than one year as at 31 October 2025. A track record of at least one year is therefore not available in respect of such Share Classes as at 31 October 2025.

## 15.2 Expense Ratios and Turnover Ratios

The expense ratios of the Share Classes and the turnover ratios of the Sub-Funds based on the latest audited accounts issued as at the date of this Singapore Prospectus (for the financial period ended 30 September 2024) are as follows:

Sub-Fund	Share Class	Expense Ratio	Turnover Ratio
China Allocation Opportunity (USD)	P-acc	1.90%	80.44%
	P-mdist	1.90%	
	P-6%-mdist	1.90%	
	(SGD hedged) P-mdist	1.95%	
	(AUD hedged) P-6%-mdist	1.95%	
	(HKD) P-6%-mdist	1.90%	
	(RMB hedged) P-6%-mdist	1.96%	
	(SGD hedged) P-6%-mdist	1.95%	
	(HKD) P-mdist	1.90%	
	(AUD hedged) P-mdist	1.95%	
	(EUR) P-acc	1.90%	
	(EUR hedged) P-mdist	1.94%	
	(EUR hedged) P-acc	1.95%	
European Growth and Income (EUR)	P-acc	1.77%	26.37%
	P-8%-mdist	1.77%	
	(USD hedged) P-acc	1.82%	
	(USD hedged) P-mdist	1.82%	
	(USD hedged) P-6%-mdist	1.82%	
	(USD hedged) P-8%-mdist	1.82%	

Sub-Fund	Share Class	Expense Ratio	Turnover Ratio
	(SGD hedged) P-acc	1.82%	
	(SGD hedged) P-mdist	1.82%	
	(SGD hedged) P-8%-mdist	1.82%	
	(AUD hedged) P-8%-mdist	1.82%	
	(HKD hedged) P-6%-mdist	1.82%	
	(HKD hedged) P-8%-mdist	1.82%	
	(GBP hedged) P-8%-mdist	1.82%	

Share Classes available for subscription in Singapore as listed or described in Paragraph 2 above for which expense ratios have not been provided in the above table have either not been inceptioned or have been inceptioned after 30 September 2024, therefore, expense ratios for such Share Classes based on the Company's latest audited accounts are not available.

Notes:

1. The expense ratios are calculated in accordance with the requirements in the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios (the "**IMAS Guidelines**") and based on figures in the Company's latest audited accounts as at the date of this Singapore Prospectus (for the financial period ended 30 September 2024). The following expenses, and such other expenses as may be set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:
  - (a) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
  - (b) interest expenses;
  - (c) foreign exchange gains and losses of the Share Class, whether realised or unrealised;
  - (d) front-end loads, back-end loads and other costs arising on the purchase or sale of a foreign unit trust or mutual fund;
  - (e) tax deducted at source or arising from income received, including withholding tax; and
  - (f) dividends and other distributions paid to shareholders.

2. The turnover ratio is calculated based on the lesser of purchases or sales of underlying investments expressed as a percentage of daily average net asset value.

## **16. SOFT DOLLAR COMMISSIONS / ARRANGEMENTS**

As at the date of this Singapore Prospectus, the Management Company, Portfolio Managers or managers of target funds (as defined in Paragraph 6 above) into which a Sub-Fund invests more than 10% of its asset value or persons who execute trades for such target funds do not receive or enter into soft-dollar commissions/arrangements in respect of the Sub-Funds or such target funds. Neither the Portfolio Managers nor any of their associates receive cash or other rebates from brokers and dealers (whether or not they are members of the UBS Group) in respect of transactions executed for the Company and the Sub-Funds.

## **17. POTENTIAL CONFLICT OF INTERESTS**

The Board of Directors, the Management Company, the Portfolio Managers, the Depositary, the UCI Administrator and the other service providers of the Company, and/or their respective affiliates, associates, employees or any person connected with them may be subject to various conflicts of interest in their relationships with the Company.

The Management Company, the Company, the Portfolio Managers, the UCI Administrator and the Depositary have adopted and implemented a policy on conflicts of interest. They have taken suitable organisational and administrative measures to identify and manage conflicts of interest so as to minimise the risk of the Company's interests being prejudiced, as well as to ensure that the Company's shareholders are treated fairly in the event that a conflict of interest cannot be prevented.

The Management Company, the Depositary, the Portfolio Managers, the Distributor, the Securities Lending Agent and the Securities Lending Service Provider are part of the UBS Group (the "**Affiliated Person**"). The Affiliated Person is a global, full-service private banking, investment banking, asset management and financial services organisation that is a major player in the global financial markets. As such, the Affiliated Person is engaged in various business activities and may have other direct or indirect interests in the financial markets in which the Company invests.

The Affiliated Person endeavours to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. To this end, the Affiliated Person has implemented procedures to ensure that any business activities giving rise to a conflict that could harm the interests of the Company or its shareholders, are carried out with an appropriate level of independence and that any conflicts are resolved fairly.

Despite the Management Company's best efforts and due care, there remains the risk that the organisational or administrative measures taken by the Management Company for the management of conflicts of interest may not be sufficient to ensure, with reasonable confidence, that all risks of damage to the interests of the Company or its shareholders are eliminated. If this should be the case, any non-mitigated conflicts of interest and any decisions taken in relation thereto will be notified to shareholders on the following website of the Management Company: [http://www.ubs.com/lu/en/asset\\_management/investor\\_information.html](http://www.ubs.com/lu/en/asset_management/investor_information.html).

Where a conflict of interest arising out of the relationship between the Management Company and the Depositary cannot be avoided, the Management Company or the Depositary will manage, monitor and disclose that conflict of interest in order to prevent adverse effects on the interests of the Company and of the shareholders.

Further information is set out under the “INFORMATION FOR SHAREHOLDERS” section of the Luxembourg Prospectus under the sub-heading “CONFLICTS OF INTEREST”.

## **18. REPORTS**

The financial year end for the Company is 30 September.

The annual report (which contains the audited annual accounts) is published within four months after the end of the financial year and the semi-annual report (which contains the semi-annual accounts) is published within two months after the end of the period to which it is made up and may be sent to shareholders in accordance with applicable Luxembourg laws.

Further details on the annual report and semi-annual report are set out under the “INFORMATION FOR SHAREHOLDERS” section of the Luxembourg Prospectus under the sub-heading “REGULAR REPORTS AND PUBLICATIONS”.

You may inspect a copy of all these reports at the operating office of the Singapore Representative during normal Singapore business hours.

## **19. OTHER MATERIAL INFORMATION**

### **19.1 Distribution Policy of the Sub-Funds**

Please refer to the section headed “DISTRIBUTIONS” of the Luxembourg Prospectus for information on how distributions on the Shares are determined and made.

Distributions may be composed of income (e.g. dividend income and interest income) or capital and they may include or exclude fees and expenses. Any distribution results in an immediate reduction of the net asset value per share of a Sub-Fund. Distributions out of capital result in the reduction of an investor’s original capital invested in the Sub-Funds.

You should note that the Share Classes with “-acc” in their name are accumulating Share Classes and the income thereof is not distributed unless the Company decides otherwise.

### **19.2 Tax Considerations**

You should be aware that you may be required to pay income tax, withholding tax, capital gains tax, wealth tax, stamp taxes or other kind of tax on distributions or deemed distributions of the Sub-Funds, capital gains within the Sub-Funds, whether or not realised, income received or accrued or deemed received within the Sub-Funds. *Please note that the information provided herein is not exhaustive and does not constitute tax or legal advice. You should consult your own independent tax advisors if in doubt of your tax position.*

#### **19.2.1 Certain Singapore Tax Considerations**

The following is a summary of certain Singapore income tax consequences to the investors in the Sub-Funds who are tax resident in Singapore. The discussion does not purport to be a comprehensive description of all possible Singapore tax

consequences to purchasers or owners of Shares in the Sub-Funds in all circumstances. The discussion below is general in nature and is based upon applicable laws of Singapore, all as in effect on the date of this Singapore Prospectus and all of which are subject to changes or differing interpretation (possibly with a retrospective effect). You are urged to consult your own tax advisors as to all Singapore income and other tax consequences of acquiring, holding or disposing of Shares of any of the Sub-Funds.

Singapore adopts a quasi-territorial system of taxation whereby tax is assessed on income accruing in or derived from Singapore, or income received (or deemed to be received) in Singapore from sources outside Singapore, subject to certain exemptions. Singapore income tax is only imposed on income. There is no capital gains tax in Singapore.

Individuals who are tax resident in Singapore will be exempt from Singapore tax on all foreign-sourced income received in Singapore on or after 1 January 2004, other than income received through a partnership in Singapore. Accordingly, individual investors should generally be exempt from Singapore tax on income distributions received from any of the Sub-Funds (assuming that such Sub-Fund's investment income being distributed is not itself Singapore-sourced). You should note that income distributions from the Sub-Funds may be treated as Singapore-sourced income in the hands of an investor where the distributions constitute gains or profits from a trade or business carried on by the investor in Singapore.

You should also note that the above exemption extends to resident individuals only and not to corporates or other persons or entities. Corporates or other bodies of persons who are tax resident in Singapore will be taxed on the income distributions received from any of the Sub-Funds at the applicable corporate tax rates. There are certain exemptions available to Singapore-resident persons (excluding individuals) on certain foreign-sourced income received by them, subject to certain conditions being met.

Singapore generally does not impose tax on capital gains. In general, gains from the disposal of the Shares in any of the Sub-Funds may be construed to be of an income nature and subject to Singapore income tax if they arise from activities which are regarded as the carrying on of a trade or business in Singapore.

Pursuant to Section 10L of the Income Tax Act 1947 of Singapore ("ITA"), gains received or deemed to be received in Singapore by an entity of a relevant group from the sale or disposal of any movable or immovable property outside Singapore ("foreign assets") will be treated as income chargeable to Singapore income tax, subject to certain exclusions. On the basis that the Shares in any of the Sub-Funds are regarded as such foreign assets, gains received or deemed to be received in Singapore from the sale or disposal of the Shares in any of the Sub-Funds may be treated as income chargeable to Singapore income tax in the hands of investors who fall within the scope of Section 10L of the ITA. Investors who may be subject to the tax treatment under Section 10L of the ITA should consult their own professional tax advisers regarding the Singapore income tax consequences of their sale or disposal of the Shares in any of the Sub-Funds.

In addition, investors who apply, or who are required to apply, the Singapore

Financial Reporting Standard (“**FRS**”) 109 or Singapore Financial Reporting Standard (International) 9 (“**SFRS(I) 9**”) for the purposes of Singapore income tax may be required to recognise gains or losses (not being gains or losses in the nature of capital) in accordance with the provisions of FRS 109 or SFRS(I) 9 (as the case may be) (as modified by the applicable provisions of Singapore income tax law) even though no sale or disposal of Shares in any of the Sub-Funds is made.

#### **19.2.2 Other Tax Considerations**

Please refer to the “TAXES AND EXPENSES” section of the Luxembourg Prospectus for a summary of other tax considerations in relation to the Company and the Sub-Funds.

### **19.3 Liquidation of the Company and the Sub-Funds and merging of Sub-Funds**

The Company may be dissolved at any time by the general meeting of shareholders. If the total net assets of the Company fall below two-thirds or one-quarter of the prescribed minimum capital (being EUR 1,250,000 as of the date of this Singapore Prospectus), the Board of Directors of the Company must ask for a vote by the general meeting of shareholders on whether to liquidate the Company.

If the total net asset value of a Sub-Fund or a Share Class within a Sub-Fund has fallen below or failed to reach a value required for that Sub-Fund or Share Class to be managed with economic efficiency; or if there is a substantial change in the political, economic and monetary environment; or as part of a rationalisation; the general meeting of shareholders or the Board of Directors of the Company may decide to redeem all Shares of the corresponding Share Class(es) at the net asset value (taking into account the actual investment realisation rates and expenses) as at the valuation day or time at which the decision takes effect.

Please refer to the “LIQUIDATION OF THE COMPANY AND ITS SUB-FUNDS; MERGER OF SUB-FUNDS” section of the Luxembourg Prospectus for further details on the liquidation process. Information on the powers of the Board of Directors of the Company to merge Sub-Funds or a Sub-Fund with another undertaking for collective investment as well as on the general meeting of shareholders for the liquidation and merger of Sub-Funds may also be found in that section.

### **20. QUERIES AND COMPLAINTS**

You may contact the Singapore Representative at +65-6495 5333 or at its operating office during normal Singapore business hours to raise any queries or complaints regarding the Company or any Sub-Fund.

# UBS (Lux) Key Selection SICAV

## Investment company under Luxembourg law (the "Company")

3 July 2025

## Sales Prospectus

Shares in the Company may be acquired on the basis of this Sales Prospectus, the Company's Articles of Incorporation, the latest annual report and, if already published, the subsequent semi-annual report.

Only the information contained in the Sales Prospectus and the aforementioned documents shall be deemed valid.

Furthermore, a key information document for retail and insurance-based packaged investment products within the meaning of Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for retail and insurance-based packaged investment products (PRIIPs) ("KID") is made available to investors before subscribing for shares. For the avoidance of doubt, UCITS Key Investor Information Documents ("KIDs") shall continue to be made available to investors in the UK to the extent this remains a regulatory requirement. References to the "KID" in this Prospectus shall therefore also be read as a reference to the "KIID" where applicable. Information on whether a sub-fund of the Company is listed on the Luxembourg Stock Exchange can be obtained from the UCI Administrator or the Luxembourg Stock Exchange website ([www.bourse.lu](http://www.bourse.lu)).

The issue and redemption of Company shares is subject to the regulations prevailing in the country where this takes place. The Company treats all investor information with the strictest confidentiality, unless its disclosure is required pursuant to statutory or supervisory provisions.

Shares in this Company may not be offered, sold or delivered within the United States.

Shares of this Company may not be offered, sold or delivered to investors who are US Persons. A US Person is any person who:

- (i) is a United States person within the meaning of Section 7701(a)(30) of the US Internal Revenue Code of 1986, as amended, and the Treasury Regulations promulgated thereunder;
- (ii) is a US person within the meaning of Regulation S under the US Securities Act of 1933 (17 CFR § 230.902(k));
- (iii) is not a Non-United States person within the meaning of Rule 4.7 of the US Commodity Futures Trading Commission Regulations (17 CFR § 4.7(a)(1)(iv));
- (iv) is in the United States within the meaning of Rule 202(a)(30)-1 under the US Investment Advisers Act of 1940, as amended; or
- (v) is any trust, entity or other structure formed for the purpose of allowing US Persons to invest in the Company.

### Portfolio Manager

Sub-fund	Portfolio Manager
UBS (Lux) Key Selection SICAV – Global Allocation (USD)	UBS Asset Management (Americas) LLC, New York
UBS (Lux) Key Selection SICAV – Digital Transformation Dynamic (USD) UBS (Lux) Key Selection SICAV – Digital Transformation Themes (USD)	UBS Asset Management (Americas) LLC, New York UBS Switzerland AG, Zurich
UBS (Lux) Key Selection SICAV – Asian Equities (USD)	UBS Asset Management (Singapore) Ltd, Singapore
UBS (Lux) Key Selection SICAV – Asian Global Strategy Balanced (USD)	UBS Asset Management Switzerland AG, Zurich UBS Switzerland AG, Zurich
UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD) UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD) UBS (Lux) Key Selection SICAV – Credit Income Opportunities (USD)	UBS Asset Management (Hong Kong) Limited, Hong Kong
UBS (Lux) Key Selection SICAV – Systematic Allocation Portfolio Equity (USD) UBS (Lux) Key Selection SICAV – Dynamic Alpha (USD) UBS (Lux) Key Selection SICAV – Climate Diversified (EUR)	UBS Asset Management Switzerland AG, Zurich
UBS (Lux) Key Selection SICAV – European Equity Value Opportunity (EUR) UBS (Lux) Key Selection SICAV – European Growth and Income (EUR) UBS (Lux) Key Selection SICAV – Global Equities (USD) UBS (Lux) Key Selection SICAV – Global Equity Value Opportunity (USD) UBS (Lux) Key Selection SICAV – European Financial Debt (EUR)	UBS Asset Management (UK) Ltd., London

The Portfolio Manager has been assigned the management of the securities portfolio under the supervision and responsibility of the Management Company; to this end, it carries out all transactions relevant hereto in accordance with the prescribed investment restrictions.

If the above table states that UBS Asset Management (Americas) LLC and UBS Switzerland AG have been appointed Portfolio Managers for the sub-funds, the following division of responsibilities applies in addition:

For UBS (Lux) Key Selection SICAV – Digital Transformation Dynamic (USD) and UBS (Lux) Key Selection SICAV – Digital Transformation Themes (USD), UBS Switzerland AG will assume the task of establishing the key long-term investment themes, a corresponding equities universe and the investment parameters. UBS Switzerland AG also assumes the task of making investment recommendations in relation to the allocation of assets to the various asset classes for UBS (Lux) Key Selection SICAV – Digital Transformation Dynamic (USD). The recommendations are based on a systematic approach, which is described in greater detail in the special investment policy. UBS Asset Management (Americas) LLC will use the information provided by UBS Switzerland AG together with the results of its own fundamental research to determine the sub-funds' investments. UBS Asset Management (Americas) LLC will carry out all relevant transactions in line with the prescribed investment parameters.

The Management Company has assigned the portfolio management of the sub-fund UBS (Lux) Key Selection SICAV – Asian Global Strategy Balanced (USD) to UBS Asset Management Switzerland AG, Zurich, as well as to UBS Switzerland AG. UBS Switzerland AG assumes the tasks of allocating assets and preselecting investment strategies. UBS Asset Management Switzerland AG is responsible for selecting investment instruments, makes investment decisions and carries out all transactions relevant hereto in accordance with the prescribed investment restrictions.

The Portfolio Management entities of UBS Asset Management may transfer their mandates, fully or in part, to associated Portfolio Managers within UBS Asset Management. However, responsibility in each case remains with the aforementioned Portfolio Manager assigned by the Company.

## Investment Advisor

Sub-fund	Investment Advisor
UBS (Lux) Key Selection SICAV – Systematic Allocation Portfolio Equity (USD)	UBS Switzerland AG, Zurich

The Investment Advisor makes investment recommendations to the Portfolio Manager of the sub-fund indicated above in relation to the allocation of assets to the various asset classes. The recommendations are based on a systematic approach, which is described in greater detail in the special investment policy. The Portfolio Manager of the sub-funds is responsible for identifying and selecting suitable companies and investment instruments, makes investment decisions and carries out all transactions relevant hereto in accordance with the prescribed investment restrictions.

Sub-fund	Investment Advisor
UBS (Lux) Key Selection SICAV – Credit Income Opportunities (USD)	UBS Switzerland AG, Zurich

The Investment Advisor makes investment recommendations to the Portfolio Manager of the sub-fund indicated above regarding the allocation of assets to the different sub-categories of fixed-income investments, such as the allocation to the investment grade, high-yield, emerging markets, and other segments. They may also recommend investment instruments deemed useful for the accomplishment of the sub-fund's objective. The Portfolio Manager of the sub-fund is responsible for identifying and selecting suitable companies and investment instruments, makes investment decisions and carries out all transactions relevant hereto in accordance with the prescribed investment restrictions.

## Depository and Main Paying Agent

UBS Europe SE, Luxembourg Branch, 33A avenue J.F. Kennedy, L-1855 Luxembourg, (B.P. 2, L-2010 Luxembourg)  
UBS Europe SE, Luxembourg Branch, has been appointed as depositary of the Company (the "**Depository**"). The Depositary will also provide paying agent services to the Company.

The Depositary is a Luxembourg branch of UBS Europe SE, a European company (societas Europaea – SE) with its registered office in Frankfurt am Main, Germany, listed in the trade and companies register of the Frankfurt am Main district court (Handelsregister des Amtsgerichts Frankfurt am Main) under number HRB 107046. The Depositary is located at 33A avenue J.F. Kennedy, L-1855 Luxembourg, and is entered in the Luxembourg trade and companies register under B 209.123.

The Depositary has been assigned the safekeeping of those financial instruments of the Company that can be held in custody, as well as the record keeping and verification of ownership for other assets held by the Company. The Depositary shall also ensure the effective and proper monitoring of the Company's cash flows pursuant to the provisions of the Law of 17 December 2010 on undertakings for collective investment ("**Law of 2010**") and the depositary agreement (hereinafter referred to as the "**Depositary Agreement**"), each as amended.

Assets held in custody by the Depositary shall not be reused for their own account by the Depositary or any third party to whom custody has been delegated, unless such reuse is expressly permitted by the Law of 2010.

In addition, the Depositary shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of shares is carried out in accordance with Luxembourg law, the Sales Prospectus and the Articles of Incorporation; (ii) the value of the shares is calculated in accordance with Luxembourg law; (iii) the instructions of the Management Company or the Company are carried out, unless they conflict with applicable Luxembourg law, the Sales Prospectus and/or the Articles of Incorporation; (iv) for transactions involving the Company's assets, any consideration is remitted to the Company within the usual time limits; and (v) the Company's income is appropriated in accordance with Luxembourg law, the Sales Prospectus and the Articles of Incorporation.

In accordance with the provisions of the Depositary Agreement and the Law of 2010, the Depositary may appoint one or more sub-depositaries. Subject to certain conditions and with the aim of effectively fulfilling its duties, the Depositary may thus delegate all or part of the safekeeping of those financial instruments that can be held in custody as entrusted to it, and/or all or part of its duties regarding the record keeping and verification of ownership of other assets of the Company.

In accordance with the applicable laws and regulations, as well as the directive on conflicts of interest, the Depositary shall assess potential conflicts of interest that may arise from the delegation of its safekeeping tasks to a sub-depository or sub-delegate before any such appointing takes place. The Depositary is part of the UBS Group: a global, full-service private banking, investment banking, asset management and financial services organisation that is a major player on the global financial markets. As such, conflicts of interest may arise in connection with the delegation of its safekeeping tasks, because the Depositary and its affiliates engage in various business activities and may have diverging direct or indirect interests.

Investors may obtain additional information free of charge by addressing a written request to the Depositary.

Irrespective of whether a sub-depository or sub-delegate is part of the UBS Group, the Depositary will exercise the same level of due skill, care and diligence both in the selection and appointment as well as in the on-going monitoring of the respective sub-depository or sub-delegate. Furthermore, the conditions determining the appointment of any sub-depository or sub-delegate that is member of the UBS Group will be negotiated at arm's length in order to protect the interests of the Company and its shareholders. Should a conflict of interest arise and prove impossible to mitigate, such conflict of interest will be disclosed to the shareholders, together with all decisions taken pertaining thereto. An up-to-date description of all custody tasks delegated by the Depositary, alongside an up-to-date list of these delegates and sub-delegate(s) can be found on the following webpage: <https://www.ubs.com/global/en/legalinfo2/luxembourg.html>

Where the law of a third country requires that financial instruments be held in custody by a local entity and no local entity satisfies the delegation requirements of Article 34 bis, Paragraph 3, lit. b) i) of the Law of 2010, the Depositary may delegate its tasks to such local entity to the extent required by the law of such third country for as long as there are no local entities satisfying the aforementioned requirements. In order to ensure that its tasks are only delegated to sub-depositaries providing

an adequate standard of protection, the Depositary must exercise all due skill, care and diligence as required by the Law of 2010 in the selection and appointment of any sub-depository to which it intends to delegate a portion of its tasks. Furthermore, it must continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any sub-depository to which it has delegated a portion of its tasks and of any arrangements entered into by the sub-depository in respect of the matters delegated to it. In particular, delegation is only permitted if the sub-depository keeps the assets of the Company separate from the Depositary's own assets and the assets belonging to the sub-depository at all times during performance of the delegated tasks pursuant to the Law of 2010. The Depositary's liability shall not be affected by any such delegation, unless otherwise stipulated in the Law of 2010 and/or the Depositary Agreement.

The Depositary is liable to the Company and its shareholders for the loss of a financial instrument held in custody within the meaning of Article 35 (1) of the Law of 2010 and Article 12 of Commission Delegated Regulation (EU) 2016/438 of 17 December 2015 supplementing the UCITS Directive with regard to the obligations of depositaries (the "**Deposited Fund Assets**") by the Depositary and/or a sub-depository (the "**Loss of a Deposited Fund Asset**").

In the event of the Loss of a Deposited Fund Asset, the Depositary must provide a financial instrument of the same type or value to the Company without undue delay. In accordance with the provisions of the Law of 2010, the Depositary will not be liable for the Loss of a Deposited Fund Asset if this was the result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

Without prejudice to the special liability of the Depositary in the event of the loss of any fund assets held in custody, the Depositary shall be liable for any loss or damage suffered by the Company resulting directly from the Depositary's negligence, fraud or wilful misconduct in the execution of the services under the Depositary Agreement, except in respect of the Depositary's duties under the Law of 2010 for which the Depositary will be liable for any loss or damage suffered by the Company resulting directly from the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the Law of 2010.

The Company and the Depositary may terminate the Depositary Agreement at any time by giving three (3) months' notice via registered letter. Under certain circumstances, the Depositary Agreement may also be terminated with a shorter notice period, for example in the event of a material breach of duty by one of the parties. Until a new depositary has been appointed, which must occur within no more than two (2) months of the time when notice to terminate the Depositary Agreement took effect, the Depositary shall take all necessary steps in order to ensure that the interests of investors in the Company are upheld. If the Company does not name another depositary as its successor within this period, the Depositary may notify the Luxembourg supervisory authority ("Commission de Surveillance du Secteur Financier – "CSSF") concerning the situation.

The Depositary shall be entitled to be remunerated for its services out of the net assets of the Company, as agreed upon in the Depositary Agreement. In addition, the Depositary is entitled to be reimbursed by the Company for its reasonable out-of-pocket expenses and disbursements and for the charges of any correspondents.

The Depositary is not involved, directly or indirectly, with the business affairs, organisation or management of the Company and is not responsible for the content of this document and thus accepts no responsibility for the accuracy of any information contained herein or the validity of the structure and investments of the Company. The Depositary has no decision-making discretion nor any advice duty relating to the Company's investments and is prohibited from meddling in the management of the Company's investments. The Depositary does not have any investment decision-making role in relation to the Company.

In case the Depositary receives investors' data, such data might be accessible and/or transferred by the Depositary to other entities controlled by the UBS Group AG currently or in the future as well as third-party service providers (the "UBS Partners"), in their capacity as service providers on behalf of the Depositary. UBS Partners are domiciled in the EU or in countries located outside the EU but with an adequate level of data protection (on the basis of an adequacy decision by the European Commission) such as Switzerland. Data could be made available to UBS entities located in Poland, the UK, Switzerland, Monaco, and Germany as well as other branches of UBS Europe SE (in France, Italy, Spain, Denmark, Sweden, Switzerland and Poland), for the purpose of outsourcing certain infrastructure (e.g. telecommunications, software) and/or other tasks in order to streamline and/or centralise a series of processes linked to the finance, operational, back-office, credit, risk, or other support or control functions. Further information about the outsourcing and processing of personal data by the Depositary is available at <https://www.ubs.com/lux-europe-se>.

#### **UCI Administrator**

Northern Trust Global Services SE, 10, rue du Château d'Eau, L-3364 Leudelange

The UCI Administrator is responsible for the general administrative tasks involved in managing the Company as prescribed by Luxembourg law. These administrative services mainly include calculating the net asset value per share, keeping the Company's accounts and carrying out reporting activities. In addition, as registrar and transfer agent of the Company, the UCI Administrator is also responsible for collecting the required information and performing verifications on investors to comply with applicable anti-money laundering rules and regulations. Furthermore, the UCI Administrator provides client communication services, being responsible for the production and dispatch of documents intended for investors.

#### **Auditor of the Company**

ERNST & YOUNG, Luxembourg, a Société anonyme, with registered office at 35E, avenue John F. Kennedy, L-1855 Luxembourg.

#### **Paying agents**

UBS Europe SE, Luxembourg Branch, 33A avenue J.F. Kennedy, L-1855 Luxembourg, (B.P. 2, L-2010 Luxembourg) and other paying agents in the various distribution countries.

#### **Distributors and other sales agents, referred to as "distributors" in the Sales Prospectus.**

UBS Asset Management Switzerland AG, Zurich, and other distributors in the various countries of distribution.

## Profile of the typical investor

### **UBS (Lux) Key Selection SICAV – Asian Equities (USD)**

This actively managed sub-fund is suitable for investors who wish to invest in a diversified portfolio of Asian equities and equity rights and in a sub-fund promoting environmental and/or social characteristics, and who are willing to accept the risk associated with equities.

### **UBS (Lux) Key Selection SICAV – Asian Global Strategy Balanced (USD)**

This actively managed sub-fund is suitable for investors who wish to invest in a global portfolio with a focus on Asia. Investors will benefit from broad diversification across a number of asset classes such as equities and bonds. Investors should be prepared to assume the risk associated with investing in Asian assets and currencies, and thus in emerging markets.

### **UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD)**

This actively managed sub-fund is suitable for investors who wish to invest in a diversified portfolio of equities and bonds with a focus on China. Investors should be prepared to assume the risk associated with investing in Chinese assets.

### **UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD)**

This actively managed sub-fund is suited to risk-aware investors wanting to invest primarily in Chinese companies by means of a diversified equity portfolio.

### **UBS (Lux) Key Selection SICAV – Credit Income Opportunities (USD)**

This actively managed sub-fund is suitable for investors who wish to generate attractive returns and capital growth from investing in a globally diversified portfolio of fixed-income securities.

### **UBS (Lux) Key Selection SICAV – Digital Transformation Dynamic (USD)**

This actively managed sub-fund is suitable for investors who wish to invest globally in a broadly diversified portfolio comprised mainly of equities and equity rights of companies in developed countries and emerging markets. By investing in this sub-fund, investors seek in particular to participate in global equity markets, and are thus prepared to accept the associated risk.

### **UBS (Lux) Key Selection SICAV – Digital Transformation Themes (USD)**

This actively managed sub-fund is suitable for investors who wish to invest globally in a broadly diversified portfolio of equities and equity rights of companies in developed countries and emerging markets and in a sub-fund promoting environmental and/or social characteristics, and who are willing to accept the risk associated with equities.

### **UBS (Lux) Key Selection SICAV – Dynamic Alpha (USD)**

This actively managed sub-fund is suitable for investors with a medium to high risk tolerance who wish to invest in a globally diversified portfolio. Investors should seek to seize opportunities for attractive returns in any market environment and prepared to assume the associated risk.

### **UBS (Lux) Key Selection SICAV – European Equity Value Opportunity (EUR)**

This actively managed sub-fund is suitable for investors who wish to invest in a diversified portfolio of European equities and equity rights. This sub-fund promotes environmental and/or social characteristics.

### **UBS (Lux) Key Selection SICAV – European Growth and Income (EUR)**

This actively managed sub-fund is suitable for risk-conscious investors who wish to invest in a diversified portfolio of equities, bonds and convertible bonds with a focus on Europe and with a bond component consisting primarily of high yield bonds. Investors should be prepared to assume the risk associated with investing in equities and high yield bonds.

### **UBS (Lux) Key Selection SICAV – Global Allocation (USD)**

The actively managed sub-fund is suitable for investors seeking capital gains who wish to invest in a globally diversified portfolio with the reference currency stated in the sub-fund name.

### **UBS (Lux) Key Selection SICAV – Global Equities (USD)**

This actively managed sub-fund is suitable for investors who wish to invest worldwide in a diversified portfolio of corporate equities and equity rights.

### **UBS (Lux) Key Selection SICAV – Global Equity Value Opportunity (USD)**

This actively managed sub-fund is suitable for investors who wish to invest in a diversified portfolio of Global equities and equity rights.

**UBS (Lux) Key Selection SICAV – Systematic Allocation Portfolio Equity (USD)**

This actively managed sub-fund is suitable for investors who wish to invest globally in a broadly diversified portfolio of equities and equity rights of companies in developed countries and emerging markets. By investing in this sub-fund, investors seek in particular to participate in global equity markets, and are thus prepared to accept the associated risk.

**UBS (Lux) Key Selection SICAV – Climate Diversified (EUR)**

This actively managed sub-fund is suitable for investors who wish to invest in a globally diversified portfolio which promotes environmental and/or social characteristics. As the sub-fund invests directly or indirectly in equity and fixed income in both developed countries and emerging markets, investors should be prepared to assume the associated risks.

**UBS (Lux) Key Selection SICAV – European Financial Debt (EUR)**

The actively managed sub-fund is suitable for investors who wish to invest in a diversified portfolio of mainly subordinated debt instruments (including hybrid bonds) as well as additional core capital securities (AT1) from the financial sector in Europe. This sub-fund promotes environmental and/or social characteristics. Investors should be prepared to assume the interest rate and credit risks inherent in this type of asset.

**Historical performance**

Information on where historical performance can be found is outlined in the KID of the relevant share class or in the corresponding sub-fund-specific document for the Company's distribution countries.

**Risk profile**

Sub-fund investments may be subject to substantial fluctuations and no guarantee can be given that the value of a Company share will not fall below its value at the time of acquisition.

Factors that can trigger such fluctuations or influence their magnitude include but are not limited to:

- Company-specific changes,
- Changes in interest rates,
- Changes in exchange rates,
- Changes in cyclical factors such as employment, government spending and debt, inflation,
- Changes in the legal environment,
- Changes to investor confidence in certain asset classes (e.g. equities), markets, countries, industries and sectors, and
- Changes in commodity prices.

By diversifying investments, the Portfolio Manager seeks to partly reduce the negative impact of these risks on the value of the sub-fund.

Where sub-funds are exposed to specific risks due to their investments, information on these risks is included in the investment policy of this sub-fund.

**Legal aspects****The Company**

The Company offers investors various sub-funds ("umbrella structure") that invest in accordance with the investment policy described in this Sales Prospectus. The specific features of each sub-fund are defined in this Sales Prospectus, which will be updated each time a new sub-fund is launched.

Name of the Company:	UBS (Lux) Key Selection SICAV		
Legal form:	Open-ended investment fund legally established in the form of a société d'investissement à capital variable ("SICAV") pursuant to Part I of the Law of 2010		
Date of incorporation:	9 August 2002		
Entered in the Luxembourg trade and companies register under:	RCS B 88.580		
Financial year:	1 October to 30 September		
Ordinary general meeting:	Annually at 10:00 on 20 March at the registered office of the Company. Should 20 March fall on a day that is not a business day in Luxembourg (i.e. a day on which banks in Luxembourg are open during normal business hours), then the general meeting will be held on the next business day.		
Articles of Incorporation:			
	Initial publication	23 August 2002	Published in the Mémorial
	Amendments	24 March 2004	15 June 2004

	9 May 2011	11 August 2011
	30 October 2015	25 November 2015
Management Company	UBS Asset Management (Europe) S.A., RCS Luxembourg B 154.210	

The consolidated version of the Articles of Incorporation of the Company may be consulted at the Luxembourg trade and companies register (Registre de Commerce et des Sociétés). Any amendments thereto shall be notified by way of a notice of deposit in the Recueil Electronique des Sociétés et Associations ("RESA"), as well as by any other means described below in the section entitled "Regular reports and publications". Amendments become legally binding following their approval by the general meeting of shareholders.

The combined net assets of the individual sub-funds form the total net assets of the Company, which at all times constitute the Company's share capital and consist of fully-paid up, no-par value shares (the "shares").

The Company asks investors to note that they only benefit from shareholder rights – particularly the right to participate in general meetings – if they are entered in their own name in the register of shareholders following their investment in the Company. However, if investors buy Company shares indirectly through an intermediary that makes the investment in its own name on behalf of the investor, and as a result, said intermediary is entered into the shareholders' register instead of the investor, the aforementioned shareholder rights may be granted to the intermediary and not the investor. Investors are therefore advised to enquire as to their investor rights before making an investment decision. It may not always be possible for the investor to be indemnified in case of net asset value calculation errors and/or non-compliance with investment rules and/or other errors at the level of the Company when subscribing through financial intermediaries. Investors are advised to seek advice in relation to their rights which may be negatively impacted.

At general meetings, shareholders are entitled to one vote per share held, irrespective of any differences in value between the shares in the individual sub-funds. Shares of a particular sub-fund carry the right of one vote per share held when voting at meetings affecting this sub-fund.

The Company forms a legal unit. As regards the association between shareholders, each sub-fund is considered to be independent of the others. The assets of a sub-fund are only liable for liabilities incurred by that sub-fund. As no division of liabilities is made between share classes, there is a risk that, under certain conditions, currency hedging transactions for share classes with "hedged" in their name may result in liabilities that affect the net asset value of other unit classes of the same sub-fund.

The Company may decide to liquidate existing sub-funds and/or launch new sub-funds and/or create different share classes with specific characteristics within these sub-funds at any time. This Sales Prospectus will be updated each time a new sub-fund is launched.

The Company's duration and total assets are unlimited.

The Company was established on 9 August 2002 as an open-ended investment fund in the form of a SICAV pursuant to Part I of the Luxembourg Law of 30 March 1988 relating to undertakings for collective investment and was adapted in February 2004 to conform to the provisions of the Law of 20 December 2002 relating to undertakings for collective investment; it has been subject to the Law of 2010 since 1 July 2011. With effect from 16 May 2011, the Company has appointed UBS Asset Management (Europe) S.A. as its Management Company.

## **Share classes**

Various share classes may be offered for each sub-fund. Information on the share classes available in each sub-fund can be obtained from the UCI Administrator or at [www.ubs.com/funds](http://www.ubs.com/funds).

"P"	Shares in classes with "P" in their name are available to all investors. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.
"N"	Shares in classes with "N" in their name (shares with restrictions on distribution partners or countries) are issued exclusively through distributors authorised by UBS Asset Management Switzerland AG and domiciled in Spain, Italy, Portugal and Germany, or in other distribution countries insofar as this has been decided by the Company. No entry costs shall be charged for these classes, even if they have additional characteristics. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.
"K-1"	Shares in classes with "K-1" in their name are available to all investors. Their smallest tradable unit is 0.001. The minimum investment amount is equivalent to the initial issue price of the unit class and is applicable on the level of the clients of financial intermediaries. This minimum investment amount must be met or exceeded with every subscription order that is placed. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 5 million, BRL 20 million, CAD 5 million, CHF 5 million, CZK 100 million, DKK 35 million, EUR 3 million, GBP 2.5 million, HKD 40 million, JPY 500 million, NOK 45 million, NZD 5 million, PLN 25 million, RMB 35 million, RUB 175 million, SEK 35 million, SGD 5 million, USD 5 million or ZAR 40 million.
"K-B"	Shares in classes with "K-B" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised distribution partners on investing in one or more sub-funds of this umbrella fund. The costs for asset management are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.
"K-X"	Shares in classes with "K-X" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more sub-funds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, UCI Administrator and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.
"F"	Shares in classes with "F" in their name are exclusively reserved for UBS Group AG affiliates. The maximum flat fee for this class does not include distribution costs. These shares may only be acquired by UBS Group AG affiliates, either for their own account or as part of discretionary asset management mandates concluded with UBS Group AG companies. In the latter case, the shares will be returned to the Company upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.
"Q"	Shares in classes with "Q" in their name are exclusively reserved for financial intermediaries that (i) make investments for their own account, and/or (ii) receive no distribution fees in accordance with regulatory requirements, and/or (iii) can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements or agreements on fund savings plans concluded with their clients. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the sub-fund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000,

	DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.
"QL"	<p>Shares in classes with "QL" in their name are exclusively reserved for selected financial intermediaries that: (i) have received approval from the Management Company prior to first subscription, and (ii) receive no distribution fees in accordance with regulatory requirements and/or can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements concluded with their clients. The Management Company will require a minimum investment of CHF 200 million (or the equivalent in another currency). The Management Company may waive the minimum investment temporarily or permanently. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the sub-fund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange.</p> <p>The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.</p>
"A"	<p>Shares in classes with "A" in their name are available to all investors. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price for these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.</p>
"I-A1"	<p>Shares in classes with "I-A1" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.</p>
"I-A2"	<p>Shares in classes with "I-A2" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700 EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000. The minimum subscription amount for these shares is CHF 10 million (or foreign currency equivalent).</p> <p>Upon subscription:</p> <ul style="list-style-type: none"> <li>(i) a minimum subscription must be made in accordance with the list above; or</li> <li>(ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or</li> <li>(iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.</li> </ul> <p>The management company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 30 million within a specified period.</p>
"I-A3"	<p>Shares in classes with "I-A3" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700 EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000. The minimum subscription amount for these shares is CHF 30 million (or foreign currency equivalent).</p> <p>Upon subscription:</p> <ul style="list-style-type: none"> <li>(i) a minimum subscription must be made in accordance with the list above; or</li> <li>(ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100 million (or foreign currency equivalent); or</li> <li>(iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.</li> </ul>

	The management company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 100 million within a specified period.
"I-A4"	<p>Shares in classes with "I-A4" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700 EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000. The minimum subscription amount for these shares is CHF 100 million (or foreign currency equivalent).</p> <p>Upon subscription:</p> <ul style="list-style-type: none"> <li>(i) a minimum subscription must be made in accordance with the list above; or</li> <li>(ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 500 million (or foreign currency equivalent); or</li> <li>(iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.</li> </ul> <p>The Management Company may waive the minimum subscription amount if the total assets managed by UBS or the amount held in UBS collective investment schemes for institutional investors is more than CHF 500 million within a defined period. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the sub-fund. The Management Company is not liable for any tax consequences that may result from a forcible redemption or exchange.</p>
"I-B"	<p>Shares in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more sub-funds of this umbrella fund. A fee covering the costs for fund administration (comprising the costs of the Company, the UCI Administrator and the Depositary) is charged directly to the sub-fund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.</p>
"I-X"	<p>Shares in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more sub-funds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, UCI Administrator and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.</p>
"U-X"	<p>Shares in classes with "U-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more sub-funds of this umbrella fund. The costs for asset management, fund administration (comprising the costs of the Company, the UCI Administrator and the Depositary) and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90,000, NZD 10,000, PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000 or ZAR 100,000.</p>

#### Additional characteristics:

Currencies	The share classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, NZD, PLN, RMB, RUB, SEK, SGD, USD or ZAR. For share classes issued in the currency of account of the sub-fund, this currency will not be included in the share class name. The currency of account features in the name of the relevant sub-fund.
"hedged"	For share classes with "hedged" in their name and with reference currencies different to the sub-fund's currency of account ("classes in foreign currencies"), the risk of fluctuations in the

	<p>value of the reference currency is hedged against the sub-fund's currency of account. This hedging shall be between 95% and 105% of the total net assets of the share class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of share classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.</p> <p>The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the sub-fund's currency of account.</p>
"BRL hedged"	<p>The Brazilian real (ISO 4217 currency code: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under "hedged". Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the sub-fund in accordance with the section "Liquidation of the Company and its sub-funds; merger of sub-funds".</p>
"RMB hedged"	<p>Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People's Republic of China (the "PRC"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.</p> <p>Shares in classes with "RMB hedged" in their name are shares whose net asset value is calculated in offshore RMB (CNH).</p> <p>Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.</p> <p>Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).</p> <p>Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.</p> <p>Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant sub-funds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant sub-fund to make redemption payments in offshore RMB (CNH) would be subject to the sub-fund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Company.</p> <p>The risk of fluctuations is hedged as described above under "hedged".</p> <p>Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the sub-fund in accordance with the section "Liquidation of the Company and its sub-funds; merger of sub-funds".</p>
"acc"	The income of share classes with "-acc" in their name is not distributed unless the Company decides otherwise.

"dist"	The income of share classes with "-dist" in their name is distributed unless the Company decides otherwise.
"qdist"	Shares in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the sub-fund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the sub-fund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.
"mdist"	Shares in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the sub-fund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the sub-fund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum entry costs for shares in classes with "-mdist" in their name are 6%.
"UKdist"	For share classes with "UKdist" in their name that are subject to the reporting fund rules, the Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of <b>the UK reporting fund rules</b> . The Company does not intend to make taxable values for these share classes available in other countries, as they are intended for investors whose investment in the share class is liable to tax in the UK.
"2%", "4%", "6%", "8%"	Shares in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors who wish for more stable distributions, unrelated to past or expected returns or income of the relevant sub-fund. Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the sub-fund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the sub-fund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.
"seeding"	Shares with "seeding" in their name are only offered for a limited period of time. At the end of this period, no further subscriptions are permitted unless the Company decides otherwise. However, shares can still be redeemed in accordance with the conditions for share redemptions. Unless otherwise decided by the Company, the smallest tradeable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the share classes listed above.

## **Investment objective and investment policy of the sub-funds**

### **Investment objective**

The Company aims to achieve high growth and/or current earnings, while giving due consideration to capital security and the liquidity of the Company's assets.

### **General investment policy**

The assets of the sub-funds are invested following the principle of risk diversification. The sub-funds invest their assets worldwide in equities, other share-like equity interests, such as cooperative shares, dividend-right certificates and participation certificates (other equity instruments and rights), short-term securities, money market instruments and warrants on securities, as well as debt instruments and claims. Debt instruments and claims include bonds, notes, all types of asset-backed securities, convertible bonds, convertible notes, warrant-linked bonds, as well as all legally permissible assets.

In addition, the sub-funds may invest in American depositary receipts (ADRs), global depositary receipts (GDRs) and structured products linked to equities, such as equity-linked notes.

The currency of account of the individual sub-funds refers only to the currency in which the net asset value of the respective sub-fund is calculated and not to its investment currency. Investments are made in the currencies that are most suitable for the performance of the sub-funds. The sub-funds may use all legally permitted instruments for currency management including currency derivatives (exchange traded and OTC).

As set out in Point 1.1(g) and Point 5 of the investment principles, the Company may, as a main element in achieving the investment policy for each sub-fund and within the statutory limits defined, use special techniques and financial instruments whose underlying assets are securities, money market instruments and other financial instruments.

The markets in derivatives are volatile; both the opportunity to achieve gains as well as the risk of suffering losses are higher than with investments in securities.

Each sub-fund may invest up to 20% of its net assets in ancillary liquid assets. The upper limit of 20% may only be temporarily exceeded for a period no longer than absolutely necessary if exceptionally unfavourable market conditions so require and if such a breach is justified taking the interests of investors into account. This restriction does not apply to liquid assets held to cover the risks of derivative financial instruments. Bank deposits, money market instruments or money market funds that meet the criteria of Article 41(1) of the Law of 2010 do not qualify as ancillary liquid assets within the meaning of Article 41(2) of the Law of 2010. Ancillary liquid assets should be limited to sight bank deposits, such as cash held in current accounts at a bank with instant access to cover current or exceptional payments, or for the period required for reinvestment in eligible assets pursuant to Article 41(1) of the Law of 2010, or for a period no longer than absolutely necessary in the event of unfavourable market conditions. A sub-fund may not invest more than 20% of its net asset value in sight deposits with a single institution. The investments of the sub-funds should also be broadly diversified in terms of markets, sectors, issuers, ratings and companies. Unless stipulated otherwise by the investment policy of the sub-fund concerned, sub-funds may invest up to 10% of their net assets in existing undertakings for collective investment in transferable securities (UCITS) and undertakings for collective investment (UCI).

### **ESG Integration**

UBS Asset Management categorises certain sub-funds as **ESG Integration funds**. The Portfolio Manager aims to achieve investors' financial objectives while incorporating sustainability into the investment process. The Portfolio Manager defines sustainability as the ability to leverage the Environmental, Social and Governance (ESG) factors of business practices seeking to generate opportunities and mitigate risks that contribute to the long-term performance of issuers ("Sustainability"). The Portfolio Manager believes that consideration of these factors will deliver better informed investment decisions. **Unlike funds which promote ESG characteristics or with a specific sustainability or impact objective that may have a focused investment universe, ESG Integrated Funds are investment funds that primarily aim at maximising financial performance, whereby ESG aspects are input factors within the investment process.** Investment universe restrictions applied on all actively managed funds are captured in the Sustainability Exclusion Policy. Further binding factors, if applicable, are outlined in the Investment Policy of the Sub-Fund.

ESG integration is driven by taking into account material ESG risks as part of the research process. For corporate issuers, this process utilises the ESG Material Issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager employs a proprietary ESG Risk Dashboard that combines multiple ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process. For non-corporate issuers, the Portfolio Manager may apply a qualitative or quantitative ESG risk assessment that integrates data on the most material ESG factors. The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.

The Portfolio Manager takes ESG integration into account in allocation in underlying strategies, including target funds. In the case of underlying strategies managed by UBS, the Portfolio Manager identifies ESG-integrated assets on the basis of the aforementioned research on ESG integration. For externally managed strategies, ESG integrated assets are identified via the third party manager research process.

### **Sustainability Exclusion Policy**

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the sub-funds.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing.html>

### **Sustainability Annual Reporting**

The "UBS Sustainability Report" is the medium for UBS' sustainability disclosures. Published annually, the report aims to openly and transparently disclose UBS' sustainability approach and activities, consistently applying UBS' information policy and disclosure principles.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing.html>

### **Sustainability Focus/Impact Funds**

UBS Asset Management categorises certain sub-funds as Sustainability Focus/Impact funds. Sustainability Focus/Impact funds promote ESG characteristics or have a specific sustainability objective which is defined in the investment policy.

## **Engagement Program**

The engagement program aims to prioritise/select companies where UBS Asset Management has identified concerns or thematic topics on particular ESG factors. These companies are selected from across the universe of companies in which UBS Asset Management invests using a top-down approach in accordance with our principles, as outlined in the Global Stewardship Policy. The prioritization process determines if and when engagement with a company is required. If a company is selected for the Engagement Program, engagement dialogue will generally last for at least two years. This is not an indication that sustainability related engagement has taken place with respect to companies in this portfolio during any given time period or that the companies in this portfolio were chosen with the goal to actively engage. Information on UBS Asset Management's selection of companies, engagement activities, prioritization process and understanding of concerns can be found in the UBS Asset Management Stewardship Annual Report and Stewardship Policy.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing/stewardship-engagement.html>.

## **Voting**

UBS will actively exercise voting rights based on the principles outlined in the UBS Asset Management Proxy Voting policy and UBS Asset Management Stewardship policy, with two fundamental objectives:

1. To act in the best financial interests of our clients to enhance the long-term value of their investments.
2. To promote best practice in the boardroom and encourage strong sustainability practices.

This is not an indication that voting on sustainability related topics has taken place with respect to companies held by a sub-fund during any given time period. For information about voting activities with specific companies please refer to the UBS Asset Management Stewardship Annual Report.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing/stewardship-engagement.html>.

## **The sub-funds and their special investment policies**

### **UBS (Lux) Key Selection SICAV – Asian Equities (USD)**

In line with the above-mentioned investment policy, the sub-fund invests at least two thirds of its assets in equities and equity rights of companies which are domiciled or chiefly active in Asia (excluding Japan). This sub-fund promotes environmental and/or social characteristics and complies with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). Further information related to environmental and/or social characteristics is available in Annex I to this document (SFDR RTS Art. 14(2)).

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile.

The sub-fund incorporates the following ESG promotion characteristics:

- A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

The calculations do not take account of cash, derivatives and unrated investment instruments.

The sub-fund uses the benchmark MSCI AC Asia (ex Japan) (net div. reinvested) to measure performance and the ESG profile, as well as for ESG and investment risk management and portfolio construction purposes. The benchmark is not designed to promote ESG characteristics. The Portfolio Manager may use discretion when constructing the portfolio and is

not tied to the benchmark in terms of investment selection or weight. This means that the investment performance of the sub-fund may differ from the benchmark. For share classes with "hedged" in their name, currency-hedged versions of the benchmark may be used if available.

Furthermore, the sub-fund may buy or sell futures, swaps, non-deliverable forwards and currency options in order to:

- wholly or partially hedge investments that make up the sub-fund's assets against the currency risk associated with the sub-fund's reference currency. This can be achieved directly (hedging a currency against the reference currency) or indirectly (hedging a currency against a third currency, which is then hedged against the reference currency).
- Build up currency positions against the currency of account, other freely convertible currencies or other currencies included in the benchmark. Non-deliverable forwards enable currency positions to be built up and hedged against exchange rate risks without the need to physically transfer these currencies or conduct transactions on a local market. This makes it possible to avoid the local counterparty risk as well as the costs of holding local currencies arising from any currency export restrictions. Moreover, there are generally no local exchange controls on NDFs in US dollars between two offshore contractual partners.

With respect to the sub-fund's investments the Portfolio Manager includes ESG analysis by means of the UBS Blended ESG Score (by number of issuer) for at least (i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries and (ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.

Investors should note that the sub-fund's exposure may also include Chinese A shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Chinese A shares are renminbi-denominated A shares of companies domiciled in mainland China; these are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange. **This sub-fund may invest in both developed and emerging markets. The risks associated therewith are listed in the section entitled "General risk information". In addition to the aforementioned, investors should read, be aware of and take into account the risks associated with investments traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Information on this topic can also be found in the section entitled "General risk information". For these reasons, this sub-fund is particularly suitable for risk-conscious investors.**

#### **UBS (Lux) Key Selection SICAV – Asian Global Strategy Balanced (USD)**

UBS Asset Management categorises this sub-fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective.

The aim of the investment policy is to combine investment income and capital growth within the framework of a globally oriented portfolio with an enhanced focus on Asia.

This sub-fund is actively managed, without reference to a benchmark. In order to achieve this aim, the sub-fund invests primarily in traditional asset classes such as equities and bonds. Within the legally permissible bounds, the sub-fund may also invest in non-traditional asset classes such as real estate and commodities. In principle, the sub-fund may temporarily invest up to 20% of its net assets in ancillary liquid assets. The upper limit of 20% may only be temporarily exceeded for a period no longer than absolutely necessary if exceptionally unfavourable market conditions so require and if such a breach is justified taking the interests of investors into account. In addition, the sub-fund may invest in near-money market instruments.

In order to fulfil its investment objective and achieve broad diversification, the sub-fund may invest its total assets in UCITS. Investments in UCIs other than UCITS may not exceed 30% of the sub-fund's net assets. This method of investment and the associated expenses are described in the section "Investments in UCIs and UCITS". In order to fulfil its investment objective, the sub-fund may also invest in all other legally permissible instruments, including structured products, certificates and derivative financial instruments, which can be used for hedging purposes and/or for participating in the expected market developments.

This also applies to any portions of the fund assets that participate in the performance of commodities indices or commodities sub-indices. In doing so, it is ensured at all times that there will be no physical delivery to the sub-fund. The Portfolio Manager achieves such participation by, for example, entering into swap transactions on the indices/sub-indices. In this way, the sub-fund is party to the swap transaction and receives the performance of the total return (TR) commodities index, minus the cash rate used in the index. Typically, the notional value of the swap can be adjusted on a daily basis (e.g. as is the case with inflows from share subscriptions, outflows from share redemptions or when adjusting the investment strategy). The counterparty risk resulting from a swap is the open profit or loss (not the notional value of the swap agreement). In order to minimise this risk and keep it below the legally permissible threshold at all times, open profits or losses are typically settled on a monthly basis and any time the statutory threshold for counterparty risk is reached (by means of a reset). The sub-fund may invest in UCIs and UCITS with an investment focus on commodities, including ETFs, provided that these invest exclusively in commodities indices and commodities sub-indices.

Where the sub-fund participates in the performance of real estate, it shall do so primarily by investing in units issued by real estate investment trusts (REITs), or UCITS or other UCIs that invest directly or indirectly in real estate.

The sub-fund invests a significant portion of its assets in investments in emerging markets. This means that the sub-fund is exposed to specific risks that may be greater than those normally inherent in internationally oriented investments. An overview of the general risks with investments focusing on emerging markets is given in the section "Investing in emerging markets".

As the sub-fund invests in many foreign currencies, the portfolio or parts thereof may be hedged against the currency of account of the sub-fund in order to reduce the associated foreign currency risks. The sub-fund may also take net short or net long positions in individual currencies with the view of benefiting from market developments.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

### **UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD)**

UBS Asset Management categorises this sub-fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective.

The objective of this sub-fund is to achieve capital growth and generate income by investing in a diversified portfolio with a focus on China. This sub-fund is actively managed, without reference to a benchmark.

To achieve this objective, the sub-fund invests mainly in equities and equity rights or bonds and claims of companies domiciled or chiefly active in China, in addition to other permissible investments which focus on China. To the extent permitted by law, the sub-fund may also invest in securities traded on the Chinese onshore securities market. This includes Chinese A shares ("**A shares**"), as well as fixed-income instruments denominated in RMB traded on China's interbank bond market ("**CIBM**") or on the market for exchange-traded bonds ("**Chinese onshore bonds**"). In particular, the sub-fund may invest directly or indirectly in Chinese A shares/Chinese onshore bonds through the Qualified Foreign Investors ("**QFI**") programme, in UCITS or other UCIs with exposure to Chinese A shares/Chinese onshore bonds and/or access products such as ETFs. Investors should note that the sub-fund's exposure may also include Chinese A shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. A shares are renminbi-denominated A shares of companies domiciled in mainland China; these are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange.

The sub-fund may invest no more than 20% of its net assets in fixed-income instruments denominated in RMB and traded on the CIBM. These instruments may include securities issued by governments, quasi-public corporations, banks, corporations and other institutions in the People's Republic of China ("**PRC**" or "**China**") that are authorised to be traded directly on the CIBM.

The sub-fund may invest in bonds and claims with a low rating, i.e. a rating of BBB (Standard & Poor's) or lower, a comparably low rating from another recognised rating agency or – insofar as a new issue is concerned that does not yet have an official rating or an issue that has no rating at all – a comparably low internal UBS rating. Investments with lower ratings may carry an above-average yield, but also a higher credit risk than investments in securities of first-class borrowers. The sub-fund may make investments denominated in USD and other currencies (including HKD and RMB).

In order to fulfil its investment objective and achieve broad diversification, the sub-fund may invest up to 10% of its net assets in UCITS and other UCIs within the meaning of point 1.1(e) of the section entitled "Investment principles". This method of investment and the associated expenses are described in the section "Investments in UCIs and UCITS".

In order to fulfil its investment objective, the sub-fund may also invest in all other legally permissible instruments, including structured products, certificates and derivative financial instruments, which can be used for hedging purposes and/or for participating in the expected market developments. In order to fulfil the investment objectives and ensure efficient portfolio management, the Portfolio Manager of the sub-fund may, for example, build up significant investment exposure as defined in the investment policy by investing in exchange-traded and OTC derivative instruments.

Due to the political situation and economic and regulatory developments in China, investments with a focus on China may be affected by legal uncertainties or other accompanying factors. The sub-fund is exposed to specific risks that may be greater than those normally associated with investments with an international focus; as a result, the sub-fund is suitable for risk-conscious investors. A detailed description of the risks connected with investment in this sub-fund is given in the section "General risk information" under the following headings: "**Investing in emerging markets**" and "**Specific risks when investing in the People's Republic of China ('PRC')**". This sub-fund is only suitable for investors who are willing to accept these risks.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

**UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD)**

UBS Asset Management categorises this sub-fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective. The sub-fund pursues a long/short equities strategy. Its exposure to shares and other equity interests is primarily in the form of companies domiciled in the People's Republic of China ("PRC") as well as in other companies that have close economic links with the PRC. These investments contain securities listed within the PRC (onshore) or outside of the PRC (offshore).

The sub-fund generally seeks to combine long and short positions to maintain net equity exposure of between 50% and 100% of its total net assets. This net equity exposure may range between 0% and 100% of the total net assets. Gross exposure in the form of long positions may not exceed 175% of the total net assets, and gross exposure in the form of short positions may not exceed 75% of the total net assets. In accordance with Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets", the sub-fund uses exchange-traded derivative instruments such as equity options or futures, or OTC derivatives such as equity rights (swaps), to build long and short equity positions. Potential losses incurred from taking a short position on an asset may be unlimited, since the price of the asset may rise without limitation. Sharp, rapid rises in the price of these assets may lead to substantial losses. The sub-fund does not engage in the physical short-selling of equities.

This sub-fund is actively managed, without reference to a benchmark.

Investors should note that the sub-fund's exposure may also include Chinese A shares. Chinese A shares are renminbi-denominated A shares of companies domiciled in mainland China; these are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange. The sub-fund may invest in Chinese A shares via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect.

The use of derivatives is a core element in achieving the investment objectives. The intention is to use the derivatives for participating in the expected market developments and/or for hedging purposes. The associated risks are described in the section "Risks connected with the use of derivatives". The sub-fund may not at any time conduct physical short-selling in investment securities.

The sub-fund may invest up to 100% of its assets in liquid assets or near-money market instruments.

As the sub-fund invests in many foreign currencies due to its regional orientation, the portfolio or parts thereof may be hedged against the reference currency of the sub-fund in order to reduce the associated foreign currency risks.

This sub-fund may invest in both developed and emerging markets. The risks associated therewith are listed in the section entitled "General risk information". In addition to the aforementioned, investors should read, be aware of and take into account the risks associated with investments traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Information on this topic can be found after the section "General risk information". For the reasons mentioned, this sub-fund is particularly suitable for risk-conscious investors.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

#### **UBS (Lux) Key Selection SICAV – Credit Income Opportunities (USD)**

UBS Asset Management categorises this sub-fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective. The investment objective of this actively managed sub-fund is to achieve income generation and capital growth from a broadly diversified and global portfolio of fixed-income securities. This sub-fund is managed without reference to a benchmark. Consequently, it is anticipated that the exposure to worldwide bond and currency markets may change over time at the discretion of the Portfolio Manager.

In order to fulfil its investment objective and achieve broad diversification, the sub-fund may invest its total assets in UCITS. Investments in UCIs other than UCITS may not exceed 30% of the sub-fund's net assets. The methodology and the associated fees and expenses are described in more detail in the section "Investments in UCIs and UCITS".

To achieve its investment objective, the sub-fund may invest in all other legally permissible instruments such as fixed-income securities and derivatives.

The sub-fund can invest in various fixed-income securities such as government, corporate and emerging market bonds as well as ABS/MBS and CDOs/CLOs, or a combination thereof. The sub-fund may invest a total of up to 20% of its net assets in ABS, MBS and CDOs/CLOs. **The associated risks are described in the section "Risks connected with the use of ABS/MBS" or "Risks connected with the use of CDOs/CLOs".**

The sub-fund has the flexibility to operate dynamically across various sectors and different credit qualities, as well as to actively exploit interest-rate and currency movements. Investments with lower credit qualities may generate an above-average return, but also carry a higher credit risk than investments in securities of first-class issuers.

The sub-fund is not subject to any restrictions regarding the ratings of the fixed-income securities in which it invests directly or indirectly. **Although investing in distressed securities is not a key component of the investment strategy, the sub-fund may invest in such securities (bonds that have a rating of CC from Standard & Poor's, a similar rating from another recognised agency or, in the case of a new issue that does not yet have an official rating, a comparable internal UBS rating). The exposure limit to such securities is 5%. Distressed bonds are securities issued by companies or public institutions in serious financial difficulty, and thus bear a high risk of capital loss.**

Up to 25% of its assets may be invested in convertible, exchangeable and warrant-linked bonds as well as convertible debentures. In addition, after deducting cash and cash equivalents, the sub-fund may invest up to 10% of its assets in equities, equity rights and warrants as well as shares, other equity shares and dividend-right certificates acquired through the exercise of conversion rights, subscription rights or options, in addition to warrants remaining after the separate sale of ex-warrant bonds and any equities acquired with these warrants. The equities acquired by exercise of rights or through subscription must be sold no later than 12 months after they were acquired. The sub-fund may also invest up to 10% of its net assets in contingent convertible bonds (CoCos). The associated risks are described in the section "Risks associated with the use of CoCos".

Investments are made in the currencies deemed to be most favourable for performance and are actively managed versus the currency of account. The global orientation of the sub-fund means that it invests in many currencies and the resulting currency risk may be partially or fully hedged in order to reduce risk.

**The sub-fund may also invest in securities focusing on emerging markets. This means that the sub-fund is exposed to specific risks that may be greater than the normal risks inherent in investments in industrialised nations. The risks associated with investments in emerging markets are listed in the section entitled "Risk information".**

The sub-fund may invest no more than 50% of its net assets in fixed-income instruments denominated in RMB and traded on the China Interbank Bond Market ("CIBM") or through Bond Connect. These instruments may include securities issued by governments, quasi-public corporations, banks, corporations and other institutions in the People's Republic of China ("PRC" or "China") that are authorised to be traded directly on the CIBM or through Bond Connect. **The associated risks are described in greater detail in the section "Specific risks of investing in the People's Republic of China".**

In extraordinary circumstances, the sub-fund may hold up to 100% of its assets in cash or other near-money market securities such as bank deposits, commercial paper and treasury bills for cash flow management, money market instruments and money market funds.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

#### **UBS (Lux) Key Selection SICAV – Digital Transformation Dynamic (USD)**

This sub-fund chiefly invests its assets in equities and other equity interests of companies in developed and emerging markets worldwide. The sub-fund focuses on digital aspects which the portfolio manager views as attractive from an investment perspective. These aspects can comprise any sectors, countries and company capitalisations. Potential digital aspects include e-commerce, security and protection, digital data, enabling technologies, finance technologies (fintech), Metaverse and health technologies.

In order to fulfil its investment objective and achieve broad diversification, the sub-fund may invest up to 40% of its net assets in UCITS as defined in section 1.1(e) of the Investment Principles. The methodology and the associated fees and expenses are described in more detail in the section "Investments in UCIs and UCITS".

The sub-fund may also invest up to 40% in bonds (mainly investment grade government and corporate bonds) and up to 40% in liquid assets or money market instruments. The allocation between equities and bonds/money market instruments is based on a systematic model, the aim of which is to identify market trends, align asset allocation to these trends and thereby reduce exposure to equities during significant downturns in the equity markets. The process takes into account various short and long-term indicators of company profits, market risks and equity market momentum. For this reason, the net equity exposure can vary greatly, up to a maximum of 130%. In phases where the sub-fund has a high equity exposure, the sub-fund may have short bond exposure of up to 25%. To build such short positions, the sub-fund uses exchange-traded derivative instruments such as bond futures in accordance with Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". Potential losses incurred from taking a short position on an asset may be unlimited, since the price of the asset may rise without limitation. Sharp, rapid rises in the price of these assets may lead to substantial losses. The sub-fund does not engage in physical short-selling. In phases when the model identifies the equity market trend as negative, net equity exposure may be reduced to 60%. If this happens, the investment in bonds and money market instruments and/or cash is proportionately higher.

The sub-fund may invest on an ancillary basis in real estate investment trusts ("REITs"). Investments in REITs are permissible, if these fulfil the criteria of (i) a UCITS or other UCI or (ii) a transferable security. A closed-ended REIT whose units are listed on a regulated market meets the criteria of a security listed on a regulated market and therefore constitutes a permissible investment for the sub-fund under Luxembourg law.

The actively managed sub-fund uses the benchmark MSCI AC World (net div. reinvested) for risk management purposes. The Portfolio Manager is not tied to the benchmark in terms of securities selection or weightings. The sub-fund may deviate from the benchmark in terms of allocation and performance.

As the sub-fund invests in many foreign currencies due to its global orientation, the portfolio or parts thereof may be hedged against the reference currency of the sub-fund in order to reduce the associated foreign currency risks.

Investors should note that the sub-fund's exposure may also include Chinese A shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Chinese A shares are renminbi-denominated A shares of companies domiciled in mainland China; these are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange. This sub-fund may invest in both developed and emerging markets. The risks associated therewith are listed in the section entitled "**General risk information**". In addition to the aforementioned,

investors should read, be aware of and take into account the risks associated with investments traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Information on this topic can be found after the section "**General risk information**". For the reasons mentioned, this sub-fund is particularly suitable for risk-conscious investors.

The sub-fund does not promote any environmental, social or governance (ESG) characteristics and does not pursue any sustainability or impact objective. Sustainability risks are not systematically integrated on the basis of the investment strategy and the type of underlying investments. The sub-fund can invest in underlying ESG-integrated strategies. However, allocation to such investments does not allow this sub-fund to be classified by UBS Asset Management as an ESG-integrated fund. At present, sustainability risks are not expected to have a significant impact on the sub-fund's return.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

**UBS (Lux) Key Selection SICAV – Digital Transformation Themes (USD)**

The sub-fund chiefly invests its assets in equities and other equity interests of companies in developed and emerging markets worldwide. The sub-fund focuses on digital aspects which the portfolio manager views as attractive from an investment perspective. These aspects can comprise any sectors, countries and company capitalisations. Potential digital aspects include e-commerce, security and protection, digital data, enabling technologies, finance technologies (fintech), Metaverse and health technologies. This sub-fund promotes environmental and/or social characteristics and complies with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). Further information related to environmental and/or social characteristics is available in Annex I to this document (SFDR RTS Art. 14(2)).

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile.

The sub-fund incorporates the following ESG promotion characteristics:

- A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

The calculations do not take account of cash, derivatives and unrated investment instruments.

The sub-fund may invest on an ancillary basis in real estate investment trusts ("REITs"). Investments in REITs are permissible, if these fulfil the criteria of (i) a UCITS or other UCI or (ii) a transferable security. A closed-ended REIT whose units are listed on a regulated market meets the criteria of a security listed on a regulated market and therefore constitutes a permissible investment for the sub-fund under Luxembourg law.

As the sub-fund invests in many foreign currencies due to its global orientation, the portfolio or parts thereof may be hedged against the reference currency of the sub-fund in order to reduce the associated foreign currency risks.

The sub-fund uses the benchmark MSCI AC World (net div reinvested) to measure performance and the ESG profile, as well as for ESG and investment risk management and portfolio construction purposes. The benchmark is not designed to promote ESG characteristics. The Portfolio Manager may use discretion when constructing the portfolio and is not tied to the benchmark in terms of investment selection or weight. This means that the investment performance of the sub-fund may differ from the benchmark.

With respect to the sub-fund's investments the Portfolio Manager includes ESG analysis by means of the UBS Blended ESG Score (by number of issuer) for at least (i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries and (ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.

Investors should note that the sub-fund's exposure may also include Chinese A shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Chinese A shares are renminbi-denominated A shares of companies domiciled in mainland China; these are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange. This sub-fund may invest in both developed and emerging markets. The risks associated therewith are listed in the section entitled "**General risk information**". In addition to the aforementioned, investors should read, be aware of and take into account the risks associated with investments traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Information on this topic can be found after the section "**General risk information**". For the reasons mentioned, this sub-fund is particularly suitable for risk-conscious investors.

#### **UBS (Lux) Key Selection SICAV – Dynamic Alpha (USD)**

The sub-fund invests in line with the above-mentioned general investment policy in order to participate in the growth potential of the global financial markets on a broadly diversified and dynamically managed basis. The actively managed sub-fund uses the benchmark FTSE USD 3 month Eurodeposit +4.5% as reference for performance evaluation purposes. When a currency-hedged share class is being launched and the benchmark is available in the currency of the currency-hedged share class, this will be indicated/launched accordingly. For example, a (EUR-hedged) share class will be compared with the benchmark FTSE EUR 3 month Eurodeposit + 4.5%. The investments and performance of the sub-fund may differ from the benchmark. The performance of the sub-fund may therefore differ considerably from the benchmark during periods of high market volatility.

Investments in commodities may only be made by the sub-fund, up to 25% of its net assets, indirectly by means of exchange-traded or OTC derivatives (e.g. contracts for difference, total return swaps and options on commodities indices), structured products (exchange traded commodities – ETCs) or through UCIs and UCITS (including ETFs), in accordance with the legal provisions. In doing so, it is ensured at all times that there will be no physical delivery of commodities to the sub-fund. For total return swaps, the sub-fund is party to a swap transaction based on the performance of the total return (TR) commodities index, minus the cash rate used in the index. Typically, the notional value of the swap can be adjusted on a daily basis (e.g. as is the case with inflows from share subscriptions, outflows from share redemptions or when adjusting the investment strategy). The counterparty risk resulting from a swap is the open profit (not the notional value of the swap agreement). In order to minimise this risk and keep it below the legally permissible threshold at all times, open profits are typically settled on a monthly basis and any time the statutory threshold for counterparty risk is reached (by means of a reset). Portfolios with investments in commodities are generally more volatile than pure equity portfolios. Investors should therefore note that the sub-fund is only suitable for investors who are prepared to accept moderate to high levels of volatility.

The sub-fund may invest up to 10% of its net assets in UCIs and UCITS, provided the investment policy of these target funds corresponds to the greatest possible degree to that of the sub-fund.

Up to 20% of the net assets may be invested in bonds with a rating from BB+ to C (Standard & Poor's), a similar rating from another recognised agency or – insofar as a new issue is concerned that does not yet have an official rating – a comparable internal UBS rating. Such **investments may carry an above-average yield, but also a higher credit risk than investments in securities of first-class issuers.**

The above-mentioned securities are securities as defined in Article 41 of the Law of 2010. The investments of the sub-fund are made in the currencies deemed best suited for performance and are actively managed in respect of the currency of account of the sub-fund. The sub-fund may take net short or net long positions in individual currencies with the view of benefiting from market developments.

The sub-fund may also invest in emerging market countries. This means that the sub-fund is exposed to specific risks that may be greater than those inherent in globally oriented investments. An overview of the risks in connection with investments focusing on emerging markets is given in the section "Investing in emerging markets".

The use of derivatives is a core element in achieving the investment objectives. The intention is to use the derivatives for participating in the expected market developments and/or for hedging purposes.

The sub-fund may be subject to substantial fluctuations (volatility) and is therefore particularly suitable for longer-term investors.

The sub-fund does not promote any environmental, social or governance (ESG) characteristics and does not pursue any sustainability or impact objective. Sustainability risks are not systematically integrated on the basis of the investment strategy and the type of underlying investments. The sub-fund can invest in underlying ESG-integrated strategies. However, allocation to such investments does not allow this sub-fund to be classified by UBS Asset Management as an ESG-integrated fund. At present, sustainability risks are not expected to have a significant impact on the sub-fund's return.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

**UBS (Lux) Key Selection SICAV – European Equity Value Opportunity (EUR)**

This sub-fund promotes environmental and/or social characteristics and complies with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). Further information related to environmental and/or social characteristics is available in Annex I to this document (SFDR RTS Art. 14(2)).

The sub-fund invests at least two thirds of its assets on the basis of a value approach (the portfolio manager carries out a fundamental analysis with the aim of investing in companies that, according to the analysis, are being traded below their long-term fair corporate value) in equities and equity rights of companies based in Europe or that carry out their economic activity predominantly in Europe.

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies.

Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile.

The sub-fund incorporates the following ESG promotion characteristics:

- A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- A sustainability profile that is higher than its benchmark's sustainability profile or a UBS Blended ESG Score between 7 and 10 (indicating a strong sustainability profile).

The calculations do not take account of cash, derivatives and unrated investment instruments.

The actively managed sub-fund uses the benchmark MSCI Europe (net div. reinvested) for performance measurement, monitoring ESG metrics, investment risk management and portfolio construction. The benchmark is not designed to promote ESG characteristics. The Portfolio Manager may use their discretion when constructing the portfolio and is not tied to the benchmark in terms of equities or weightings. For share classes with "hedged" in their name, currency-hedged versions of the benchmark (if available) are used. The portfolio may deviate from the benchmark in terms of allocation and performance.

With respect to the sub-fund's investments the Portfolio Manager includes ESG analysis by means of the UBS Blended ESG Score (by number of issuer) for at least (i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries and (ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.

### **UBS (Lux) Key Selection SICAV – European Growth and Income (EUR)**

UBS Asset Management categorises this sub-fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective.

The actively managed sub-fund uses a composite benchmark (see below) as reference for portfolio construction, performance evaluation and risk management purposes. For share classes with "hedged" in their name, currency-hedged versions of the relevant benchmark (if available) are used. Although part of the relevant portfolio may be invested in the same instruments and applying the same weightings as the relevant benchmark, the Portfolio Manager is not constrained by the relevant benchmark in terms of choice of instruments. The Portfolio Manager may use other instruments in pursuit of the investment strategy. The performance of the sub-funds may therefore differ considerably from the relevant benchmark in periods of high market volatility.

Benchmark:

1/3 MSCI Europe Index (net div reinvested)

1/3 ICE Bofa EUR High Yield 3% Constrained Index

1/3 convertible bond indices comprised of 50% Refinitiv Eurozone Convertible Bond Index (EUR) and 50% Refinitiv Global Convertible Index – Global Vanilla (hedged in EUR)

The aim of this sub-fund is to put together a diversified portfolio consisting primarily of European equities, bonds and convertible bonds in such a way as to achieve long-term growth. Investing in high-yield bonds plays a central role in the investment strategy. Specifically, a maximum of 75% of the sub-fund's investments shall be in debt securities, receivables and convertible bonds with a low rating, i.e. a maximum rating of BBB (Standard & Poor's), a comparably low rating from another recognised rating agency or – insofar as a new issue is concerned that does not yet have an official rating or an issue that has no rating at all – a comparably low internal UBS rating. Investments with lower ratings may carry an above-average yield, but also a higher credit risk than investments in securities of first-class borrowers. The sub-fund may invest a maximum of 40% of its assets in all types of convertible, exchangeable and warrant-linked bonds, including synthetic convertible bonds (combination of derivatives and bonds), worldwide. In order to fulfil its investment objective and achieve broad diversification, the sub-fund may invest its total assets in UCITS. Investments in UCIs other than UCITS may not exceed 30% of the sub-fund's net assets. This method of investment and the associated expenses are described in the section "Investments in UCIs and UCITS". In order to fulfil its investment objective, the sub-fund may also invest in all other legally permissible instruments, including structured products, certificates and derivative financial instruments, which can be used for hedging purposes and/or for participating in the expected market developments. In order to fulfil the investment objectives and ensure efficient portfolio management, the Portfolio Manager of the sub-fund may, in particular, build up significant investment exposure as defined in the investment policy by investing in futures and forwards. To achieve its objectives, the sub-fund may also make investments on the credit derivatives market by investing in bond-secured credit default swaps (CDS) of individual issuers and in indices of the iTraxx and CDX index family containing the CDS of individual issuers for the purpose of buying and selling hedges, among other things. In principle, investments made by the sub-fund are carried out in EUR. If other currencies are used, then these shall be partially hedged against the currency of account (EUR).

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

#### **UBS (Lux) Key Selection SICAV – Global Allocation (USD)**

UBS Asset Management categorises this sub-fund as ESG integration fund which does not promote particular ESG characteristics or pursue a specific sustainability or impact objective.

The actively managed sub-fund uses the following composite benchmark as reference for risk management purposes:

UBS (Lux) Key Selection SICAV – Global Allocation (USD): 60% MSCI All Country World Index (net div reinvested), 40% FTSE World Government Bond Index (TR) (hedged in USD)

The aim of the sub-fund is to participate in the growth potential of the global financial markets in a broadly diversified manner.

To this end and within the framework of the investment policy described above, investments will be made globally in bonds, equities and to a lesser extent in commodities, alternative investments and real estate (e.g. in the form of real estate investment trusts). To achieve its investment objective, the sub-fund may also employ all other legally permissible instruments (including derivative financial instruments both exchange traded and OTC) that may be used for hedging or investment purposes. The associated risks are described in the section "Risks connected with the use of derivatives.". The sub-fund invests either directly or indirectly via existing UCIs and UCITS. Up to a maximum of 35% of investments may be made in high-yield instruments. These include high-yield bonds, high-yield investment funds and high-yield index derivatives. High-yield investments include investments with a rating from BB+ to C (Standard & Poor's), a similar rating from another recognised agency or – for new issues that do not yet have an official rating – a similar internal UBS rating; however, no more than 10% of its assets may be invested directly in bonds rated from CCC to C. The risks associated with such investments are described in the section "High-yield bonds".

The investments of the sub-fund are made in the currency deemed best suited for performance and are actively managed in respect of the currency of account. As the sub-fund invests in many foreign currencies due to its global orientation, the portfolio or parts thereof may be hedged against the sub-fund specific currency of account in order to reduce the associated foreign currency risks. The sub-fund may take net short or net long positions in individual currencies with the view of benefiting from market developments.

To achieve a broad investment diversification in terms of markets, sectors, issuers, ratings and companies, the sub-fund may invest its total assets in existing UCITS. Investments in UCIs other than UCITS may not exceed 30% of the sub-fund's net assets. This method of investment and the associated expenses are described in the section "Investments in UCIs and UCITS".

The sub-fund may, within the legally permissible framework, also invest in investments that focus on the real estate asset class (e.g. in the form of real estate investment trusts).

Up to 20% of the sub-fund's net assets may be invested in alternative investments in compliance with Article 41(1) of the Law of 2010, seeking to improve portfolio diversification and adding additional sources of return. Such investments within the legally permissible framework may include but are not limited to alternative UCITS, OTC derivatives on quantitative investment strategies, certificates and other derivatives linked to alternative investment strategies. Investments in REITs are permissible, if these fulfil the criteria of a transferable security. A closed-ended REIT whose units are listed on a regulated market meets the criteria of a security listed on a regulated market and therefore constitutes a permissible investment for the sub-fund under Luxembourg law. The associated risks are described in the sections "Risks connected with the use of alternative investment strategies" and "Risks connected with the use of certificates".

Up to 25% of fund assets may also be invested in the commodities asset class through participation in the performance of commodities indices. In doing so, it is ensured at all times that there will be no physical delivery to the sub-fund. The respective Portfolio Manager achieves this participation by, for example, entering into swap transactions on the above-mentioned indices. In this way, the respective sub-fund is party to the swap transaction and receives the positive performance of the total return (TR) commodities index, minus the cash rate used in the index. Typically, the notional value of the swap can be adjusted on a daily basis (e.g. as is the case with inflows from share subscriptions, outflows from share redemptions or with a rebalancing of the portfolio when adjusting the investment strategy). The counterparty risk resulting from a swap is the open profit or loss (not the notional value of the swap agreement). In order to minimise this risk and keep it below the legally permissible threshold at all times, open profits or losses are typically settled on a monthly basis

and any time the statutory threshold for counterparty risk is reached (by means of a reset). In addition, the sub-funds may invest in exchange-traded funds (ETFs) on commodities indices, which generally use the aforementioned swaps in order to obtain exposure to commodities. The respective Portfolio Manager may also purchase ETF securities on commodities indices. These are securities traded on the stock market, whose price is pegged to the performance of a commodities index, and which must comply with legally defined criteria. In accordance with the above-mentioned investment restrictions, the respective sub-fund may also invest in existing UCIs and UCITS focusing on commodities, on condition that they in turn invest exclusively by participating in commodities indices.

Portfolios with investments in commodities are generally more volatile than pure equity portfolios. Investors should therefore note that the sub-fund is suitable for investors who are prepared to accept moderate to high levels of volatility.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

Each sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

### **UBS (Lux) Key Selection SICAV – Global Equities (USD)**

UBS Asset Management categorises this sub-fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective. In line with the above-mentioned investment policy, the sub-fund invests at least two thirds of its assets in equities and equity rights worldwide. In so doing, the sub-fund may invest up to 25% of its assets in equities and equity rights of companies domiciled or chiefly active in emerging markets. Investors

should note that the sub-fund's exposure may also include Chinese A shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Chinese A shares are renminbi-denominated A shares of companies domiciled in mainland China; these are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange. The actively managed sub-fund uses the benchmark MSCI World (net div. reinvested) for performance measurement, risk management and portfolio construction purposes. The Portfolio Manager may use their discretion when constructing the portfolio and is not tied to the benchmark in terms of equities or weightings. For share classes with "hedged" in their name, currency-hedged versions of the benchmark (if available) are used. The portfolio may deviate from the benchmark in terms of allocation and performance.

Further information on **investing in emerging markets** can be found in the corresponding section of this sales prospectus. **In addition to the aforementioned, investors should read, be aware of and take into account the risks associated with investments traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Information on this topic can be found in the section entitled "General risk information".**

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation")).

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

**UBS (Lux) Key Selection SICAV - Global Equity Value Opportunity (USD)**

This sub-fund promotes environmental and/or social characteristics and complies with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). Further information related to environmental and/or social characteristics is available in Annex I to this document (SFDR RTS Art. 14(2)).

This actively managed sub-fund invests at least two thirds of its assets in equities and other equity interests of companies in developed markets worldwide on the basis of a value approach. Value investing typically favors investing in companies that are trading below intrinsic value including but not limited to tangible common valuation metrics that are at levels lower than the market average, such as price to book, price to cash flow and price to earnings ratios.

The sub-fund uses the benchmark MSCI World (net div. reinvested) for performance measurement, monitoring the ESG metrics, investment risk management and portfolio construction purposes. The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the sub-fund. The investment strategy and monitoring process ensure that the environmental or social characteristics of the product are taken into account. The Portfolio Manager may use discretion when constructing the portfolio and is not tied to the benchmark in terms of investment selection or weight. This means that the investment performance of the sub-fund may differ from the benchmark. As the sub-fund invests in multiple currencies due to its global orientation, the investment portfolio or parts of it may be subject to currency fluctuation risks.

The sub-fund may use derivative financial instruments in accordance with Point 1.1(g) for investment purposes.

**Currency of account:** USD

#### **UBS (Lux) Key Selection SICAV – Systematic Allocation Portfolio Equity (USD)**

The actively managed sub-fund uses the benchmark MSCI All Country World with Developed Markets hedged to USD (net div. reinvested) for performance evaluation and risk management purposes. For share classes with "hedged" in their name, currency-hedged versions of the relevant benchmark (if available) are used for performance evaluation purposes. The investments and performance of the sub-fund may differ from the benchmark. The performance of the sub-fund may therefore differ considerably from the benchmark during periods of high market volatility.

The aim of the sub-fund is to participate in the growth potential of the global equity markets, including emerging markets, in a broadly diversified manner. For this purpose, the sub-fund invests mainly in equities, bonds and money market instruments based on a model which allocates the assets to these asset classes. This model is based on a systematic approach, the aim of which is to identify market trends, align asset allocation to these trends and thereby reduce losses during significant downturns in the equity markets. The process takes into account various short and long-term indicators of company profits, market risks and equity market momentum. For this reason, the net equity exposure can vary greatly, up to a maximum of 175%. In phases where the sub-fund has a high equity exposure, the sub-fund may have short bond exposure of up to 60%. To build such short positions, the sub-fund uses total return swaps and/or exchange-traded derivative instruments such as bond futures in accordance with Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". Potential losses incurred from taking a short position on an asset may be unlimited, since the price of the asset may rise without limitation. Sharp, rapid rises in the price of these assets may lead to substantial losses. The sub-fund does not engage in physical short-selling. In phases when the model identifies the equity market trend as negative, net equity exposure may be fully reduced. If this happens, the investment in bonds and money market instruments and/or cash is proportionately higher.

The sub-fund may invest on an ancillary basis in real estate investment trusts ("REITs"). Investments in REITs are permissible, if these fulfil the criteria of (i) a UCITS or other UCI or (ii) a transferable security. A closed-ended REIT whose units are listed on a regulated market meets the criteria of a security listed on a regulated market and therefore constitutes a permissible investment for the sub-fund under Luxembourg law.

The sub-fund may invest either directly or indirectly (i.e. its total assets via UCITS). Investments in UCIs other than UCITS may not exceed 30% of the sub-fund's net assets. The indirect method of investment and the associated expenses are described in the section "Investments in UCIs and UCITS". To achieve its investment objective, the sub-fund may also employ all other legally permissible instruments (including derivative financial instruments) that may be used for hedging or investment purposes. The associated risks are described in the section "Risks connected with the use of derivatives". As the sub-fund invests in many foreign currencies due to its global orientation, the portfolio or parts thereof may be hedged against the reference currency of the sub-fund in order to reduce the associated foreign currency risks.

Investors should note that the sub-fund's exposure may also include Chinese A shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Chinese A shares are renminbi-denominated A shares of companies domiciled in mainland China; these are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange. This sub-fund may invest in both developed and emerging markets. The risks associated therewith are listed in the section entitled "General risk information". In addition to the aforementioned, investors should read, be aware of and take into account the risks associated with investments traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. Information on this topic can be found after the section "General risk information". For the reasons mentioned, this sub-fund is particularly suitable for risk-conscious investors.

The sub-fund does not promote any environmental, social or governance (ESG) characteristics and does not pursue any sustainability or impact objective. Sustainability risks are not systematically integrated on the basis of the investment strategy and the type of underlying investments. The sub-fund can invest in underlying ESG-integrated strategies. However, allocation to such investments does not allow this sub-fund to be classified by UBS Asset Management as an ESG-integrated fund. At present, sustainability risks are not expected to have a significant impact on the sub-fund's return.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation").

This sub-fund complies with Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). As such it does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (Art. 7(2) SFDR).

**UBS (Lux) Key Selection SICAV – Climate Diversified (EUR)**

UBS Asset Management categorises this sub-fund as a Sustainability Focus Fund. This sub-fund promotes environmental and social characteristics and complies with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). Further information related to environmental and/or social characteristics is available in Annex I to this document (SFDR RTS Art. 14(2)).

The performance of the sub-fund is not measured in comparison to an index. The Portfolio Manager may use discretion when constructing the portfolio and is not tied to any indices in terms of investment selection or weightings.

In order to fulfill its investment objective and achieve broad diversification, the sub-fund will globally invest up to 100% of its net assets in UCITS or UCIs (including ETFs). The sub-fund may also directly invest globally, in equities, bonds and money market instruments or derivative instruments on such assets.

Moreover, the sub-fund may, to the extent permitted by law, invest in any other suitable, legally permissible investment instruments. Fixed income investments may include investment in green bonds which finance projects which have a positive environmental impact. Up to a maximum of 20% of the sub-fund's assets may be invested in high-yield instruments including high-yield bonds, high-yield investment funds and high-yield index derivatives. High-yield investments include investments with a rating from BB+ to C (Standard & Poor's), a similar rating from another recognised agency or, for new issues that do not yet have an official rating, a similar internal UBS rating. The associated risks are described in the section "High-yield bonds".

The sub-fund may invest in both developed and emerging markets. The risks associated therewith are listed in the section entitled "General risk information". As the sub-fund invests in many foreign currencies due to its global orientation, the portfolio or parts thereof may be hedged against the reference currency of the sub-fund in order to reduce the associated foreign currency risks. However, it is not the intention of the sub fund to fully hedge all foreign currency exposure.

The sub-fund may invest on an ancillary basis in real estate investment trusts ("REITs"). Investments in REITs are permissible, if these fulfil the criteria of (i) a UCITS or other UCI or (ii) a transferable security. A closed-ended REIT whose units are listed on a regulated market meets the criteria of a security listed on a regulated market and therefore constitutes a permissible investment for the sub-fund under Luxembourg law.

The sub-fund may invest all of its assets in UCITS. Investments in UCI's other than UCITS shall not exceed 30% of the sub-fund's net assets. This method of investment and the associated expenses are described in the section "Investments in UCIs and UCITS". In order to fulfil the investment objectives and ensure efficient portfolio management, the sub-fund may invest in exchange-traded and OTC derivative instruments. The associated risks are described in the section "Risks associated with the use of derivatives". In the case of derivatives, the sustainability assessment refers to the underlying instrument(s).

#### **UBS (Lux) Key Selection SICAV – European Financial Debt (EUR)**

UBS Asset Management categorises this sub-fund as a Sustainability Focus Fund. This sub-fund promotes environmental and/or social characteristics and complies with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). Further information related to environmental and/or social characteristics is available in Annex I to this document (SFDR RTS Art. 14(2)).

The sub-fund uses the benchmark Bloomberg Euro Credit Corp Sub Financials 2% Cap (I28366EU) as reference for portfolio construction, performance evaluation, sustainability profile comparison and risk management purposes. The benchmark is not designed to promote ESG characteristics. For share classes with "hedged" in their name, currency-hedged versions of the benchmark (if available) are used. The investment universe of the sub-fund is defined by selecting the debt instruments contained in the benchmark that are issued predominantly by companies with a strong ESG profile based on UBS internal research. The investment universe of the sub-fund is supplemented by debt instruments and issuers that are not contained in the benchmark, but that appear to be suitable from an ESG perspective.

In line with the general investment policy, the actively managed sub-fund invests at least two thirds of its assets in a diversified portfolio of debt instruments. Most of these debt instruments are comprised of subordinated debt instruments including hybrid bonds (regulatory capital securities issued by financial institutions, which have no fixed maturity date and may remain outstanding beyond their first maturity date) as well as additional core capital securities (additional or restricted Tier 1, Tier 2 and high grade corporate perpetuities) of issuers from the financial sector that are based in or predominantly operate in Europe.

Although the sub-fund aims to invest across the full spectrum of credit ratings, the average credit rating for the portfolio will be at least BBB- (Standard & Poor's) or a similar rating of another recognised agency. For new issues that do not yet have an official rating, a comparable internal UBS rating will be used. Investments in bonds with a rating below CCC or similar may not exceed 10% of the sub-fund's assets. Investments with lower ratings may carry an above-average yield, but also a higher credit risk than investments in securities of first-class borrowers.

The sub-fund may also invest up to 50% of its assets in debt instruments and receivables denominated in a currency other than EUR. The resulting currency risk will be largely hedged against the EUR.

Up to 10% of its assets may be invested in convertible, exchangeable and warrant-linked bonds as well as convertible debentures. Furthermore, the sub-fund may invest up to 10% of its assets in equities, equity rights and warrants as well as equities, other equity-like securities and dividend-right certificates acquired through the exercise of conversion and subscription rights or options, in addition to warrants remaining after the separate sale of ex-warrant bonds and any equities acquired with these warrants. The equities acquired by exercise of rights or through subscription must be sold no later than 12 months after they were acquired.

The sub-fund may invest a total of up to 20% of its net assets in ABS, MBS, CMBS and CDOs/CLOs. The associated risks are described in the section "Risks associated with the use of ABS/MBS" or "Risks associated with the use of CDOs/CLOs".

To achieve the investment objective, the sub-fund may, within the legal framework, buy or sell futures, swaps (including IRS/NDIRS, TRS, CDS, index CDS and NDS), forwards/non-deliverable forwards, options and other suitable, legally permitted investment instruments.

As part of efficient asset management, the sub-fund may invest in all the derivative financial instruments listed in the section "Special techniques and instruments with securities and money market instruments as underlying assets" subject to the provisions and guidelines set forth therein. Permitted underlyings include, in particular, the instruments specified under Point 1.1(g) ("Permitted investments of the Fund").

The sub-fund may also invest up to 40% of its net assets in contingent convertible bonds (CoCos). The fund will not invest in securities issued by the entities of UBS Group.

The associated risks are described in the section "Risks associated with the use of CoCos".

Furthermore, the sub-fund may invest up to 10% of its assets in emerging market bonds. The risks associated with investments in emerging markets are described in the section "General risk information". For the reasons mentioned, the sub-fund is suitable for investors who are aware of these risks.

## **General risk information:**

### **Investing in emerging markets**

The term "emerging markets" is used to describe markets included in the International Finance Corporation Composite Index and/or the MSCI Emerging Markets Index and other countries that are at a comparable level of economic development, or in which there are new equity markets.

Emerging markets are at an early stage of development and suffer from higher risks of expropriation and nationalisation, as well as social, political and economic instability.

The following is an overview of the general risks entailed in emerging markets:

- ▶ Counterfeit securities – due to inadequate supervisory structures, it is possible that securities purchased by the sub-fund could be counterfeit. It is therefore possible to suffer losses.
- ▶ Illiquidity – the buying and selling of securities can be costlier, more time-consuming and generally more difficult than on more developed markets. Difficulties with liquidity can also increase price volatility. Many emerging markets are small, have low trading volumes and suffer from low liquidity and high price volatility.
- ▶ Volatility – investments in emerging markets may post more volatile performances than those in developed markets.
- ▶ Currency fluctuations – compared to the sub-fund's currency of account, the currencies of countries in which the sub-fund invests may be subject to substantial fluctuations after the sub-fund has invested in these currencies. Such fluctuations may have a significant impact on the sub-fund's income. It is not possible to apply currency risk hedging techniques to all currencies in emerging market countries.
- ▶ Currency export restrictions – it cannot be ruled out that emerging markets may limit or temporarily suspend the export of currencies. Consequently, it would not be possible for the sub-fund to draw any sales proceeds without delays. To minimise the possible impact on redemption applications, the sub-fund will invest in a large number of markets.
- ▶ Settlement and custody risks – the settlement and custody systems in emerging market countries are less well developed than those in developed markets. Standards are not as high and the supervisory authorities not as experienced. Consequently, settlement may be delayed, thereby posing disadvantages for liquidity and securities.
- ▶ Restrictions on buying and selling – in some cases, emerging markets can place restrictions on the purchase of securities by foreign investors. Some equities are thus not available to the sub-fund because the maximum number allowed to be held by foreign shareholders has been exceeded. In addition, the participation of foreign investors in the net income, capital and distributions may be subject to restrictions or government approval. Emerging markets may also limit the sale of securities by foreign investors. Should the sub-fund be barred due to such a restriction from selling its securities in an emerging market, it will try to obtain an exceptional approval from the relevant authorities or to counter the negative impact of this restriction through its investments in other markets. The sub-fund will only invest in markets in which the restrictions are acceptable. However, it is not possible to prevent additional restrictions from being imposed.
- ▶ Accounting – the accounting, auditing and reporting standards, methods, practices and disclosures required of companies in emerging markets differ from those in developed markets in terms of content, quality and the deadlines for providing information to investors. It may thus be difficult to correctly evaluate the investment options.

Depending on the investment weighting in emerging markets in the individual sub-funds, the individual sub-funds are suitable for risk-conscious investors. Regarding this, please refer to the section "Profile of the typical investor" in this sales prospectus.

### **ESG Risks**

"Sustainability risk" means an environmental, social or governance event or condition which could have a material or potentially substantial adverse effect on the value of the investment. If a sustainability risk associated with an investment materialises, it could lead to the loss in value of an investment.

### **Specific risks of investing in the People's Republic of China**

For the purposes of this section, the term "sub-fund" refers to any relevant sub-fund that invests in A shares and/or Chinese onshore bonds through the Portfolio Manager's QFI status, CIBM, Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect ("Stock Connect"), Bond Connect, UCITS or other UCIs exposed to Chinese A shares/Chinese onshore bonds, and/or entry products such as ETFs.

### **a) Market risks in China**

Investments in the securities markets in the PRC are subject to the general risks of investing in emerging markets and the specific risks of investing in the markets in the PRC. Many of the economic reforms implemented in the PRC are unprecedented or experimental and are subject to adjustment and modification, and such adjustment and modification may not always have a positive effect on foreign investment in joint stock companies in the PRC or in listed securities such as A shares.

The profitability of the investments of a sub-fund could be adversely affected by a worsening of general economic conditions in the PRC or on the global markets. Factors such as government policy, fiscal policy, interest rates, inflation, investor sentiment, the availability and cost of credit in the PRC, the liquidity of the financial markets in the PRC and the level and volatility of share prices could significantly affect the value of a sub-fund's underlying investments and thus the share price.

The choice of A shares and RMB-denominated debt instruments currently available to the Portfolio Manager may be limited relative to the choice available in other markets. There may also be a lower level of liquidity in the relevant markets in the PRC, which are smaller, in terms of both the overall market value and the number of securities available for investment, than other markets. This could potentially lead to strong price volatility.

The national regulatory and legal framework for capital markets and joint stock companies in the PRC is still developing relative to that of industrialised countries. However, the overall effects of such reforms on the A share market remain to be seen. In addition, there is a relatively low level of regulation and enforcement activity in these securities markets. Settlement of transactions may be subject to delay and administrative uncertainties. Furthermore, the regulations are under development and may change without notice, which may further delay redemptions or restrict liquidity. The Chinese securities markets and activities of investors, brokers and other market participants may not be regulated and monitored to the same extent as in more-developed markets.

Companies in the PRC are required to follow PRC accounting standards and practices, which, to a certain extent, correspond to international accounting standards. However, there may be significant differences between financial statements prepared by accountants following PRC accounting standards and practices and those prepared in accordance with international accounting standards.

Both the Shanghai and Shenzhen securities markets are in the process of development and are subject to change. This may lead to volatile trading, difficulties with the settlement and recording of transactions and problems interpreting and applying the relevant regulations. The government of the PRC has developed a comprehensive regime of commercial laws and considerable progress has been made in the promulgation of laws and regulations dealing with economic matters such as corporate organisation and governance, foreign investment, commerce, taxation and trade. Because these laws, regulations and legal requirements are relatively recent, there are some uncertainties regarding their interpretation and enforcement. In addition, the laws for investor protection in the PRC are still under development and may be less sophisticated than those in industrialised countries.

Investments in the PRC will be very sensitive to any significant changes in social, economic or other policy in the PRC. Such sensitivity may, for the reasons specified above, adversely affect the capital growth and thus the performance of these investments.

State control over currency conversion in the PRC and future movements in exchange rates may adversely affect the operations and financial results of the companies in which a sub-fund invests.

In light of the above-mentioned factors, the price of A shares may fall significantly in certain circumstances.

### **b) QFI risk**

#### ***QFI Status***

Under the provisions in force in the PRC, foreign investors can invest in the A share market and other QFI eligible securities through institutions that have obtained qualified investor status in the PRC such as QFI status. The current QFI regulations impose strict restrictions (such as investment guidelines) on A share investments.

The sub-funds themselves are not QFIs, but may invest directly in A shares and other QFI eligible securities by means of the QFI status of the Portfolio Manager or Investment Advisor. Potential investors should note that there is no guarantee that any of the sub-funds will continue to benefit from the QFI status of the Portfolio Manager or Investment Advisor, nor that it will be made exclusively available to any of the sub-funds.

No guarantee can be given that redemption orders can be processed in a timely manner in the event of adverse changes in relevant laws or regulations, including changes in QFI repatriation restrictions. Such restrictions may result in the suspension of the sub-fund trading activities.

Should the Portfolio Manager or Investment Advisor lose its QFI status, cease trading or be removed, the sub-fund may not be able to invest in A shares or other QFI eligible securities through the QFI status of the Portfolio Manager or Investment Advisor, and the sub-fund may be required to sell its positions, which would likely have an adverse effect on the sub-fund.

#### ***QFI regulations***

The QFI regulations that govern investments by QFIs in the PRC as well as repatriation and currency conversion are relatively new. The application and interpretation of the QFI regulations are therefore relatively untested and there is uncertainty about how they will be applied. The China Securities Regulatory Commission ("CSRC") and the State Administration of Foreign Exchange ("SAFE") in the PRC have been given broad discretionary powers in relation to the QFI regulations and there is no precedent or certainty as to how these discretions might be exercised now or in the future. At this early stage of development, the QFI regulations may be subject to further revisions in the future. It is uncertain whether such revisions will prejudice the QFIs, or whether the QFI status of the Portfolio Manager or Investment Advisor, which is subject to review from time to time by CSRC and SAFE, may be revoked entirely.

### **PRC Brokers**

In its capacity as QFI, the relevant Portfolio Manager or Investment Advisor will also select brokers ("PRC Brokers") to execute transactions for the sub-fund in the markets in the PRC. The sub-fund may have difficulty obtaining best execution of transactions involving QFI eligible securities due to restrictions/limits under the applicable QFI regulations or operational constraints such as a restriction/limit on the number of brokers that the Portfolio Manager or Investment Advisor may appoint in its capacity as QFI. If a PRC Broker offers the sub-fund standards of execution that the Portfolio Manager or Investment Advisor is satisfied are best practice in the marketplace in the PRC, the Portfolio Manager or Investment Advisor may determine that transactions consistently be executed with that PRC Broker (even if it is an affiliate), regardless of the fact that they might not be executed at the best price and the fact that there is no accountability towards the sub-fund for the difference between the price at which the sub-fund executes transactions and any other price that might have been available in the market at the relevant time.

### **Custody**

The Depositary of the sub-fund holds the sub-fund's assets in custody. The QFI acting on behalf of the sub-fund and the Depositary will appoint a sub-custodian for the sub-fund (the "PRC Sub-Custodian"), and the PRC Sub-Custodian will hold in custody the assets of the sub-fund invested in the PRC through the QFI status of the Portfolio Manager or Investment Advisor. Any QFI eligible securities acquired by the sub-fund through the QFI status of the Portfolio Manager or Investment Advisor will be kept by the PRC Sub-Custodian in separate securities accounts and will be registered for the sole benefit and use of the sub-fund or the Company (for account of the sub-fund) subject to the applicable laws. The assets will be segregated by the PRC Sub-Custodian such that the assets of the sub-fund do not form part of the assets of the Portfolio Manager or Investment Advisor in its capacity as QFI, the PRC Sub-Custodian, or the PRC Brokers. However, subject to the investment regulations, the Portfolio Manager or Investment Advisor (in its capacity as QFI) could be the party entitled to the securities in such securities accounts (even though this entitlement does not constitute an ownership interest or preclude the Portfolio Manager or Investment Advisor from purchasing the securities for the sub-fund), meaning that such securities may be vulnerable to a claim by a liquidator of the Portfolio Manager or Investment Advisor and may not be as well protected as if they were registered solely in the name of the sub-fund. In particular, there is a risk that creditors of the Portfolio Manager or Investment Advisor may incorrectly assume that the sub-fund's assets belong to the Portfolio Manager or Investment Advisor and such creditors could seek to gain control of the sub-fund's assets to meet the liabilities of the Portfolio Manager or Investment Advisor to such creditors.

Investors should note that cash deposited in the cash account of the sub-fund with the PRC Sub-Custodian may not be segregated but may be a liability of the PRC Sub-Custodian in respect of the sub-fund as a depositor. Such cash will be pooled with cash belonging to other clients of the PRC Sub-Custodian. In the event of bankruptcy or liquidation of the PRC Sub-Custodian, the sub-fund may not have any ownership rights to the cash deposited in such cash account, and the sub-fund could become an unsecured creditor, ranking pari passu with all other unsecured creditors of the PRC Sub-Custodian. The sub-fund may have difficulties and/or encounter delays recovering such debt, or might not be able to recover the debt in full or at all, in which case the sub-fund would suffer losses.

### **Redemption restrictions**

Transfers and repatriations for the account of the sub-fund may be made on a daily basis by the PRC Sub-Custodian through the QFI status of the Portfolio Manager or Investment Advisor to meet the net subscriptions and redemptions of shares of the sub-fund/Company (as the case may be).

Please note that there is no certainty that there will be no regulatory restrictions in the PRC on the repatriation of monies by the sub-fund in future. The investment regulations and/or the approach adopted by SAFE in relation to the repatriation of monies may change from time to time.

### **Clearing reserve fund risk**

Under the QFI regulations, the PRC Sub-Custodian is required to deposit a minimum clearing reserve fund, the percentage amount of which is determined from time to time by China Securities Depository and Clearing Corporation Limited (Shanghai, Shenzhen and Beijing branches) (the "CSDCC"). The PRC Sub-Custodian will deposit a portion of the assets of the sub-fund as part of the minimum clearing reserve fund. The minimum clearing reserve percentage is determined by the CSDCC from time to time and will be deposited by the PRC Sub-Custodian into the minimum clearing reserve fund. If the value of securities in the PRC increases, the sub-fund's assets held in the clearing reserve fund could have a negative effect on the performance of the sub-fund. On the other hand, the performance of the sub-fund can be better than it otherwise would have been during periods when the value of securities falls in the PRC.

### **c) Risks relating to securities trading in mainland China via Stock Connect**

If sub-fund investments in mainland China are traded via Stock Connect, there are additional risk factors in relation to these transactions. Shareholders should note in particular that Stock Connect is a new trading programme. There is currently no empirical data. Furthermore, the corresponding provisions could change in future. Stock Connect is subject to quota limits that could restrict the sub-fund's ability to perform transactions in a timely manner via Stock Connect. This could impair the sub-fund's ability to effectively implement its investment strategy. The scope of Stock Connect initially encompasses all securities included on the SSE 180 Index and SSE 380 Index, as well as all Chinese A shares listed on the Shanghai Stock Exchange ("SSE"). It also extends to all securities included in the SZSE Component Index and the SZSE Small/Mid Cap Innovation Index with a market capitalisation of at least RMB 6 billion, as well as to all Chinese A shares listed on the Shenzhen Stock Exchange ("SZSE"). Shareholders should also note that under the applicable regulations, a security can be removed from the Stock Connect programme. This could have an adverse effect on the sub-fund's ability to achieve its investment objective, for example if the Portfolio Manager wishes to acquire a security that has been removed from the Stock Connect programme.

### **Beneficial owner of SSE shares/SZSE shares**

Stock Connect consists of the northbound link, through which investors in Hong Kong and abroad – such as the sub-fund – may acquire and hold Chinese A shares listed on the SSE (“**SSE shares**”) and/or SZSE (“**SZSE shares**”), and the southbound link, through which investors in mainland China may acquire and hold shares listed on the Hong Kong Stock Exchange (“**SEHK**”). The sub-fund trades in SSE and/or SZSE shares through its broker, which is associated with the Company’s sub-depository and admitted to the SEHK. After settlement by brokers or depositaries (the clearing agents), these SSE shares or SZSE shares shall be held in accounts in the Hong Kong Central Clearing and Settlement System (“**CCASS**”), maintained by Hong Kong Securities and Clearing Company Limited (“**HKSCC**”), the central securities depository in Hong Kong and the nominee. HKSCC in turn holds the SSE shares and/or SZSE shares of all participants on a “Single Nominee Omnibus Securities Account”, which is registered in its name with ChinaClear, the central securities depository in mainland China.

Since HKSCC is only the nominee and not the beneficial owner of the SSE shares and/or SZSE shares, if HKSCC were to be wound down in Hong Kong, the SSE shares and/or SZSE shares would not be deemed part of HKSCC’s general assets available for distribution to creditors, even under PRC law. However, HKSCC is not required to take legal measures or initiate legal proceedings to enforce rights on behalf of investors in SSE shares and/or SZSE shares in mainland China. Foreign investors – such as the sub-fund in question – who invest through Stock Connect and hold SSE shares and/or SZSE shares via HKSCC are the beneficial owners of the assets and are therefore entitled to exercise their rights exclusively through the nominee.

### **The Investor Compensation Fund**

Investments via Stock Connect are carried out using brokers and are subject to the risk of these brokers defaulting on the payment of their obligations. For payment defaults arising on or after 1 January 2020, the Hong Kong Investor Compensation Fund covers investor losses in relation to securities traded on a stock market operated by the SSE or SZSE and for which purchase or sale orders may be transmitted through the Northbound Link of a Stock Connect agreement. However, as the relevant sub-funds execute Northbound trades through securities brokers in Hong Kong but not through securities brokers in mainland China, they are not protected by the China Securities Investor Protection Fund in mainland China.

### **Risk of quotas being used up**

Once the daily quotas for northbound and southbound transactions have been reached, acceptance of corresponding purchase orders will be immediately suspended and no further purchase orders will be accepted for the rest of the day. Purchase orders that have already been accepted are not affected in the event the daily quota is used up. Sell orders will continue to be accepted.

### **Risk of payment default at ChinaClear**

ChinaClear has set up a risk management system, and has taken measures that have been approved by the China Securities Regulatory Commission (“**CSRC**”) and are subject to its supervision. Under the general CCASS rules, should ChinaClear (as the central counterparty) not meet its obligations, HKSCC shall attempt, where applicable, in good faith to claim the outstanding Stock Connect securities and ChinaClear funds via the available legal channels available and during the winding up of ChinaClear.

HKSCC shall, in turn, distribute the Stock Connect securities and/or funds that can be reclaimed pro rata to qualified participants in accordance with the regulations of the competent Stock Connect authority. Investors should be aware of these regulations and the potential risk of a payment default by ChinaClear before investing in the sub-fund and its participation in northbound trading.

### **Risk of HKSCC payment default**

Should HKSCC be delayed in fulfilling its obligations, or even fail to do so altogether, this could lead to settlement default or the loss of Stock Connect securities and/or associated funds. The sub-fund and its investors could incur losses as a result. Neither the sub-fund nor the Portfolio Manager is responsible or liable for such losses.

### **Ownership of Stock Connect securities**

Stock Connect securities are unsecuritised and held by HKSCC on behalf of their holders. The physical deposit and withdrawal of Stock Connect securities are not available to the sub-fund under northbound trading.

The ownership and ownership rights of the sub-fund and entitlements to Stock Connect securities (regardless of the legal nature thereof, in equity jurisprudence or otherwise) are subject to the applicable requirements, including the laws on the disclosure of interests and the restrictions on foreign share ownership. It is unclear whether the Chinese courts recognise investors and would grant them standing to initiate legal proceedings against Chinese companies in the event of disputes. This is a complex legal area and investors should seek independent professional advice.

### **d) Risks relating to suspension of trading on Chinese stock markets**

Securities exchanges in the PRC typically have the right to suspend or limit trading in any security traded on the relevant exchange. In particular, trading band limits for A shares are imposed by the stock exchanges, meaning that trading in A shares on the relevant stock exchange may be suspended if the trading price of the security fluctuates beyond the trading band limit. Such a suspension would make it impossible to trade in the existing positions and would potentially expose the sub-fund to losses. Further, when the suspension is subsequently lifted, it may not be possible for the sub-fund to liquidate positions at a favourable price, which could also entail losses for the sub-fund.

### **e) Investment restrictions**

Since, under the provisions in force in the PRC, there are limits on the total amount of shares in any one company listed in the PRC that may be held by all underlying foreign investors and/or a single foreign investor, the capacity of the sub-fund to make investments in A shares will be affected by the activities of all underlying foreign investors. It will be difficult in practice for the

Portfolio Manager in its capacity as QFI to monitor the investments of the underlying foreign investors, since an investor may make investment through various QFIs or other permitted channels.

**f) Disclosure of interests and short-swing profit rule**

Under the disclosure of interest provisions in force in the PRC, the sub-fund may be deemed to be acting in concert with other funds or sub-funds managed within the Portfolio Manager's group or a substantial shareholder of the Portfolio Manager's group, and therefore may be subject to the risk that the sub-fund's holdings may have to be reported along with the holdings of such other funds or sub-funds mentioned above, if the aggregate holdings reach the reporting threshold under PRC law (currently 5% of the total number of issued shares of the relevant company listed in the PRC). This may disclose the sub-fund's holdings to the public with an adverse impact on the performance of the sub-fund.

In addition, subject to the interpretation of the courts and supervisory authorities in the PRC, the short-swing profit rule applicable in the PRC may apply to the sub-fund's investments with the result that where the holdings of the sub-fund (possibly, along with the holdings of other investors deemed to form an investor group together with the sub-fund) exceed 5% of the total number of issued shares of a company listed in the PRC, the sub-fund may not reduce its holdings in that company within six months of the last purchase of shares of that company. If the sub-fund violates this rule and sells any of its shareholding in that company in the six-month period, it may be required by the listed company to return to the listed company any profits made on the trade. Moreover, under PRC civil law, the sub-fund's assets may be frozen up to the amount of the claims made by that company. These risks may greatly impair the performance of the sub-fund.

**g) RMB currency risk**

The risk associated with state currency control in the PRC and future movements in exchange rates may adversely affect the operations and financial results of companies in which the sub-fund invests. RMB is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. If such policies or restrictions change in the future, the position of the sub-fund or its investors may be adversely affected.

No guarantee can be given that conversion will not become more difficult or impossible, or that the RMB will not be subject to devaluation, revaluation or short supply. There is no guarantee that RMB will not depreciate.

**h) Fixed-income securities risks**

Investment in the Chinese debt instruments market may be subject to higher volatility and stronger price fluctuations than investment in debt instruments in more-developed markets.

RMB-denominated debt instruments can be issued by a variety of issuers inside or outside the PRC. These issuers may have different risk profiles and their rating may vary. RMB-denominated debt instruments are generally unsecured debt instruments not backed by any collateral. As an unsecured creditor, the sub-fund may be fully exposed to the credit/insolvency risk of its counterparties.

Changes in the macroeconomic policies of the PRC (i.e. monetary policy and fiscal policy) will have an influence over capital markets and affect the pricing of the debt instruments and, thus, the returns of the sub-fund. The value of RMB-denominated debt instruments held by the sub-fund will run counter to changes in interest rates and such changes may affect the value of the sub-fund's assets accordingly.

RMB-denominated debt instruments are subject to the risk of mispricing or improper valuation, i.e. operational risk that the debt instruments are incorrectly priced. Valuations are based primarily on the valuations from independent third-party sources, provided prices are available; therefore, there may be some uncertainty surrounding valuations at times, and a sound calculation and independent pricing information may not be available at all times.

Many debt instruments in the PRC do not have a rating assigned by an international credit rating agency. The credit rating system in the PRC is still at an early stage of development; there is no standard credit rating methodology for valuing assets, and the same rating scale may have different meanings in different agencies. The assigned ratings may not reflect the actual financial strength of the valued asset.

A worsening financial situation or the downgrade of an issuer's credit rating may lead to higher volatility and adversely affect the price of the corresponding debt instruments denominated in RMB. In turn, this can have a negative effect on the liquidity, meaning that it becomes harder to sell these debt instruments.

Under the provisions in force in the PRC and according to the investment objective of the sub-fund, the assets of the sub-fund may be invested in unrated or low-rated debt instruments, which are subject to greater risk of loss of principal and interest income than higher rated debt instruments.

**i) Risk of investing in other undertakings with exposure to PRC securities**

The sub-fund will be subject to the same types of risks as the other undertakings in proportion to its holdings of those specific underlying funds. Different underlying funds in which the sub-fund invests have different underlying investments. The risks associated with such underlying investments, in particular with exposure to PRC securities, would be similar to the risks as set out above.

**j) Risk information on investments traded on the CIBM**

The bond market in mainland China comprises the interbank bond market and the listed bond market. The China Interbank Bond Market ("CIBM") was established in 1997 as an over-the-counter ("OTC") market, and it accounts for 90% of all bond trades in China. Primarily, government bonds, corporate bonds, bonds issued by state-owned banks and medium term debt instruments are traded on this market.

The CIBM is undergoing a phase of development and internationalisation. Market volatility and a potential lack of liquidity due to low trade volumes can lead to dramatic fluctuations in certain debt securities traded on this market. Sub-funds that invest

in this market are therefore exposed to liquidity and volatility risk, and may suffer losses from mainland Chinese bond trades. In particular, the bid and offer spread of mainland Chinese bonds may be wide, and selling such investments may thus generate considerable trading and realisation costs for the sub-fund in question. The sub-fund may also incur risks in connection with settlement processes and counterparty default. It is possible that the sub-fund may enter into transactions with counterparties who are then unable to fulfil their obligations by delivering or paying for the appropriate securities.

The CIBM is also subject to regulatory risk.

#### **k) risk information on investments traded on the CIBM via the Northbound Trading Link through Bond Connect**

Bond Connect is a new scheme that was introduced in July 2017 to enable mutual bond market access between Hong Kong and mainland China ("Bond Connect"). It was set up by the China Foreign Exchange Trade System & National Interbank Funding Centre ("CFETS"), the China Central Depository & Clearing Co. Ltd ("CCDC"), the Shanghai Clearing House ("SCH"), the Hong Kong Stock Exchange ("HKEx") and the Central Moneymarkets Unit ("CMU"). In accordance with the applicable regulations in mainland China, eligible foreign investors may invest in bonds on the CIBM via the Bond Connect Northbound Trading Link. No investment quotas are imposed under the Northbound Trading Link. As part of the Northbound Trading Link, eligible foreign investors must appoint the CFETS or another institution recognised by the People's Bank of China ("PBC") as registrar; this will enable them to register with the PBC.

The Northbound Trading Link uses trading platforms outside mainland China that are connected to the CFETS, allowing eligible foreign investors to submit their trade orders for bonds on the CIBM through Bond Connect. The HKEx and the CFETS work with electronic offshore bond trading platforms in order to provide electronic trading services and platforms that enable direct trade between eligible foreign investors and eligible onshore traders in mainland China via the CFETS.

Eligible foreign investors can submit trade orders for bonds on the CIBM via the Northbound Trading Link, which is made available through electronic offshore bond trading platforms such as Tradeweb and Bloomberg. These platforms then submit investors' requests for quotes to the CFETS. The CFETS sends the requests for quotes to a range of eligible onshore traders (including market makers and other brokers in the market making business) in mainland China. The eligible onshore traders respond to the requests for quotes via the CFETS, which then sends the responses to the eligible foreign investors through the same electronic offshore bond trading platforms. If an eligible foreign investor accepts the offer, the trade is closed on the CFETS.

Meanwhile, the settlement and custody of bonds traded on the CIBM through Bond Connect is carried out via the settlement and custody link between the CMU as the offshore depositary and the CCDC and SCH as the onshore depositaries and clearing houses in mainland China. Under the settlement link, the CCDC or the SCH settles confirmed trades onshore on a gross basis, while the CMU processes the bond settlement instructions from CMU members on behalf of the eligible foreign investors and in accordance with the applicable rules.

In accordance with the applicable regulations in mainland China, the CMU, as the offshore depositary recognised by the Hong Kong Monetary Authority ("HKMA"), opens nominee accounts with the onshore depositary recognised by the PBC (i.e. the CCDC and Hong Kong Interbank Clearing Limited). All bonds held by eligible foreign investors are registered in the name of the CMU, which will be the nominee holder of the bonds.

##### Segregation of assets

Under Bond Connect, assets are maintained by the onshore and offshore central securities depositaries ("CSD") at three rigidly divided levels. Investors who trade through Bond Connect are required to hold their bonds in a separate account maintained by the offshore depositary in the name of the end investor. Bonds acquired through Bond Connect are held in onshore accounts at the CCDC in the name of the HKMA. Ultimately, the investors are the beneficial owners of the bonds by means of a segregated account structure with the CMU in Hong Kong.

##### Clearing and settlement risk

The CMU and the CCDC have established a clearing network, where each is a clearing member of the other. This helps facilitate the clearing and settlement of cross-border transactions. In cross-border transactions initiated in one of the markets, the clearing house in that market clears/settles the transaction with their own clearing members; at the same time, it undertakes to fulfil the clearing and settlement obligations of its clearing members towards the counterparty's clearing house. As the national central counterparty for the PRC's securities market, the CCDC operates a comprehensive bond clearing, settlement and custody network. The CCDC has established a risk management framework and measures that have been approved by the PBC and that are subject to monitoring. The risk of default by the CCDC is considered extremely low. Under its agreements with the clearing members, in the unlikely event that the CCDC defaults, the CMU's obligations in relation to Bond Connect bonds are limited to helping the clearing members assert their claims against the CCDC. The CMU will make every effort to recover the outstanding bonds and sums from the CCDC in good faith via the available legal channels, or by liquidating the CCDC. In this event, the relevant sub-fund may experience delays in recovering these sums. Under certain circumstances, it may be unable to fully recover its losses from the CCDC.

##### Regulatory risk

Bond Connect is a new concept. The current provisions have therefore not been tested yet and there is no certainty as to how they will be implemented in practice. In addition, the current regulations may be subject to changes (that may apply retroactively), and there is no guarantee that the Bond Connect scheme will be permanent. Over time, the supervisory authorities in the PRC and Hong Kong may introduce new regulations in connection with business activities, the legal enforcement of claims and cross-border transactions under Bond Connect. Such changes may have a negative effect on the relevant sub-fund. Macroeconomic policy reforms and changes (e.g. to monetary and fiscal policy) may affect interest rates. This can have an adverse impact on the prices and returns of bonds held in the portfolio.

#### Foreign exchange risk

Sub-funds whose base currency is not the RMB may also be exposed to currency risk, as investments in bonds traded on the CIBM through Bond Connect must be converted into RMB. These currency conversions may also incur conversion costs for the relevant sub-fund. The exchange rate may be subject to fluctuation; if the RMB is devalued, the relevant sub-fund may experience losses when converting their gains from the sale of CIBM bonds into their base currency. Further information on Bond Connect can be found online at <http://www.chinabondconnect.com/en/index.htm>.

#### **Investments in UCIs and UCITS**

Sub-funds, which have invested at least half of their assets in existing UCIs and UCITS in accordance with their special investment policies, are structured as a fund of funds.

The general advantage of a fund of funds over funds investing directly is the greater level of diversification (or risk spreading). In a fund of funds, portfolio diversification extends not only to its own investments because the investment objects (target funds) themselves are also governed by the stringent principles of risk diversification. A fund of funds enables the investor to invest in a product that spreads its risks on two levels and thereby reduces the risks inherent in the individual investment objects, with the investment policy of the UCITS and UCIs in which most investments are made being required to accord as far as possible with the Company's investment policy. The Company additionally permits investment in a single product, by which means the investor gains an indirect investment in numerous securities.

Certain fees and charges may be incurred more than once when investing in existing funds (such as Depositary and central UCI Administrator fees, management/advisory fees and issuing/redemption charges of the UCI and/or UCITS in which the investment is made). Such commission payments and expenses are charged at the level of the target fund as well as of the fund of funds.

The sub-funds may also invest in UCIs and/or UCITS managed by UBS Asset Management (Europe) S.A. or by a company linked to UBS Asset Management (Europe) S.A. through common management or control, or through a substantial direct or indirect holding. In this case, no issuing or redemption charge will be charged on subscription to or redemption of these units. The double charging of commission and expenses referred to above does, however, remain.

The section titled "Expenses paid by the Company" presents the general costs and expenses associated with investing in existing funds.

#### **Risks connected with the use of ABS/MBS**

Investors are advised that investing in ABS, MBS and CMBS may involve higher complexity and lower transparency. These products involve exposure in a pool of receivables (for ABS, these receivables may be car or student loans or other receivables based on credit card agreements; for MBS or CMBS, they are mortgages), with the receivables issued by an institution founded exclusively for this purpose and which is independent from the lender of the receivables in the pool from a legal, bookkeeping and economic perspective. The payment flows from the underlying receivables (including interest, repayment of receivables and any unscheduled repayments) are passed on to the investors in the products. These products include various tranches subject to a hierarchy. This structure determines the order of repayments and any unscheduled special repayments within the tranches. If interest rates rise or fall, investors are subject to a higher or lower repayment or reinvestment risk if the unscheduled special repayments for the underlying receivables increase or decrease due to better or worse refinancing options for the debtors.

The average term of sub-fund investments in ABS/MBS often differs from the maturity date set for the bonds. The average term is generally shorter than the final maturity date and depends on the dates of repayment flows, which are normally based on the structure of the security and the priority of cash inflows and/or borrower's behaviour in respect of refinancing, repayment and default.

ABS/MBS originate from different countries with differing legal structures. ABS/MBS may be investment grade, non-investment grade or have no rating.

#### **Risks connected with the use of CDOs/CLOs**

Investors are advised that some sub-funds may invest in certain kinds of asset-backed securities known as collateralised debt obligations (**CDOs**) or, where the underlying assets are loans, collateralised loan obligations (**CLOs**). CLOs and CDOs are typically structured in several tranches with different priorities, with the most senior tranche being the first served from principal and interest payments from the underlying asset pool, then the next most senior, and so forth down to the most junior tranche (the equity tranche), which is the last served from principal repayments and interest. CDOs/CLOs can be seriously disadvantaged by a drop in the value of their underlying assets. In addition, their complex structure can make them difficult to value, and their performance in different market scenarios difficult to predict.

#### **Risks connected with the use of CoCos**

A CoCo is a hybrid bond that, according to the relevant specific conditions, can either be converted into equity capital at a predetermined price, written off, or written down in value as soon as a predefined trigger event occurs. A sub-fund investing in CoCos may be subject to industry concentration risk. Concentration in investments at certain times in large positions and in a relatively limited number of securities, sectors or regions will make the concerned sub-fund more subject to the risks associated with such concentration. The relevant sub-fund could be subject to significant losses if it holds a relatively large position in a single strategy, issuer, industry, market or a particular type of securities that declines in value and the losses could increase even further if the investments cannot be liquidated without adverse market reaction or are otherwise adversely affected by changes in market conditions or circumstances.

The use of CoCos gives rise to structure-specific risks including liquidity risk and conversion risk. In some cases, the issuer may arrange to convert convertible securities into ordinary shares. If convertible securities are converted into ordinary shares, the Company may hold these ordinary shares in its portfolio, even if it does not usually invest in such shares.

CoCos are also subject to trigger level risk. These trigger levels vary and determine the degree of conversion risk, depending on the difference between the trigger level and the capital ratio. The Portfolio Manager of the sub-fund may find it difficult to foresee the triggers that would require the debt security to be converted into equity capital.

In addition, CoCos are subject to capital structure inversion risk. In the issuer's capital structure, CoCos are generally classed as subordinate in relation to traditional convertible bonds. In some cases, investors in CoCos may suffer a capital loss, while shareholders are only affected later or not at all.

It should also be noted that the use of CoCos is subject to return or valuation risk. The valuation of CoCos is influenced by many unforeseeable factors, e.g. the creditworthiness of the issuer and fluctuations in their capital ratios, the supply and demand for CoCos, the general market conditions and the available liquidity, or economic, financial and political events that have an impact on the issuer, the market in which they operate, or the financial markets in general.

Furthermore, CoCos are subject to the risk of coupon payment suspensions. Coupon payments on CoCos are at the discretion of the issuer, who may suspend such payments at any time and for whatever reason, for an indefinite period. The arbitrary suspension of payments is not deemed as payment default. It is not possible to call for the reintroduction of coupon payments or the subsequent payment of suspended payments. Coupon payments may also be subject to approval by the supervisory authority of the issuer, and may be suspended if insufficient distributable reserves are available. As a result of the uncertainty regarding coupon payments, CoCos are volatile. A suspension of coupon payments may result in drastic price drops.

CoCos are also subject to a call extension risk. CoCos are perpetual instruments and may only be terminated on predetermined dates after approval by the competent supervisory authority. There is no guarantee that the capital that the sub-fund has invested in CoCos will be returned.

Finally, CoCos are subject to unknown risk, since these instruments are relatively new and, as a result, the market and the regulatory environment for these instruments are still evolving. It is therefore uncertain how the CoCo market overall would react to a trigger or a coupon suspension relating to an issuer.

### **Use of derivatives**

The Company may use derivative financial instruments in connection with all sub-funds, subject to the restrictions stipulated in Section 2 titled "Risk diversification". Derivative financial instruments are instruments that derive their value from other finance instruments (underlyings).

Derivatives may be conditional or unconditional. Conditional derivatives (contingent claims) are those that give a party to the legal transaction the right, but not the obligation, to use a derivative instrument (e.g. an option). Unconditional derivatives (futures) impose the obligation on both parties to provide the service owed at a specific time defined in the contract (e.g. forwards, futures, swaps).

The derivatives are traded on stock exchanges (exchange-traded derivatives), as well as over the counter (OTC derivatives). For derivatives traded on a stock exchange, the stock exchange itself is one of the parties in each transaction. These transactions are cleared and settled through a clearing house (clearing agent). OTC derivatives are entered into directly by two parties, whereas exchange-traded derivatives are entered into using a middleman. Derivatives used by the sub-fund may include futures contracts (e.g. on equities, indices, volatility), options (e.g. on equities, interest rates, indices, bonds, currencies, commodities indices, swaps, volatility, futures, inflation or other instruments), forward contracts (including currency contracts), swaps (e.g. total return swaps, currency swaps, commodities index swaps, interest rate swaps, dividend swaps, swaps on equity baskets, volatility swaps and variance swaps), credit derivatives (including credit default derivatives, **CDS** and credit spread derivatives), warrants and structured derivatives such as credit-linked and equity-linked securities.

Derivative transactions (e.g. credit derivatives), may be used to hedge the default risk associated with a third party. To do this, the parties may participate in transactions such as CDS, in which the seller compensates the losses of the buyer associated with the default of a third party and, in return, receives a recurring premium from the buyer. This compensation may be provided through the delivery of defined securities or cash payments. This type of derivative transaction is similar to insurance and can be entered into by any sub-fund, either as a buyer or seller. Credit derivatives may thus be used by sub-funds for hedging (from the buyer's point of view) or investment (from the seller's point of view) purposes. Since 2014, CDS have been settled through a central clearing house.

### **Risks connected with the use of derivatives**

Investments in derivatives are subject to general market risk, settlement risk, credit risk, volatility risk and liquidity risk.

However, these risks may be altered as a result of the special features of the derivative financial instruments, and may in some cases be higher than the risks associated with an investment in the underlying instruments.

For this reason, the use of derivatives requires not only an understanding of the underlying assets, but also in-depth knowledge of the derivatives themselves.

The credit risk associated with derivatives is the risk that a party may not meet (or cannot meet) its obligations under a specific or multiple contracts. The credit risk for derivatives traded on a stock exchange is, generally speaking, lower than that of OTC derivatives traded on the open market, because the clearing agent that acts as counterparty of every exchange-traded derivative (see above) accepts a settlement guarantee. To reduce the overall risk of default, the guarantee is supported by a daily payment system maintained by the clearing agent, in which the assets required for cover are calculated (see below). Despite derivatives not possessing any such settlement guarantee, their default risk is generally limited by the investment restrictions set out in the section titled "Investment principles", sub-section "Risk diversification". Even in cases where the difference between the mutually owed payments (e.g. interest rate swaps, total return swaps) is owed, as opposed to the delivery or exchange of the underlying assets (e.g. options, forwards, credit default swaps), the Company's potential loss is limited to this difference in the event of default by the counterparty.

Credit risk can be reduced by depositing collateral. To trade derivatives on a stock exchange, participants must deposit collateral with a clearing agent in the form of liquid funds (initial margin). The clearing agent will evaluate (and settle, where appropriate) the outstanding positions of each participant, as well as re-evaluate the existing collateral on a daily basis. If the collateral's value falls below a certain threshold (maintenance margin), the participant in question will be required by the clearing agent

to bring this value up to its original level by paying in additional collateral (variation margin). With OTC derivatives, this credit risk can also be reduced through the provision of collateral by the respective counterparty (see below), through the offsetting of various derivative positions entered into with this counterparty, as well as through application of a careful selection process for counterparties (see the section titled "Investment principles", sub-section "Permitted investments of the Company", point 1.1(g), indent 4).

The prices of financial derivatives can be extremely volatile, since even small changes in the price of the underlying assets such as securities, indices, interest rates or currencies can cause significant fluctuations in the price of the financial derivative. Investing in financial derivatives may result in a loss that exceeds the initial investment.

Liquidity risks are another factor, as it may be difficult to buy or sell certain instruments. When derivative transactions are particularly large, or the corresponding market is illiquid (as may be the case with OTC derivatives on the open market), it may in some cases not always be possible to fully execute a transaction, or else it may only be possible to liquidate a position subject to increased costs.

Other risks associated with the use of derivatives include the risk of incorrectly valuing or determining the price of derivatives. There is also the possibility that derivatives may not completely correlate with their underlying assets, interest rates or indices. Many derivatives are complex and are frequently subjectively valued. Inappropriate valuations can result in higher cash payment requirements in relation to counterparties or in a loss of value for the relevant sub-fund.

### **Swap Agreements**

A sub-fund may enter into swap agreements (including total return swaps and contracts for differences) with respect to various underlyings, including currencies, interest rates, securities, collective investment schemes and indices. A swap is a contract under which one party agrees to provide the other party with something, for example a payment at an agreed rate, in exchange for receiving something from the other party, for example the performance of a specified asset or basket of assets. A sub-fund may use these techniques for example to protect against changes in interest rates and currency exchange rates. A sub-fund may also use these techniques to take positions in or protect against changes in securities indices and specific securities prices. In respect of currencies, a sub-fund may utilise currency swap contracts where the sub-fund may exchange currencies at a fixed rate of exchange for currencies at a floating rate of exchange or vice versa. These contracts allow a sub-fund to manage its exposures to currencies in which it holds investment but also to obtain opportunistic exposure to currencies. For these instruments, the sub-fund's return is based on the movement of currency exchange rates relative to a fixed currency amount agreed by the parties.

In respect of interest rates, a sub-fund may utilise interest rate swap contracts where the sub-fund may exchange a fixed rate of interest against a variable rate (or the other way round). These contracts allow a sub-fund to manage its interest rate exposures. For these instruments, the sub-fund's return is based on the movement of interest rates relative to a fixed rate agreed by the parties. The sub-fund may also utilise caps and floors, which are interest rate swap contracts in which the return is based only on the positive (in the case of a cap) or negative (in the case of a floor) movement of interest rates relative to a fixed rate agreed by the parties.

In respect of securities and securities indices a sub-fund may utilise total return swap contracts where the sub-fund may exchange interest rate cash flows for cash flows based on the return of, for example, an equity or fixed income instrument or a securities index. These contracts allow a sub-fund to manage its exposures to certain securities or securities indices. For these instruments, the sub-fund's return is based on the movement of interest rates relative to the return on the relevant security or index. The sub-fund may also use swaps in which the sub-fund's return is relative to the volatility of price of the relevant security (a volatility swap, which is a forward contract whose underlying is the volatility of a given product. This is a pure volatility instrument allowing investors to speculate solely upon the movement of a stock's volatility without the influence of its price) or to the variance (the square of the volatility) (a variance swap which is a type of volatility swap where the payout is linear to variance rather than volatility, with the result that the payout will rise at a higher rate than volatility).

Where a sub-fund enters into total return swaps (or invests in other financial derivative instruments with the same characteristics) it will only do so on behalf of the sub-fund with counterparties that are entities with legal personality, typically located in OECD jurisdictions. These counterparties will be subject to a credit assessment. Where the counterparty is subject to a credit rating by any agency registered and supervised by ESMA, that rating shall be taken into account in the credit assessment. Where a counterparty is downgraded to A2 or below (or comparable rating) by such a credit rating agency, a new credit assessment in respect of the counterparty will be undertaken without delay. Subject to compliance with those conditions, the Portfolio Manager has full discretion as to the appointment of counterparties when entering into total return swaps in furtherance of the relevant sub-fund's investment objective and policies.

A credit default swap ("CDS") is a derivative instrument which is a mechanism for transferring and transforming credit risk between purchaser and seller. The protection buyer purchases protection from the protection seller for losses that might be incurred as a result of a default or other credit event in relation to an underlying security. The protection buyer pays a premium for the protection and the protection seller agrees to make a payment to compensate the protection buyer for losses incurred upon the occurrence of any one of a number of possible specified credit events, as set out in the CDS agreement. In relation to the use of CDS, the sub-fund may be a protection buyer and/or a protection seller. A credit event is an event linked to the deteriorating credit worthiness of an underlying reference entity in a credit derivative. The occurrence of a credit event usually triggers full or partial termination of the transaction and a payment from protection seller to protection buyer. Credit events include, but are not limited to, bankruptcy, failure to pay, restructuring, and obligation default.

### **Insolvency risk on swap counterparties**

Margin deposits made in relation to swap contracts will be held with brokers. Though there are provisions in the structure of these contracts intended to protect each party against the insolvency of the other, these provisions may not be effective. This risk will further be mitigated by the exclusive choice of reputable swap counterparties.

### **Potential illiquidity of exchange traded instruments and swap contracts**

It may not always be possible for the Company to execute a buy or sell order on exchanges at the desired price or to liquidate an open position due to market conditions including the operation of daily price fluctuation limits. If trading on an exchange is suspended or restricted, the Company may not be able to execute trades or close out positions on terms which the Portfolio Manager believes are desirable.

Swap contracts are over-the-counter contracts with a single counterparty and may as such be illiquid. Although swap contracts may be closed out to realise sufficient liquidity, such closing out may not be possible or very expensive for the Company in extreme market conditions.

### **Liquidity risk**

A sub-fund may invest in securities that subsequently prove difficult to sell due to reduced liquidity. This may have a negative effect on their market price and consequently on the sub-fund's net asset value. The reduced liquidity of these securities may be due to unusual or extraordinary economic or market events, such as a deterioration in the credit rating of an issuer or the lack of an efficient market. In extreme market situations, there may be few willing buyers and it may not be easy to sell the investments at the chosen time; in addition, these sub-funds may have to agree to a lower price in order to sell the investments, or they may not be able to sell the investments at all. Trading in certain securities or other instruments may be suspended or restricted by the relevant exchange or by a governmental or regulatory body, which may cause the sub-fund to incur a loss. The inability to sell a portfolio position may have a disadvantageous effect on the value of these sub-funds or prevent them from being able to exploit other investment opportunities. In order to meet redemption requests, these sub-funds may be forced to sell investments at unfavourable times and/or on unfavourable terms.

### **Bonds**

Bonds are subject to actual and perceived measures of creditworthiness. Bonds, and in particular high-yield bonds, may be impaired by negative headlines and an unfavourable perception on the part of investors; such perceptions may not be based on a fundamental analysis, and may have a negative effect on the value and liquidity of the bond.

### **High-yield bonds**

Investing in debt instruments involves interest-rate, sector, security and credit risk. Compared with investment-grade bonds, high-yield bonds generally attract a lower rating and usually offer higher yields in order to offset the lower credit rating or higher default risk associated with these securities. High-yield bonds involve a greater risk of capital erosion through default or in the case of an effective interest rate that is below the current rate of interest. Economic conditions and changes in the level of interest rates may have a considerable impact on the value of these bonds. In addition, high-yield bonds may be exposed to greater credit or default risk than bonds with a high rating. These bonds tend to react more to developments affecting market and credit risk than securities with a higher rating. The value of high yield bonds may be negatively affected by overall economic conditions, such as an economic downturn or a period of rising interest rates. High-yield bonds may be less liquid and more difficult to sell or value at a favourable point in time or price than bonds with a higher rating. In particular, high-yield bonds are often issued by smaller, less creditworthy and more indebted companies that are generally less able to pay capital and interest on schedule than financially sound companies.

### **Subordinated debt instruments**

Some sub-funds may invest in subordinated debt instruments. In the event of issuer insolvency, subordinated debt instruments are repaid after more senior debt instruments. Due to the fact that subordinated debt instruments are not repaid until after senior debt instruments, there is less chance of receiving any payment at all in the event of issuer insolvency. Therefore, subordinated debt instruments result in a higher degree of risk for the investor.

### **The risk associated with small and mid-caps**

Certain sub-funds invest in small and mid-caps. Investments in the securities of small, less well-known companies carry a higher degree of risk and the possibility of greater price volatility than investments in larger, more mature and more well-known companies. The value of the shares of small companies may fluctuate independently of the share prices of large companies and the wider stock market indices. Reasons include their somewhat more uncertain growth prospects, the lower market liquidity for such shares and their greater vulnerability in the event of changes in the market situation. For example, a higher business risk is associated with small and limited product lines, markets, channels of distribution as well as financial and management resources.

### **Risks connected with the use of alternative investment strategies**

Alternative investment strategies differ from traditional investments. In addition to the customary market, credit and liquidity risks, these investments entail additional risk potential. Alternative investment instruments invest worldwide in various capital markets and financial instruments that can prove to be very volatile. Political uncertainty, fiscal policy measures, foreign exchange restrictions or changes to the law concerning foreign ownership can also negatively impact the value of commitments and the income generated by them. The prices and liquidity of instruments whose performance is linked to that of alternative investments (e.g. certificates) may be influenced by the characteristics of these underlying alternative investments. For example, these may take out loans in order to make additional investments or enter into similar positions via derivatives ("leverage"). In this way, they may profit from falling prices, but also experience losses in the event of rising prices. This may lead to increased fluctuations in value. These may not be in line with the general market performance. If the fund invests in instruments whose performance is linked to that of alternative investments (e.g. certificates), the price performance and liquidity of these investments may have a significant impact on the price performance and liquidity of said instruments. The Portfolio Manager therefore staggers larger transactions in such instruments, often over an extended period of time, or coordinates them as

closely as possible with the subscription/redemption cycle of the underlying instruments in order to reduce any negative effects on the transaction price. As a result, the portion of alternative investments in the Fund may fluctuate considerably.

#### **Risks connected with the use of certificates**

A certificate is typically issued for a fixed issue amount or a fixed number of certificates and with a specific term. Generally, this amount may later be increased or reduced and the term extended. The issuer of a certificate also generally organises secondary market trading for such certificates on a "best-effort" basis. On this market, the certificates may be traded based on supply and demand. The issuer or arranger may also participate in trading on the secondary market. The net asset value of a certificate is calculated on the basis of predefined formulae and is typically derived from the performance of one or more other investment instruments or indices. It is regularly reviewed by the UCI Administrator. The price obtained through trade on the secondary market can differ significantly from the net asset value. Furthermore, it cannot be guaranteed that counterparties to a transaction may be found on the secondary market at all times.

#### **Risks connected with the use of efficient portfolio management techniques**

A sub-fund may enter into repurchase agreements and reverse repurchase agreements as a buyer or as a seller subject to the conditions and limits set out in Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". If the other party to a repurchase agreement or reverse repurchase agreement should default, the sub-fund might suffer a loss to the extent that the proceeds from the sale of the underlying securities and/or other collateral held by the sub-fund in connection with the repurchase agreement or reverse repurchase agreement are less than the repurchase price or, as the case may be, the value of the underlying securities. In addition, in the event of bankruptcy or similar proceedings of the other party to the repurchase agreement or reverse repurchase agreement or its failure otherwise to perform its obligations on the repurchase date, the sub-fund could suffer losses, including loss of interest on or principal of the security and costs associated with delay and enforcement of the repurchase agreement or reverse repurchase agreement.

A sub-fund may enter into securities lending transactions subject to the conditions and limits set out in Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". Securities lending transactions involve counterparty risk, including the risk that the securities lent cannot be returned or redeemed on time. If the borrower of securities fails to return the securities lent by a sub-fund, there is a risk that the collateral received may be realised at a lower value than the securities lent, whether due to inaccurate pricing of the collateral, adverse market movements, a deterioration in the creditworthiness of the collateral issuer, illiquidity of the market on which the collateral is traded, negligence or insolvency of the custodian holding collateral or termination of legal agreements, e.g. due to insolvency, which adversely affects the performance of the sub-fund. If the other party to a securities lending transaction should default, the sub-fund might suffer a loss to the extent that the proceeds from the sale of the collateral held by the Company in connection with the securities lending transaction are less than the value of the securities lent. In addition, in the event of the bankruptcy or similar proceedings of the other party to the securities lending transaction or its failure to return the securities as agreed, the sub-fund could suffer losses, including loss of interest on or principal of the securities and costs associated with delay and enforcement of the securities lending agreement.

The sub-funds will only use repurchase agreements, reverse repurchase agreements or securities lending transactions for the purpose of either reducing risks (hedging) or generating additional capital or income for the relevant sub-fund. When using such techniques, the sub-fund will comply at all times with the provisions set out in Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". The risks arising from the use of repurchase agreements, reverse repurchase agreements and securities lending transactions will be closely monitored and techniques (including collateral management) will be employed to seek to mitigate those risks. Although it is expected that the use of repurchase agreements, reverse repurchase agreements and securities lending transactions will generally not have a material impact on a sub-fund's performance, the use of such techniques may have a significant effect, either negative or positive, on a sub-fund's net asset value.

#### **Exposure to securities financing transactions**

The sub-funds' exposure to total return swaps, repurchase agreements/reverse repurchase agreements and securities lending transactions is set out below (in each case as a percentage of Net Asset Value):

Sub-fund	Total Return Swaps		Repurchase agreements/reverse repurchase agreements		Securities Lending	
	Expected	Maximum	Expected	Maximum	Expected	Maximum
UBS (Lux) Key Selection SICAV – Asian Equities (USD)	0%	15%	0%	25%	0%-40%	50%

### Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is carried out pursuant to the applicable laws and regulatory provisions. Pursuant to CSSF circular 14/592 (on the ESMA guidelines on ETFs and other UCITS issues), the risk management procedure will also be applied within the scope of collateral management (see section entitled "Collateral management" below) and the techniques and instruments for the efficient management of the portfolio (see Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets").

### Leverage

The leverage for UCITS using the **value-at-risk ("VaR" approach** is defined pursuant to CSSF circular 11/512 as the "sum of the notional" of the derivatives used by the respective sub-fund. Shareholders should note that this definition may lead to artificially high leverage that does not reflect the actual economic risk due to, *inter alia*, the following reasons:

- Regardless of whether a derivative is used for investment or hedging purposes, it increases the leverage amount calculated according to the sum-of-notionals approach;
- The duration of interest rate derivatives is not taken into account. A consequence of this is that short-term interest rate derivatives generate the same leverage as long-term interest rate derivatives, even though short-term ones generate a considerably lower economic risk.

The economic risk of UCITS pursuant to the VaR approach is determined as part of a UCITS risk management process. This contains (among other things) restrictions on the VaR, which includes the market risk of all positions, including derivatives. The VaR is supplemented by a comprehensive stress-test programme.

The average leverage for each sub-fund using the VaR approach is expected to be within the range stated in the table below. Leverage is expressed as a ratio between the sum of the notionals and the net asset value of the sub-fund in question. Greater leverage amounts may be attained for all sub-funds, under certain circumstances.

Sub-fund	Global risk calculation method	Expected range of leverage	Reference portfolio
UBS (Lux) Key Selection SICAV – Asian Equities (USD)	Commitment approach	n.a.	n.a.
UBS (Lux) Key Selection SICAV – Asian Global Strategy Balanced (USD)	Commitment approach	n.a.	n.a.

UBS (Lux) Key Selection SICAV – European Financial Debt (EUR)	Commitment approach	n.a.	n.a.

### Collateral management

If the Company enters into OTC transactions, it may be exposed to risks associated with the creditworthiness of these OTC counterparties: should the Company enter into futures, options or swap contracts, or use other derivative techniques, it shall be subject to the risk that an OTC counterparty might not meet (or cannot meet) its obligations under one or more contracts. Counterparty risk can be reduced by depositing a security ("collateral", see above). Collateral may be provided in the form of liquid assets in highly liquid currencies, highly liquid equities and first-rate government bonds. The Company will only accept such financial instruments as collateral, which would allow it (after objective and appropriate valuation) to liquidate these within an appropriate time period. The Company, or a service provider appointed by the Company, must assess the collateral's value at least once a day. The collateral's value must be higher than the value of the position of the respective OTC counterparty. However, this value may fluctuate between two consecutive valuations.

After each valuation, however, it is ensured (where appropriate, by requesting additional collateral) that the collateral is increased by the desired amount to meet the value of the respective OTC counterparty's position (mark-to-market). In order to adequately take into account the risks related to the collateral in question, the Company determines whether the value of the collateral to be requested should be increased, or whether this value should be depreciated by an appropriate, conservatively measured amount (haircut). The larger the collateral's value may fluctuate, the higher the markdown.

The Company shall set up internal regulations determining the details of the above-mentioned requirements and values, particularly regarding the types of collateral accepted, the amounts to be added to and subtracted from the respective collateral, and the investment policy for liquid funds that are deposited as collateral. This framework agreement is reviewed and adapted where appropriate by the Company on a regular basis.

The Board of Directors of the Company has approved instruments of the following asset classes as collateral in OTC derivative transactions and determined the following haircuts to be used on these instruments:

Asset class	Minimum haircut (% deduction from market value)
<b>Fixed and variable-rate interest-bearing instruments</b>	
Liquid funds in the currencies CHF, EUR, GBP, USD, JPY, CAD and AUD.	0%
Short-term instruments (up to one year) issued by one of the following countries (Australia, Austria, Belgium, Denmark, Germany, France, Japan, Norway, Sweden, UK, US) and the issuing country has a minimum rating of A	1%

Instruments that fulfil the same criteria as above and have a medium-term maturity (one to five years).	3%
Instruments that fulfil the same criteria as above and have a long-term maturity (five to ten years).	4%
Instruments that fulfil the same criteria as above and have a very long-term maturity (more than ten years).	5%
US TIPS (Treasury inflation protected securities) with a maturity of up to ten years	7%
US Treasury strips or zero coupon bonds (all maturities)	8%
US TIPS (Treasury inflation protected securities) with a maturity of over ten years	10%

The haircuts to be used on collateral from securities lending, as the case may be, are described in Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets".

Securities deposited as collateral may not have been issued by the respective OTC counterparty or be highly correlated with this OTC counterparty. For this reason, shares from the finance sector are not accepted as collateral. Securities deposited as collateral shall be held in safekeeping by the Depositary on behalf of the Company and may not be sold, invested or pledged by the Company.

The Company shall ensure that the collateral received is adequately diversified, particularly regarding geographic dispersion, diversification across different markets and the spreading of concentration risk. The latter is considered to be sufficiently diversified if securities and money market instruments held as collateral and issued by a single issuer do not exceed 20% of the relevant sub-fund's net assets.

In derogation to the above paragraph and in accordance with the modified Point 43(e) of the ESMA Guidelines on ETFs and other UCITS issues of 1 August 2014 (ESMA/2014/937), the Company may be fully collateralised in various transferable securities and money market instruments issued or guaranteed by an EU Member State, one or more of its local authorities, a non-Member State, or a public international body to which one or more EU Member States belong. If this is the case, the Company must ensure that it receives securities from at least six different issues, but securities from any single issue may not account for more than 30% of the net assets of the respective sub-fund.

**The Board of Directors of the Company has decided to make use of the exemption clause described above and accept collateralisation of up to 50% of the net assets of the respective sub-fund in government bonds that are issued or guaranteed by the following countries: US, Japan, UK, Germany and Switzerland.**

Collateral that is deposited in the form of liquid funds may be invested by the Company. Investments may only be made in: sight deposits or deposits at notice in accordance with Point 1.1(f) of Section 1 "Permitted investments of the Company"; high-quality government bonds; repurchase agreements within the meaning of Section 5 "Special techniques and instruments with securities and money market instruments as underlying assets", provided the counterparty in such transactions is a credit institution within the meaning of Point 1.1(f) of Section 1 "Permitted investments of the Company" and the Company has the right to cancel the transaction at any time and to request the back transfer of the amount invested (incl. accrued interest); short-term money market funds within the meaning of CESR Guidelines 10-049 regarding the definition of European money market funds.

The restrictions listed in the previous paragraph also apply to the spreading of concentration risk. Bankruptcy and insolvency events or other credit events involving the Depositary or within its sub-depository/respondent bank network may result in the rights of the Company in connection with the collateral being delayed or restricted in other ways. If the Company owes collateral to the OTC counterparty pursuant to an applicable agreement, then any such collateral is to be transferred to the OTC counterparty as agreed between the Company and the OTC counterparty. Bankruptcy and insolvency events or other credit default events involving the OTC counterparty, the Depositary or its sub-depository/respondent bank network may result in the rights or recognition of claims of the Company in connection with the collateral being delayed, restricted or even eliminated, which would go so far as to force the Company to fulfil its obligations within the framework of the OTC transaction, regardless of any collateral that had previously been provided to cover any such obligation.

#### **Net asset value, issue, redemption and conversion price**

The net asset value and the issue, redemption and conversion price per share of each sub-fund or share class are expressed in the currency of account of the sub-fund or share class concerned and are calculated every business day by dividing the overall net assets of the sub-fund attributable to each share class by the number of shares in circulation in this share class of the sub-fund.

However, the net asset value of a share may also be calculated on days where no shares are issued or redeemed, as described in the following section. In this case, the net asset value may be published, but it may only be used for the purpose of calculating performance, statistics or fees. Under no circumstances should it be used as a basis for subscription and redemption orders.

The percentage of the net asset value attributable to each share class of a sub-fund changes each time shares are issued or redeemed. It is determined by the ratio of the shares in circulation in each share class to the total number of sub-fund shares in circulation, taking into account the fees charged to that share class.

The value of the assets of each sub-fund is calculated as follows:

- a) Liquid assets (whether in the form of cash and bank deposits, bills of exchange, cheques, promissory notes, expense advances, cash dividends and declared or accrued interest still receivable) are valued at face value, unless this value is unlikely to be fully paid or received, in which case their value is determined by deducting an amount deemed appropriate to arrive at their real value.
- b) Securities, derivatives and other assets listed on a stock exchange are valued at the most recent market prices available. If these securities, derivatives or other assets are listed on several stock exchanges, the most recently available price on the stock exchange that represents the major market for this asset shall apply. In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market exists among securities traders with pricing based on market standards, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange, but traded on another regulated market that operates regularly and is recognised and open to the public, are valued at the most recently available price on this market.
- c) Securities and other investments not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Company on the basis of the likely sales prices according to other principles chosen by the Company in good faith.
- d) Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. If only one independent pricing source is available for a derivative, the plausibility of the valuation obtained will be verified using calculation models that are recognised by the Company and the Company's auditors, based on the market value of that derivative's underlying.
- e) Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last known asset value.
- f) Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: The interest rate nearest the residual maturity is interpolated for each money market instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the creditworthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower's credit rating.
- g) Securities, money market instruments, derivatives and other assets denominated in a currency other than the relevant sub-fund's currency of account, and not hedged by foreign exchange transactions, are valued using the average exchange rate (between the bid and ask prices) known in Luxembourg or, if none is available, using the rate on the most representative market for that currency.
- h) Term and fiduciary deposits are valued at their nominal value plus accumulated interest.
- i) The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. Such calculations are based on the net present value of all cash flows (both inflows and outflows). In some specific cases, internal calculations (based on models and market data made available by Bloomberg) and/or broker statement valuations may be used. The valuation method depends on the security in question and is chosen pursuant to the applicable UBS Global Valuation Policy.

If valuation in accordance with the aforementioned regulations proves to be impossible or inaccurate, the Company is entitled to use other generally recognised and verifiable valuation criteria in good faith in order to achieve a suitable valuation of the net assets.

As some of the Company's sub-funds may be invested in markets that are closed at the time their assets are valued, the Company may – by way of derogation from the aforementioned provisions – allow the net asset value per share to be adjusted in order to more accurately reflect the fair value of these sub-funds' assets at the time of valuation. In practice, the securities in which the sub-funds are invested are generally valued on the basis of the latest available prices at the time of calculating the net asset value per share, as described above. There may, however, be a substantial time difference between the close of the markets in which a sub-fund invests and the time of valuation.

As a result, developments that may influence the value of these securities and that occur between the closure of the markets and the valuation time are not generally taken into account in the net asset value per share of the sub-fund concerned. If, as a result of this, the Company deems that the most recently available prices of the securities in a sub-fund's portfolio do not reflect their fair value, it may allow the net asset value per share to be adjusted in order to reflect the assumed fair value of the portfolio at the time of valuation. Such an adjustment is based on the investment policy determined by the Company and a number of practices. If the value is adjusted as described above, this will be applied consistently to all share classes in the same sub-fund.

The Company reserves the right to apply this measure to the relevant sub-funds of the Company whenever it deems this to be appropriate.

Valuing assets at fair value calls for greater reliability of judgement than valuing assets for which readily available market quotations can be referred to. Fair-value calculations may also be based on quantitative models used by price reporting providers to determine the fair value. No guarantee can be given that the Company will be in a position to accurately establish

the fair value of an asset when it is about to sell the asset around the time at which the Company determines the net asset value per share. As a consequence, if the Company sells or redeems shares at the net asset value at a time when one or more participations are valued at fair value, this may lead to a dilution or increase in the economic participation of the existing shareholders.

Furthermore, in exceptional circumstances, additional valuations can be carried out over the course of the day. These new valuations will then prevail for the subsequent issue, redemption and conversion of shares.

Revaluations only take place before publishing the only net asset value for that day. Issues, redemptions and conversions are only processed based on this sole net asset value.

Due to fees and charges as well as the buy-sell spread for the underlying investments, the actual costs of buying and selling assets and investments for a sub-fund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per share. These costs have a negative effect on the value of a sub-fund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per share (swing pricing).

Shares are generally issued and redeemed based on a single price: the net asset value. To reduce the effects of dilution, the net asset value per share is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the sub-fund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in any sub-fund or class of a sub-fund on a particular valuation day, the unadjusted net asset value per share is applied. The circumstances in which such a dilution adjustment takes is made are determined at the discretion of the Board of Directors. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of shares in the relevant sub-fund. The Board of Directors may carry out a dilution adjustment if, in its view, the existing shareholders (in the case of subscriptions) or remaining shareholders (in the case of redemptions) could be put at a disadvantage. The dilution adjustment may take place if:

- (a) a sub-fund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a sub-fund records a considerable volume of net subscriptions relative to its size;
- (c) a sub-fund shows a net subscription or net redemption position on a particular valuation day; or
- (d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the shareholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per share depending on whether the sub-fund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the spreads of buy and sell prices. In particular, the net asset value of the respective sub-fund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the sub-fund, and (iii) the estimated bid-ask spread for the assets in which the sub-fund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. The adjustments are generally limited to a maximum of 2% of the prevailing net asset value per share at the time. The Board of Directors may decide to temporarily apply a dilution adjustment of more than 2% of the prevailing net asset value per share at the time in respect of any sub-fund and/or valuation date in exceptional circumstances (e.g. high market volatility and/or liquidity, exceptional market conditions, market disruption, etc.), provided the Board of Directors can justify that this is representative of the prevailing market conditions and that it is in the best interest of the shareholders. This dilution adjustment will be calculated in accordance with the method determined by the Board of Directors. Shareholders will be informed via the usual communication channels when the temporary measures are introduced and when they end.

The net asset value of each class of the sub-fund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms. The dilution adjustment is made at sub-fund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

## **Investing in UBS (Lux) Key Selection SICAV**

### **Conditions for the issue and redemption of shares**

Sub-fund shares are issued and redeemed on every business day. A "**business day**" is a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December; individual, non-statutory days of rest in Luxembourg; and days on which stock exchanges in the main countries in which the respective sub-fund invests are closed, or on which 50% or more of the investments of the sub-fund cannot be adequately valued. In addition, the following special rules apply:

- For the sub-fund UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD), days which are not normal banking days in the People's Republic of China are not deemed business days of this sub-fund.
- For the sub-fund UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD), days which are not normal banking days in the People's Republic of China and/or Hong Kong are not deemed business days of this sub-fund.

**"Non-statutory days of rest"** are days on which banks and financial institutions are closed.

No shares will be issued or redeemed on days for which the Company has decided not to calculate any net asset values, as described in the section "Suspension of net asset value calculation, and suspension of the issue, redemption and conversion of shares". In addition, the Company is entitled to reject subscription orders at its discretion.

The Company prohibits all transactions that it deems potentially detrimental to shareholder interests, including (but not limited to) market timing and late trading. It is entitled to refuse any application for subscription or conversion that it considers to be allied to such practices. The Company is also entitled to take any action it deems necessary to protect shareholders from such practices.

**Subscription and redemption orders ("orders") registered with the UCI Administrator no later than the time specified below for the individual sub-funds on a business day ("order date") will be processed on the basis of the net asset value calculated as at that day after the cut-off time ("valuation date").**

The following cut-off times apply:

Sub-fund	Cut-off time (CET)
UBS (Lux) Key Selection SICAV – Asian Equities (USD)	13:00

UBS (Lux) Key Selection SICAV – European Financial Debt (EUR)	15:00

**All orders sent by fax must be received by the UCI Administrator at least one hour prior to the stated cut-off time of the respective sub-fund on a business day. However, the central settling agent of UBS AG in Switzerland, the distributors and other intermediaries may apply other cut-off times that are earlier than those specified above vis-à-vis their clients in order to ensure the timely submission of orders to the UCI Administrator. Information on this may be obtained from the central settling agent of UBS AG in Switzerland, as well as from the respective distributors and other intermediaries.**

**For orders registered with the UCI Administrator after the respective cut-off time on a business day, the order date is considered to be the following business day.**

The same applies to requests for the conversion of shares of a sub-fund into those of another sub-fund of the Company performed on the basis of the net asset values of the respective sub-funds.

This means that the net asset value used for settlement is not known at the time the order is placed (forward pricing). It will be calculated on the basis of the last-known market prices (i.e. using the latest available market prices or closing market prices, provided these are available at the time of calculation). The individual valuation principles applied are described in the section above.

Subject to applicable laws and regulations, the distributors entrusted with the acceptance of orders shall request and accept subscription, redemption and/or conversion orders from investors on the basis of a written agreement or order form or by equivalent means, including receipt of orders by electronic means. The application of equivalent means to written form requires the prior written consent of the Management Company and/or UBS Asset Management Switzerland AG at its own discretion.

### **Issue of shares**

The issue price of sub-fund shares is calculated according to the provisions in the section "Net asset value, issue, redemption and conversion price".

Unless otherwise defined in the section entitled "Share classes", depending on the various distributors who have informed investors in advance of the method used, the following entry costs for the capital commitment may be deducted from (or charged as an addition) or added to the net asset value for payment on to distributors involved in the distribution of shares in the sub-fund and/or to financial intermediaries:

Sub-fund	Entry costs (maximum in %)
UBS (Lux) Key Selection SICAV – Asian Equities (USD)	5
UBS (Lux) Key Selection SICAV – Asian Global Strategy Balanced (USD)	4
UBS (Lux) Key Selection SICAV – China Allocation Opportunity (USD)	4
UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD)	5
UBS (Lux) Key Selection SICAV – Credit Income Opportunities (USD)	3
UBS (Lux) Key Selection SICAV – Digital Transformation Dynamic (USD)	5
UBS (Lux) Key Selection SICAV – Digital Transformation Themes (USD)	5
UBS (Lux) Key Selection SICAV – Dynamic Alpha (USD)	4
UBS (Lux) Key Selection SICAV – European Equity Value Opportunity (EUR)	5
UBS (Lux) Key Selection SICAV – European Growth and Income (EUR)	4
UBS (Lux) Key Selection SICAV – Global Allocation (USD)	4
UBS (Lux) Key Selection SICAV – Global Equities (USD)	5
UBS (Lux) Key Selection SICAV – Global Equity Value Opportunity (USD)	5
UBS (Lux) Key Selection SICAV – Turnaround Equity Opportunities (USD)	5
UBS (Lux) Key Selection SICAV – Systematic Allocation Portfolio Equity (USD)	5
UBS (Lux) Key Selection SICAV – Climate Diversified (EUR)	4
UBS (Lux) Key Selection SICAV – European Financial Debt (EUR)	3

Any taxes, charges or other fees incurred in the relevant country of distribution will also be charged. Additional information can be found in the local offer documents.

Subscriptions for shares in the Company are accepted by the Company, the UCI Administrator and the Depositary as well as at the sales and paying agents, which forward them to the Company.

Subject to applicable laws and regulations, the Depositary and/or the agents entrusted with receiving subscription payments may, at their discretion and upon investors' request, accept the payment in currencies other than the currency of account of the respective sub-fund and the subscription currency of the share class to be subscribed. The exchange rate used will be determined by the respective agent on the basis of the bid-ask spread of the relevant currency pair. Investors shall bear all fees associated with currency exchange. Notwithstanding the above, payment of subscription prices for shares denominated in RMB shall be made in RMB (CNH) only. No other currency will be accepted for the subscription of these share classes.

The shares may also be subscribed through savings plans, payment plans or conversion plans, in accordance with the locally prevailing market standards. Further information on this can be requested from the local distributors.

The issue price of sub-fund shares is paid into the Depositary's account in favour of the sub-fund no later than three days (three business days for the sub-fund UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD)) after the order date ("**settlement date**").

The settlement date can only be a day on which these banks are open or these settlement systems are available for transactions in the relevant currency.

A local paying agent will carry out the requisite transactions on behalf of the final investor on a nominee basis. Costs for services of the Paying Agent may be imposed on the investor.

At the shareholders' request, the Company may accept full or partial subscriptions in kind at its own discretion. In such cases, the contribution in kind must suit the investment policy and restrictions of the relevant sub-fund. Such payments in kind will also be appraised by the auditor selected by the Company. The costs incurred will be charged to the relevant investor.

Shares are issued as registered shares only. This means that the shareholder status of the investor in the Company with all associated rights and obligations will be based on the respective investor's entry in the Company's register. A conversion of registered shares into bearer shares may not be requested. Shareholders are reminded that registered shares may also be cleared through recognised external clearing houses like Clearstream.

All shares issued have the same rights. The Articles of Incorporation nonetheless provide for the possibility of issuing various share classes with specific features within a particular sub-fund.

Furthermore, fractions of shares can be issued for all sub-funds/share classes. Fractions of shares are expressed up to three decimal places and do not confer the right to vote at general meetings. If the relevant sub-fund or share class is liquidated, however, fractional shares entitle the holder to a distribution or proportionate share of the liquidation proceeds.

### Redemption of shares

Redemption orders are accepted by the Management Company, the UCI Administrator, the Depositary or another authorised sales or paying agent.

Consideration for sub-fund shares submitted for redemption is paid no later than the third day (the third business day for the sub-fund UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD)) after the order date ("**settlement date**") unless legal provisions, such as foreign exchange controls or restrictions on capital movements, or other circumstances beyond the control of the Depositary, make it impossible to transfer the redemption amount to the country in which the redemption order has been submitted.

The settlement date can only be a day on which these banks are open or these settlement systems are available for transactions in the relevant currency.

If the value of a share class in relation to the total net asset value of a sub-fund has fallen below, or failed to reach, a level that the Board of Directors of the Company has fixed as the minimum level for the economically efficient management of a share class, the Board of Directors of the Company may decide that all shares in this class are to be redeemed against payment of the redemption price on a business day determined by the Board. Investors of the class/sub-fund concerned shall not have to

bear any additional costs or other financial burdens as a result of this redemption. Where applicable, the single swing pricing principle described in the Section "Net asset value, issue, redemption and conversion price" shall apply.

For sub-funds with multiple share classes that are denominated in different currencies, shareholders may, in principle, only receive the equivalent value for their redemption in the currency of the respective share class or the currency of account of the respective sub-fund.

Subject to applicable laws and regulations, the Depositary and/or the agents entrusted with paying the redemption proceeds may, at their discretion and upon investors' request, make the payment in currencies other than the currency of account of the respective sub-fund and the currency of the share class redeemed. The exchange rate used will be determined by the respective agent on the basis of the bid-ask spread of the relevant currency pair.

Investors shall bear all fees associated with currency exchange. These fees, as well as any taxes, commissions or other fees that may be incurred in the relevant country of distribution and, for example, levied by correspondent banks, will be charged to the relevant investor and deducted from the redemption proceeds. Notwithstanding the above, payment of redemption proceeds for shares denominated in RMB shall be made in RMB (CNH) only. The investor may not request payment of the redemption proceeds in any currency other than RMB (CNH).

Any taxes, charges or other fees incurred in the relevant country of distribution (including those levied by correspondent banks) will be charged.

However, no redemption charged may be levied.

Net asset value performance shall determine whether the redemption price is higher or lower than the price paid by the investor.

The Company reserves the right to refrain from executing redemption and conversion orders in full (redemption gate) on order dates on which the total orders would cause an outflow of funds of more than 10% of the sub-fund's net assets on that date. In such cases, the Company may decide to execute only a portion of redemption and conversion orders, and to postpone the execution of the remaining redemption and conversion orders for that order date with priority status and for a period generally not to exceed 20 business days.

In the event of a large volume of redemption orders, the Company may decide to postpone the execution of redemption orders until equivalent Company assets have been sold, without undue delay. Should such a measure be necessary, all redemption orders received on the same day will be processed at the same price.

A local paying agent will carry out the requisite transactions on behalf of the final investor on a nominee basis. Costs for services of the Paying Agent as well as fees that are levied by correspondent banks may be imposed on the investor.

At the shareholders' request, the Company may grant investors full or partial redemptions in kind at its own discretion.

In such cases, it must be ensured that after the capital is redeemed in kind, the remaining portfolio still complies with the investment policy and restrictions of the relevant sub-fund, and that the remaining investors in the sub-fund are not disadvantaged by the redemption in kind. Such payments will also be appraised by the auditor selected by the Company. The costs incurred will be charged to the relevant investor.

### **Conversion of shares**

At any time, shareholders may convert their shares into those of another share class within the same sub-fund, and/or may convert their shares into those of another sub-fund. Conversion orders are subject to the same procedures as the issue and redemption of shares.

The number of shares resulting from the conversion of a shareholder's existing shares is calculated according to the following formula:

$$\alpha = \frac{\beta * \chi * \delta}{\varepsilon}$$

where:

$\alpha$	=	number of shares of the new sub-fund or share class into which conversion is requested
$\beta$	=	number of shares of the sub-fund or share class from which conversion is requested
$\chi$	=	net asset value of the shares submitted for conversion
$\delta$	=	foreign-exchange rate between the sub-funds or share classes in question. If both sub-funds or share classes are valued in the same currency of account, this coefficient equals 1
$\varepsilon$	=	net asset value of the shares in the sub-fund or share class into which conversion is requested plus any taxes, charges or other fees

Depending on the various distributors who have informed investors in advance of the method used, a maximum conversion fee in the amount of the maximum entry costs on the capital commitment may be deducted (or charged as an addition) or added to the net asset value for payment on to distributors involved in the distribution of shares in the sub-fund and/or to financial intermediaries. No redemption charge is applied in such cases, in accordance with the information in the section titled "Redemption of shares".

Subject to applicable laws and regulations, the Depositary and/or the agents entrusted with receiving conversion payments may, at their discretion and upon investors' request, accept the payment in currencies other than the currency of account of the respective sub-fund and/or the reference currency of the share class, into which the conversion will take place. The

exchange rate used will be determined by the respective agent on the basis of the bid-ask spread of the relevant currency pair. These commissions, as well as any fees, taxes and stamp duties incurred in the individual countries for a sub-fund conversion are charged to the shareholders.

### **Prevention of money laundering and terrorist financing**

The Company's distributors must comply with the provisions of the Luxembourg Law of 12 November 2004 on the fight against money laundering and terrorist financing, as amended, as well as the relevant statutory provisions and applicable circulars of the CSSF.

Accordingly, investors must provide proof of their identity to the distributor or sales agent receiving their subscription. The distributor or sales agent must request the following identifying documents from investors as a minimum: natural persons must provide a certified copy of their passport/identity card (certified by the distributor or sales agent or by the local administrative authority); companies and other legal entities must provide a certified copy of the articles of incorporation, a certified copy of the extract from the trade and companies register, a copy of the most recently published annual accounts and the full name of the beneficial owner.

Depending on the circumstances, the distributor or sales agent must request additional documents or information from investors requesting subscriptions or redemptions. The distributor must ensure that the sales agents strictly adhere to the aforementioned identification procedures. The UCI Administrator and the Company may, at any time, demand assurance from the distributor that the procedures are being adhered to. The UCI Administrator will monitor compliance with the aforementioned provisions for all subscription and redemption orders they receive from sales agents or distributors in countries in which such sales agents or distributors are not subject to requirements equivalent to Luxembourg or EU law on fighting money laundering and terrorist financing.

Furthermore, the distributor and its sales agents must comply with all the regulations for the prevention of money laundering and terrorist financing in force in the respective countries.

### **Suspension of net asset value calculation, and suspension of the issue, redemption and conversion of shares**

The Company may temporarily suspend the calculation of the net asset value of one or more sub-funds, as well as the issue and redemption of shares, and conversions between individual sub-funds, for one or more business days due to the following:

- the closure, other than for customary holidays, of one or more stock exchanges used to value a substantial portion of the net assets, or of foreign exchange markets in whose currency the net asset value, or a substantial portion of the net assets, is denominated, or if trade on these stock exchanges or markets is suspended, or if these stock exchanges or markets become subject to restrictions or experience major short-term price fluctuations;
- events beyond the control, liability or influence of the Company and/or Management Company prevent access to the net assets under normal conditions without causing severe detriment to shareholder interests;
- disruptions in the communications network or any other event that prevents the value of a substantial portion of the net assets from being calculated;
- circumstances making it impossible for the Company to repatriate funds to pay redemption orders in the sub-fund in question, or where the Board of Directors of the Company deems the transfer of funds from the sale or for the acquisition of investments, or for payments following share redemptions, to be impossible at normal exchange rates;
- political, economic, military or other circumstances outside the control of the Company prevent the disposal of the Company's assets under normal conditions without seriously harming the interests of the shareholders;
- for any other reason the value of assets held by a sub-fund cannot be promptly or accurately determined;
- the convocation of an extraordinary general shareholders' meeting for the liquidation of the Company has been published;
- such a suspension is justified for the protection of the shareholders, after the convening notice of an extraordinary general shareholders' meeting for the merger of the Company or of a sub-fund, or a notice to the shareholders on a decision by the Board of Directors of the Company to merge one or more sub-funds was published; and
- the Company can no longer settle its transactions due to restrictions on foreign exchange and capital movements.
- the suspension by a master fund in which a sub-fund invests as a feeder fund of (i) the calculation of the net asset value per unit, or (ii) the issue, (iii) the redemption and/or (iv) the exchange of units.

Should the calculation of the net asset value, the issue and redemption of shares, or the conversion of shares between sub-funds be suspended, this will be notified without delay to all the relevant authorities in the countries where Company shares are approved for distribution to the public; in addition, notification will be published in the manner described below in the section titled "Regular reports and publications".

If investors no longer meet the requirements of a share class, the Company is further obliged to request that the investors concerned:

- a) return their shares within 30 calendar days in accordance with the provisions on the redemption of shares; or
- b) transfer their shares to a person who meets the aforementioned requirements for acquiring shares in this class; or
- c) convert their shares into those of another share class of the respective sub-fund for which they are eligible in accordance with the acquisition requirements of this share class.

In addition, the Company is entitled to:

- a) refuse a request to buy shares, at its own discretion;
- b) redeem, at any time, shares that were purchased in defiance of an exclusion clause.

### **Distributions**

The payment of distributions for a certain sub-fund or share class, as well as the amount of any such distributions, is decided by the general meeting of shareholders of this sub-fund; it shall do so acting on a proposal from the Company's Board of Directors after closure of the annual accounts. Distributions may be composed of income (e.g. dividend income and interest income) or capital and they may include or exclude fees and expenses.

Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation. Any distribution results in an immediate reduction of the net asset value per share of the sub-fund. The payment of distributions must not result in the net assets of the Company falling below the minimum amount for company assets laid down by the law. If distributions are made, payment will be effected within four months of the end of the financial year.

The Board of Directors of the Company is entitled to determine whether interim dividends are paid and whether distribution payments are suspended.

Entitlements to distributions and allocations not claimed within five years of falling due will lapse and be paid back into the respective sub-fund or share class. If said sub-fund or share class has already been liquidated, the distributions and allocations will accrue to the remaining sub-funds of the Company or the remaining share classes of the sub-fund concerned in proportion to their respective net assets. At the proposal of the Company's Board of Directors, the general meeting may decide, in connection with the appropriation of net investment income and capital gains, to issue bonus shares. An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

### **Taxes and expenses**

#### **Taxation**

The Company is subject to Luxembourg law. In accordance with current legislation in the Grand Duchy of Luxembourg, the Company is not subject to any Luxembourg withholding, income, capital gains or wealth taxes. From the total net assets of each sub-fund, however, a tax of 0.05% p.a. ("taxe d'abonnement") payable to the Grand Duchy of Luxembourg is due at the end of every quarter (reduced taxe d'abonnement amounting to 0.01% p.a. for share classes F, I-A1, I-A2, I-A3, I-A4, I-B, I-X and U-X). This tax is calculated on the total net assets of each sub-fund at the end of every quarter. In the event that the conditions to benefit from the reduced 0.01% rate are no longer satisfied, all shares in classes F, I-A1, I-A2, I-A3, I-A4, I-B, I-X and U-X may be taxed at the rate of 0.05%.

Sub-funds may benefit from reduced taxe d'abonnement rates ranging from 0.01% to 0.04% p.a. for the portion of net assets that are invested into environmentally sustainable economic activities as defined in Article 3 of EU Regulation 2020/852 of 18 June 2020.

The taxable values provided are based on the most recently available data at the time they were calculated. Shareholders are not required, under current tax law, to pay any income, gift, inheritance or other tax in Luxembourg, unless they are domiciled or resident or maintain their usual place of abode in Luxembourg, or were previously resident in Luxembourg and hold more than 10% of the shares in the Company.

The aforementioned represents a summary of the fiscal impact and makes no claim to be exhaustive. It is the responsibility of purchasers of shares to seek information on the laws and regulations governing the purchase, possession and sale of shares in connection with their place of residence and their nationality.

### **Automatic exchange of information – FATCA and the Common Reporting Standard**

As an investment undertaking established in Luxembourg, the Company is bound by certain agreements on the automatic exchange of information – such as those described below (and others that may be introduced in future, as the case may be) – to collect specific information on its investors and their tax status, and to share this information with the Luxembourg tax authority, which may then exchange this information with the tax authorities in the jurisdictions in which the investors are resident for tax purposes.

According to the US Foreign Account Tax Compliance Act and the associated legislation ("FATCA"), the Company must comply with extensive due diligence obligations and reporting requirements, established to ensure the US Treasury is informed of financial accounts belonging to specified US persons as defined in the Intergovernmental Agreement, "IGA" between Luxembourg and the US. Failure to comply with these requirements may subject the Company to US withholding taxes on certain US-sourced income and, with effect from 1 January 2019, gross proceeds. In accordance with the IGA, the Company has been classed as "compliant" and is not charged any withholding tax if it identifies financial accounts belonging to specified US persons and immediately reports these to the Luxembourg tax authorities, which then provide this information to the US Internal Revenue Service.

Drawing extensively on the intergovernmental approach to implementing FATCA, the OECD developed the Common Reporting Standard ("CRS") to combat offshore tax evasion on a global scale. Pursuant to the CRS, financial institutions established in participating CRS jurisdictions (such as the Company) must report to their local tax authorities all personal and account information of investors, and where appropriate controlling persons, resident in other participating CRS jurisdictions that have concluded an agreement for the exchange of information with the jurisdiction governing the financial institution. Tax authorities in participating CRS jurisdictions will exchange such information on an annual basis. Luxembourg has enacted legislation to implement the CRS. As a result, the Company is required to comply with the CRS due diligence and reporting requirements adopted by Luxembourg.

In order to enable the Company to meet its obligations under FATCA and the CRS, prospective investors are required to provide the Company with information about their person and tax status prior to investment, and to update this information on an ongoing basis. Prospective investors should note that the Company is obliged to disclose this information to the Luxembourg tax authorities. The investors accept that the Company may take any action it deems necessary regarding their stake in the Company to ensure that any withholding tax incurred by the Company and any other related costs, interest, penalties and other losses and liabilities arising from the failure of an investor to provide the requested information to the Company are borne by this investor. This may include making this investor liable for any resulting US withholding taxes or penalties arising under FATCA or the CRS, and/or the compulsory redemption or liquidation of this investor's stake in the Company.

Prospective investors should consult qualified experts for tax advice regarding FATCA and the CRS and the potential consequences of such automatic exchange of information regimes.

### **"Specified US person" as defined by FATCA**

The term "specified US person" refers to any US citizen or resident of the United States, and any company or trust established in the US or under US federal or state law in the form of a partnership or corporation, provided (i) a court within the United States is authorised, pursuant to applicable law, to issue orders or pass rulings in connection with all aspects of the administration of the trust, or (ii) one or more specified US persons are authorised to take all essential decisions regarding the trust or the estate of a testator who was a US citizen or resident. The section must comply with the US Internal Revenue Code.

## **Taxation in the United Kingdom**

### **Reporting sub-funds**

Within the meaning of the UK Taxation (International and Other Provisions) Act 2010 (hereinafter the "TIOPA"), special provisions apply to investments in offshore funds. The individual share classes of these offshore funds are treated as separate offshore funds for this purpose. The taxation of shareholders in a reporting share class is different to the taxation of shareholders in non-reporting share classes. The individual taxation systems are explained below. The Board of Directors reserves the right to apply for the status of reporting fund for individual share classes.

### **Shareholders in non-reporting share classes**

Each individual share class is an offshore fund within the meaning of the TIOPA and the UK Offshore Funds (Tax) Regulations 2009 that came into force on 1 December 2009. Within this framework, all income from the sale, disposal or redemption of offshore fund units held by persons resident or ordinarily resident in the United Kingdom at the time of the sale, disposal or redemption are taxed as income and not as capital gains. However, this is not the case if the fund is approved as a reporting fund by the UK tax authorities for the period in which units are held. Shareholders who are resident or ordinarily resident in the United Kingdom for tax purposes and invest in non-reporting share classes may be obliged to pay income tax on the income from the sale, disposal or redemption of shares. Such income is therefore taxable, even if investors would be exempt from capital gains tax under general or special provisions, which may lead to some UK investors bearing a comparatively higher tax burden. Shareholders who are resident or ordinarily resident in the United Kingdom can offset losses on the disposal of shares in non-reporting share classes against capital gains.

### **Shareholders in reporting share classes**

Each individual share class is an offshore fund within the meaning of the TIOPA. Within this framework, all income from the sale, disposal or redemption of offshore fund units at the time of the sale, disposal or redemption are taxed as income and not

as capital gains. These provisions do not apply if the fund is accorded reporting fund status and maintains this status during the period in which units are held.

For a share class to qualify as a reporting fund, the Company must apply to the UK tax authorities for the inclusion of the sub-fund in this category. The share class must then report 100% of the income of the share class for each financial year. The corresponding report can be consulted by investors on the UBS website. Private investors resident in the United Kingdom should include the reportable income in their income tax return. They will then be assessed on the basis of the declared income, whether the income was distributed or not. In determining the income, the income for accounting purposes is adjusted for capital and other items and is based on the reportable income of the corresponding sub-fund. Shareholders are hereby informed that income from trading (but not from investment activities) is classified as reportable income. The key criteria is the business activity. Given the lack of clarity in the guidelines concerning the difference between trading and investment activities, there is no guarantee that the proposed activities are not trading activities. Should the activities of the Company be partly or wholly classified as trading activities, then the annual reportable income for shareholders and the corresponding tax burden would probably be significantly higher than would otherwise be the case. Provided that the relevant share class fulfils the status of a reporting sub-fund, the income from this share class will be taxed as a capital gain and not as income, unless the investor is a securities trader. Such gains may therefore be exempt from capital gains tax under general or special provisions, which may lead to some UK investors bearing a comparatively lower tax burden.

In accordance with Part 3 Chapter 6 of the Offshore Funds (Tax) Regulations 2009 (hereinafter the "**2009 Regulations**"), certain transactions of a regulated sub-fund such as the Company are generally not treated as trading activities in the calculation of reportable income for reporting sub-funds that fulfil a genuine diversity of ownership condition. In this respect, the Board of Directors confirms that all share classes are primarily for private and institutional investors and are offered to these target groups. Regarding the 2009 Regulations, the Board of Directors confirms that the shares of the Company can be easily acquired and are marketed and made available in order to reach and attract the targeted categories of investors.

The attention of persons ordinarily resident in the United Kingdom is drawn to the provisions of Part 13(2) of the Income Tax Act 2007 ("Transfer of Assets Abroad"), which provide that under certain circumstances, these persons may be subject to income tax in connection with non-distributed income and profits arising on investments in sub-fund(s), or similar income and profits, which is not receivable in the United Kingdom by those persons.

In addition, it is important to note the provisions of Section 13 of the Taxation of Chargeable Gains Act of 1992, which govern the distribution of chargeable gains of companies that are not resident in the United Kingdom and that would be considered "close companies" if they were resident in the UK. These gains are distributed to investors who are domiciled or have their ordinary place of residence in the UK. Profits distributed in this manner are taxable for all investors holding a share of more than 10% of the distributed profit either individually or together with associated persons.

The Company intends to make all reasonable efforts to ensure that the sub-fund or sub-funds are not classed as a "close company" within the meaning of Section 13 of the Taxation of Chargeable Gains Act if domiciled in the United Kingdom. Moreover, when determining the impact of Section 13 of the Taxation of Chargeable Gains Act of 1992, it is important to ensure that the regulations of the double taxation treaty between the United Kingdom and Luxembourg are taken into account.

### **PRC tax considerations**

For the purposes of this section of the sales prospectus: (i) "sub-fund" refers to the sub-funds investing directly or indirectly in QFII/QFI eligible securities through the Portfolio Manager's QFII and/or QFI status or through the QFII and/or QFI status of any other entity within the UBS group, or investing in PRC onshore bonds that are traded directly on the CIBM or through Bond Connect; and (ii) "Portfolio Manager" refers to the Portfolio Manager and any other entity within the UBS group, as the context may require.

Pursuant to the current provisions in the PRC, foreign investors, including the sub-funds, generally invest in Chinese A shares and certain other investment products through a QFII or QFI, or via Stock Connect, or invest in onshore bonds in the PRC directly through the CIBM or through Bond Connect. By investing in PRC securities, the sub-fund may be subject to withholding tax and other taxes imposed by the PRC tax authorities.

#### PRC Corporate Income Tax ("CIT")

If the sub-fund is considered tax resident in the PRC, it will be subject to corporate income tax ("CIT") of 25% on its worldwide taxable income. If the sub-fund is considered non-tax resident in the PRC with a place of establishment ("PE") in the PRC, the profits attributable to that PE are subject to CIT of 25%.

Under the CIT Act in force in the PRC since 1 January 2008, a company that is non-tax resident in the PRC without a PE in the PRC will generally be subject to withholding income tax ("WIT") of 10% on the income earned in the PRC, including but not limited to passive income (e.g. dividends, interest, gains arising from transfer of assets, etc.).

The Portfolio Manager intends to manage and operate the sub-fund in such a manner that the sub-fund will not be treated as tax resident in the PRC or non-tax resident with a PE in the PRC for CIT purposes. although due to uncertainty surrounding the tax laws and practices in the PRC, this result cannot be guaranteed.

#### *(i) Interest and dividends*

Under current PRC tax laws and regulations, QFIIs/QFIs are subject to PRC WIT of 10% on cash and bonus dividends, profits distributions and interest payments from companies listed in the PRC. Such WIT levied in the PRC may possibly be reduced under an applicable double tax treaty or exempt from tax pursuant to a provision of domestic tax law. On 22 November 2018, the Ministry of Finance ("MOF") and the State Administration of Taxation ("SAT") of the PRC jointly released the Caishui [2018] No 108 circular ("Circular 108") to address the tax issues in relation to interest income on bonds earned by foreign institutional investors from investments in the PRC bond market In accordance with Circular 108, interest income on bonds earned by

foreign institutional investors with no PE in the PRC (or with a PE in the PRC, but where such income generated in the PRC is not effectively related to that PE) between 7 November 2018 and 6 November 2021 is temporarily exempt from CIT. Further to Circular 108, on 22 November 2021, the MOF and the STA jointly released MOF/STA PN [2021] No. 34 ("PN 34"), which extended the exemption up to 31 December 2025. As this exemption is only temporary according to Circular 108 and PN 34, it remains unclear whether such an exemption will also apply after 31 December 2025.

Interest on government bonds issued by the competent Finance Bureau of the State Council and/or local government bonds approved by the State Council is exempt from PRC CIT under the CIT Act in force in the PRC.

#### *(ii) Capital gains*

Based on the CIT Act and its implementation rules, "income from the transfer of property" earned in the PRC by companies that are non-tax resident in the PRC should be subject to 10% WIT in the PRC unless exempt or taxable at a reduced rate under an applicable tax treaty.

On 14 November 2014, the MOF, the SAT and the CSRC of the PRC jointly released Caishui [2014] No. 79 ("Circular 79") to address the tax issues in relation to capital gains on equity investments earned by QFIIs and QFIs. Under Circular 79, for QFIIs/QFIs (without a PE in the PRC or with a PE in the PRC but the income earned in China is effectively not connected with that PE) such capital gains were temporarily exempt from WIT in the PRC if they were realised on or after 17 November 2014, and subject to 10% WIT in the PRC in accordance with the applicable law if they were realised before 17 November 2014. Circular 79 did not offer any further guidance concerning the question as to whether the temporary exemption applies to securities other than A shares.

In the absence of specific regulations, the application of CIT is governed by the general tax provisions of CIT law in the PRC. With regard to the capital gains on the disposal of PRC debt instruments, the PRC tax authorities have verbally indicated on numerous occasions that such gains are not considered to have been made in the PRC and are therefore not subject to the WIT applicable in the PRC. However, there is no specific written tax provision confirming this. In practice, no WIT is currently applied to capital gains made by foreign investors from trading PRC debt instruments. Should the PRC tax authorities decide to tax such income in the future, the portfolio manager would request the PRC tax authorities to treat the sub-fund as tax resident in Luxembourg and invoke the capital gains tax exemption provided for in the double taxation treaty between the PRC and Luxembourg, although this cannot be guaranteed.

#### Value added tax ("VAT") in the PRC

According to Caishui [2016] No. 36 circular ("Circular 36") on the last phase of the VAT reform that came into force on 1 May 2016, gains on the transfer of PRC onshore securities became subject to VAT as of 1 May 2016.

According to Circular 36 and Caishui [2016] No. 70 circular ("Circular 70"), gains realised by QFIIs/QFIs from the transfer of PRC debt instruments have been exempt from value added tax since 1 May 2016.

According to Circular 36, interest income earned by QFIIs/QFIs on investments in PRC onshore bonds are subject to 6% VAT where no special exemption applies (see notes to Circular 108 below). According to Circular 36, interest income on deposits is not subject to VAT, and interest income on government bonds is exempt from VAT. Circular 108 provides for the exemption from VAT on interest income on bonds earned by foreign institutional investors investing in the Chinese bond market between 7 November 2018 and 6 November 2021, which has been further extended up to 31 December 2025 in accordance with PN34. As this exemption under Circular 108 and PN34 is only temporary, it remains unclear whether such an exemption will also apply after 31 December 2025. Where VAT is payable, additional taxes also apply (including the urban construction and maintenance tax, the education surcharge and the regional education surcharge) amounting to up to 12% of the applicable VAT.

#### Stamp duty in the PRC

The seller will be liable for stamp duty at the rate of 0.1% of the proceeds on the sale of shares listed in the PRC. No stamp duty is expected to be imposed on holders of government and corporate bonds who are non-tax resident in the PRC, either upon issuance or upon subsequent transfer of such bonds.

#### Investments in Chinese A shares via Stock Connect

On 14 November 2014 and 2 December 2016, the MOF, the SAT and the CSRC jointly released Caishui [2014] No. 81 ("Circular 81") and Caishui [2016] No. 127 ("Circular 127") in order to clarify questions concerning taxation in the PRC in relation to Stock Connect. According to Circular 81 and Circular 127, capital gains realised by foreign investors from trading in A shares through Stock Connect are temporarily exempt from CIT applicable in the PRC and from VAT. Foreign investors are obliged to pay the 10% WIT on dividends applicable in the PRC. This will be withheld by companies listed in the PRC and remitted to the competent tax authorities in the PRC. Investors resident for tax purposes in a country that has concluded a tax treaty with the PRC can apply for a refund of any excess WIT paid in the PRC, provided the relevant tax treaty stipulates a lower rate of WIT for dividends in the PRC than the one paid.

The sub-fund is subject to stamp duty applicable in the PRC of 0.1% of the sales proceeds from the disposal of A shares through Stock Connect.

## **Tax-related risk factors in the PRC**

### Tax considerations for Chinese A shares and other securities

There are risks and uncertainties associated with the applicable tax laws and regulations and the current tax practice in the PRC for capital gains and interest income realised for the sub-fund's investments in PRC securities (that may apply retroactively). A high tax liability for the sub-fund may have a negative effect on the sub-fund's value. The following principles formed on the basis of independent, professional tax advice apply to the creation of tax provisions for the sub-fund:

- (i) For the 10% WIT, a provision is made for non-government PRC onshore bonds for any interest income earned before 7 November 2018 that was not subject to the WIT as a withholding tax by the issuer in the PRC.
- (ii) For the 6.3396% VAT (including surcharges), a provision is made for non-government PRC onshore bonds for any interest income earned before 7 November 2018 that was not subject to the VAT as a withholding tax by the issuer in the PRC (this VAT regime is applicable as of 1 May 2016).

In the event of any further changes to tax law or regulations, as soon as practicable, the Board of Directors (in consultation with the Portfolio Manager) will make the adjustments to the amount of tax provision they consider necessary. The amount of any such tax provision will be disclosed in the accounts of individual sub-funds.

Investors should take account of the following: if the actual tax levied by the PRC tax authorities is greater than that set aside by the Portfolio Manager so that there is a shortfall in the tax provision amount, the net asset value of the sub-fund may fall by more than the tax provision amount as the sub-fund ultimately has to bear the additional tax liabilities. In this case, the current and new shareholders will be placed at a disadvantage. If the actual applicable tax levied by the PRC tax authorities is less than that set aside by the Board of Directors so that there is a surplus in the tax provision amount, shareholders who have redeemed their shares before the PRC tax authorities' ruling, decision or guidance in this respect will be disadvantaged as they would have borne the loss from the overprovision. In this case, the current and new shareholders may benefit if the difference between the tax provision and the actual tax liability can be returned to the sub-fund.

## **Partial exemption under the German Investment Tax Act of 2018**

In addition to the investment restrictions set out in the sub-fund's special investment policy, the Management Company shall take into account the provisions on partial exemption pursuant to Section 20(1) and (2) of the German Investment Tax Act of 2018 ("InvStG") when managing the sub-funds listed below.

In the case of investments in target investment funds, these target investment funds are taken into account by the sub-funds when calculating their equity participation rate. Insofar as such data is available, the equity participation ratios of the target funds, which are calculated and published at least weekly, are taken into account in this calculation in accordance with Section 2(6) or (7) of the German Investment Tax Act.

For this reason, the following sub-funds will continuously invest at least 50% of their respective assets in equity investments (as defined in Section 2(8) of the German Investment Tax Act and related guidelines) in order to qualify as "**Equity funds**" within the meaning of Section 2(6) of the German Investment Tax Act for the partial exemption pursuant to Section 20(1) of the above Act.

- UBS (Lux) Key Selection SICAV – Asian Equities (USD)
- UBS (Lux) Key Selection SICAV – Digital Transformation Themes (USD)
- UBS (Lux) Key Selection SICAV – European Equity Value Opportunity (EUR)
- UBS (Lux) Key Selection SICAV – Global Equities (USD)
- UBS (Lux) Key Selection SICAV – Global Equity Value Opportunity (USD)

The following sub-funds will continuously invest at least 25% of their respective assets in equity investments (as defined in Section 2(8) of the German Investment Tax Act and related guidelines) in order to qualify as a "**mixed fund**" within the meaning of Section 2(7) of the German Investment Tax Act for the partial exemption pursuant to Section 20(2) of the German Investment Tax Act.

- UBS (Lux) Key Selection SICAV – China Equity Unconstrained (USD)
- UBS (Lux) Key Selection SICAV – Digital Transformation Dynamic (USD)

All sub-funds other than those specifically mentioned above are to be considered "**other funds**" within the meaning of the German Investment Tax Act.

German investors should consult their tax advisor regarding the tax consequences of an investment in an "equity fund", a "mixed fund" or an "other fund" under the German Investment Tax Act.

## **DAC 6 – Disclosure requirements for reportable cross-border tax arrangements**

On 25 June 2018, Council Directive (EU) 2018/822 ("DAC 6") entered into force, which introduces rules on the mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements. DAC 6 is designed to give the tax authorities of EU Member States access to comprehensive and relevant information on potentially aggressive tax-planning arrangements, and to enable them to react promptly against harmful tax practices and to close loopholes by enacting legislation or by undertaking adequate risk assessments and carrying out tax audits

Although the commitments under DAC 6 only apply from 1 July 2020, it may be necessary to notify arrangements implemented between 25 June 2018 and 30 June 2020. The Directive requires intermediaries in the EU to provide information on reportable cross-border arrangements, including details of the arrangement and information identifying the intermediaries and relevant taxpayers involved, i.e. the persons to whom the reportable cross-border arrangement is made available, to the relevant local tax authorities. The local tax authorities then exchange this information with the tax authorities of other EU Member States. The company may therefore be required by law to provide the competent tax authorities with information known to it, in its possession or under its control about cross-border arrangements that are subject to reporting requirements. This legislation may also concern schemes which are not necessarily aggressive tax planning.

### **Expenses paid by the Company**

The Company pays a maximum monthly flat fee for share classes "P", "N", "K-1", "F", "Q", "QL", "A", "I-A1", "I-A2", "I-A3" and "I-A4", calculated on the average net asset value of the sub-funds.

This shall be used as follows:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the Company is paid from the Company's assets for the management, administration, portfolio management, investment advice, and distribution of the Company (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Company's assets, the processing of payment transactions and all other tasks listed in the "Depositary and Main Paying Agent" section: This fee is charged to the Company's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee). The maximum flat fee for share classes with "hedged" in their name may include foreign exchange risk hedging charges. The relevant maximum flat fee will not be charged until the corresponding share classes have been launched. An overview of the maximum flat fees can be found under "The sub-funds and their special investment policies".  
The maximum flat fee effectively applied can be found in the annual and semi-annual reports.
2. The maximum flat fee does not include the following fees and additional expenses, which are also charged to the Company's assets:
  - a) All additional expenses related to management of the Company's assets for the sale and purchase of assets (bid-ask spread, brokerage fees in line with the market, commissions, fees, etc.). As a rule, these expenses are calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the single swing pricing principle pursuant to the section titled "Net asset value, issue, redemption and conversion price".
  - b) Fees of the supervisory authority for the establishment, modification, liquidation and merger of the Company, as well as all charges payable to the supervisory authorities and any stock exchanges on which the sub-funds are listed;
  - c) Auditor's fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Company, as well as any other fees paid to the audit firm for the services it provides in relation to the administration of the Fund as permitted by law;;
  - d) Fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Company, as well as for the general safeguarding of the interests of the Company and its investors, insofar as this is not expressly prohibited by law;
  - e) Costs for the publication of the Company's net asset value and all costs for notices to investors, including translation costs;
  - f) Costs for the Company's legal documents (prospectuses, KIDs, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
  - g) Costs for the Company's registration with any foreign supervisory authorities, if applicable, including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
  - h) Expenses incurred through use of voting or creditors' rights by the Company, including fees for external advisers;

- i) Costs and fees related to any intellectual property registered in the Company's name or to the Company's rights of usufruct;
- j) All expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
- k) If the Management Company participates in class-action suits in the interests of investors, it may charge the Company's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable, and published and/or taken into account in the disclosure of the Company's total expense ratio (TER).
- l) Fees, costs and expenses payable to the directors of the Company (including reasonable out-of-pocket expenses, insurance coverage and reasonable travel expenses in connection with meetings of the Board and remuneration of directors);

3. The Management Company may pay retrocessions to cover the distribution activities of the Company.

4. The Management Company or its agents may pay out rebates directly to investors. Rebates serve to reduce the cost attributable to investors concerned.

Rebates are permitted provided that they:

- are paid out of fees of the Management Company or its agents and thus do not additionally impair the assets of the sub-fund;
- are granted on the basis of objective criteria;
- are granted to the same extent to all investors who meet the objective criteria equally and demand rebates;
- increase the quality of the service for which the rebate is granted (e.g. by contributing to higher assets of the sub-fund that can lead to a more efficient management of the assets and a reduced liquidation probability of the sub-fund and/or a reduction of the fixed costs pro rata for all investors) and all investors bear their fair share of the sub-fund's fees and costs.

The objective criterion for granting rebates is:

- the total assets held by the investor in the share class of the sub-fund that qualifies for rebates;

Additional criteria may be:

- the total assets in UBS collective investment schemes held by the investor and/or
- the region where the investor is domiciled.

Upon request of the investor, the Management Company or its agents shall disclose the corresponding amount of the rebates free of charge.

All taxes levied on the income and assets of the Company, particularly the taxe d'abonnement, will also be borne by the Company

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

For share class "I-B", a fee is charged to cover the costs of fund administration (comprising the costs of the Company, the UCI Administrator and the Depositary). The costs for asset management and distribution are charged outside of the Company under a separate contract concluded directly between the shareholder and UBS Asset Management Switzerland AG or one of its authorised representatives.

Costs relating to the services performed for share classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Company, the UCI Administrator and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled to under a separate contract with the shareholder. Costs relating to the services to be performed for share classes "K-B" for asset management purposes are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised distribution partners is entitled under a separate contract with the investor.

All costs that can be allocated to specific sub-funds will be charged to those sub-funds.

Costs that can be attributed to individual share classes will be charged to these share classes. If costs are incurred in connection with several or all sub-funds/share classes, however, these costs will be charged to these sub-funds/share classes in proportion to their relative net asset values.

With regard to sub-funds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the relevant target fund as well as at the level of the sub-fund.

The management fees (excluding performance fees) of the target fund in which the assets of the sub-fund are invested may amount to a maximum of 3.00%, taking into account any trailer fees.

Should a sub-fund invest in units of funds that are managed directly or by delegation by the Management Company or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue or redemption charges may be charged to the investing sub-fund in connection with these target fund units.

Details of the Company's ongoing costs (or ongoing charges) can be found in the KIDs.

## **Information for shareholders**

### **Regular reports and publications**

An annual report is published for each sub-fund and for the Company as at 30 September and a semi-annual report as at 31 March.

The aforementioned reports contain a breakdown of each sub-fund, or respectively, each share class in the relevant currency of account. The consolidated breakdown of assets for the Company as a whole is given in EUR.

The annual report, which is published within four months of the end of the financial year, contains the annual accounts audited by the independent auditors. It also contains details on the underlying assets to which the respective sub-funds are exposed through the use of derivative financial instruments and the counterparties involved in these derivative transactions, as well as the amount and type of collateral provided in favour of the sub-fund by the counterparties in order to reduce the credit risk. These reports are available to shareholders at the registered office of the Company and the Depositary.

The issue and redemption prices of the shares of each sub-fund are made available in Luxembourg at the registered office of the Company and the Depositary.

Notices to shareholders will be published at [www.ubs.com/ame-investornotifications](http://www.ubs.com/ame-investornotifications) and can be sent by email to those shareholders who have provided an email address for this purpose. Paper copies of such notices will be mailed to those shareholders who have not provided an email address at the postal address recorded in the shareholder registry. Paper copies will also be mailed to shareholders where required by Luxembourg law or supervisory authorities, or legally required in the relevant countries of distribution, and/or published in another form permitted by Luxembourg law.

### **Inspection of documents**

The following documents are kept at the registered office of the Company and/or Management Company, where they can be viewed:

1. The Articles of Incorporation of the Company and the Management Company
2. Depositary Agreement
3. Portfolio Management Agreement
4. Management Company Agreement
5. UCI Administrator Agreement

The aforementioned agreements may be amended by common consent of the parties involved.

Investors may obtain the Prospectus, the KIDs, the latest annual and semi-annual reports and copies of the Articles of Incorporation at [www.ubs.com/funds](http://www.ubs.com/funds).

### **Handling complaints, strategy for exercising voting rights and best execution**

In accordance with Luxembourg laws and regulations, the Management Company provides additional information on procedures for handling complaints and best execution, as well as the strategy for exercising voting rights on the following website:

[www.ubs.com/ame-regulatorydisclosures](http://www.ubs.com/ame-regulatorydisclosures)

### **Remuneration policy of the Management Company**

The Board of Directors of the Management Company has adopted a remuneration policy that aims to ensure remuneration complies with the applicable regulations – in particular the provisions defined under (i) UCITS Directive 2014/91/EU, the ESMA final report on sound remuneration policies under the UCITS Directive and AIFMD published on 31 March 2016, (ii) the Alternative Investment Fund Managers (AIFM) Directive 2011/61/EU, enacted into Luxembourg national law by the AIFM Law of 12 July 2013, as amended, the ESMA guidelines on sound remuneration policies under the AIFMD, published on 11 February 2013 and (iii) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector, issued on 1 February 2010 – as well as the guidelines of the UBS Group AG remuneration policy. This remuneration policy is reviewed at least annually.

The remuneration policy promotes a solid and effective risk management framework, is aligned with the interests of investors, and prevents risks from being taken that do not comply with the risk profiles, the Management Regulations, or the Articles of Incorporation of this UCITS/AIF. The remuneration policy also ensures compliance with the strategies, objectives, values and interests of the Management Company and the UCITS/AIF, including measures to prevent conflicts of interest. Furthermore, this approach aims to:

- Evaluate performance over a multi-year period that is suitable to the recommended holding period of investors in the sub-fund, in order to ensure that the evaluation process is based on the Company's long-term performance and investment risks, and that performance-related remuneration is actually paid out over the same period;
- Provide employees with remuneration that comprises a balanced mix of fixed and variable elements. The fixed remuneration component represents a sufficiently large portion of the total remuneration amount, which allows for a flexible bonus strategy. This includes the option not to pay any variable remuneration. This fixed remuneration is determined according to the individual employee's role, which includes their responsibilities and the complexity of their work, their performance, and the local market conditions. Furthermore, it should be noted that the Management Company may, at its own discretion, offer benefits to employees. These form an integral part of the fixed remuneration.

All information relevant hereto shall be disclosed in the annual reports of the Management Company in accordance with the provisions of UCITS Directive 2014/91/EU.

Investors can find more details about the remuneration policy, including, but not limited to, the description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee (if any), are available on [http://www.ubs.com/lu/en/asset management/investor information.html](http://www.ubs.com/lu/en/asset%20management/investor%20information.html).

This information can also be requested in hard copy from the Management Company free of charge.

### **Conflicts of interest**

The Board of Directors, the Management Company, the Portfolio Manager, the Depositary, the UCI Administrator and the other service providers of the Company, and/or their respective affiliates, associates, employees or any person connected with them may be subject to various conflicts of interest in their relationships with the Company.

The Management Company, the Company, the Portfolio Manager, the UCI Administrator and the Depositary have adopted and implemented a policy on conflicts of interest. They have taken suitable organisational and administrative measures to identify and manage conflicts of interest so as to minimise the risk of the Company's interests being prejudiced, as well as to ensure that the Company's shareholders are treated fairly in the event that a conflict of interest cannot be prevented.

The Management Company, the Depositary, the Portfolio Manager, the principal distributor, the Securities Lending Agent and the Securities Lending Service Provider are part of the UBS Group (the "**Affiliated Person**").

The Affiliated Person is a global, full-service private banking, investment banking, asset management and financial services organisation that is a major player in the global financial markets. As such, the Affiliated Person is engaged in various business activities and may have other direct or indirect interests in the financial markets in which the Company invests.

The Affiliated Person (as well as its subsidiaries and branches) may serve as the counterparty in financial derivative contracts entered into with the Company. Conflicts of interest may also potentially arise if the Depositary is closely associated with a legally independent entity of the Affiliated Person that provides other products or services to the Company.

In the conduct of its business, the Affiliated Person shall endeavour to identify, manage and where necessary prohibit any action or transaction that may lead to a conflict of interest between the various business activities of Affiliated Person and the Company or its shareholders. The Affiliated Person endeavours to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. To this end, the Affiliated Person has implemented procedures to ensure that any business activities giving rise to a conflict that could harm the interests of the Company or its shareholders are carried out with an appropriate level of independence and that any conflicts are resolved fairly. Investors may obtain additional information on the Management Company and/or the Company's policy on conflicts of interest free of charge by addressing a written request to the Management Company.

Despite the Management Company's best efforts and due care, there remains the risk that the organisational or administrative measures taken by the Management Company for the management of conflicts of interest may not be sufficient to ensure, with reasonable confidence, that all risks of damage to the interests of the Company or its shareholders are eliminated. If this should be the case, any non-mitigated conflicts of interest and any decisions taken in relation thereto will be notified to investors on the following website of the Management Company: [http://www.ubs.com/lu/en/asset management/investor information.html](http://www.ubs.com/lu/en/asset%20management/investor%20information.html).

This information is also available free of charge at registered office of the Management Company.

In addition, it must be taken into account that the Management Company and the Depositary are members of the same group. Accordingly, both these entities have put in place policies and procedures to ensure that they (i) identify all conflicts of interests arising from this relationship and (ii) take all reasonable steps to avoid such conflicts of interest.

Where a conflict of interest arising out of the relationship between the Management Company and the Depositary cannot be avoided, the Management Company or the Depositary will manage, monitor and disclose that conflict of interest in order to prevent adverse effects on the interests of the Company and of the shareholders.

A description of all custody tasks delegated by the Depositary, as well as a list of all delegates and sub-delegates of the Depositary can be found on the following webpage: <https://www.ubs.com/global/en/legalinfo2/luxembourg.html>. Up-to-date information on this will be made available to investors upon request.

#### **Refinitiv**

Refinitiv Index powered by Refinitiv information and calculated by Refinitiv.

#### **Benchmark Regulation**

The indices used by the sub-funds as benchmarks ("use" defined in accordance with Regulation (EU) 2016/1011, hereinafter the "Benchmark Regulation") as at the date of this Sales Prospectus are provided by:

(i) benchmark administrators included in the register of administrators and benchmarks kept by ESMA in accordance with Article 36 of the Benchmark Regulation. Up-to-date information on whether the benchmark is provided by an administrator listed in ESMA's register of EU benchmark administrators and third-country benchmarks is available at <https://registers.esma.europa.eu> and/or

(ii) benchmark administrators authorised under the UK Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019 ("UK Benchmarks Regulations"), who have third-country benchmark administrator status within the meaning of the Benchmarks Regulations and are listed on a register of administrators and benchmarks maintained by the FCA and available at <https://register.fca.org.uk/BenchmarksRegister>; and/or

(iii) benchmark administrators to whom the transitional arrangements under the Benchmark Regulation apply and, consequently, are not yet included in the register of administrators and benchmarks kept by the ESMA.

The transition period for benchmark administrators and the period in which they must apply for authorisation or registration as an administrator under the Benchmarks Regulation depend both on the classification of the benchmark concerned and on the domicile of the benchmark administrator.

In the event of significant changes to or the cessation of a benchmark, the Management Company has a written contingency plan that includes the measures to be taken in such a case, as required by Article 28(2) of the Benchmark Regulation. Shareholders can consult this contingency plan free of charge at the registered office of the Management Company.

## **Data protection**

In accordance with the provisions of the Luxembourg Law of 1 August 2018 on the organisation of the National Data Protection Commission and the general data protection framework, as amended, and Regulation (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (the "data protection legislation"), the Company acts as a data controller and collects, stores and processes, by electronic or other means, the data provided by investors for the purpose of performing the services required by investors and in order to meet the Company's legal and supervisory obligations.

The data processed includes in particular the investor's name, contact details (including their postal or email address), bank account details, the amount and the nature of the investments in the Company (and if the investor is a legal entity, the data of natural persons connected with this legal entity, such as its contact person(s) and/or beneficial owner(s)) ("personal data"). Investors may decline to transfer personal data to the Company at their own discretion. However, in this case the Company is entitled to reject orders to subscribe shares.

Investors' personal data is processed when they enter into a relationship with the Company and in order to carry out the subscription of shares (i.e. to fulfil a contract), to safeguard the Company's legitimate interests and to meet the Company's legal obligations. Personal data is processed for the following purposes in particular: (i) to carry out subscriptions, redemptions and conversions of shares, pay dividends to investors and administer client accounts; (ii) to manage client relationships; (iii) to carry out checks relating to excess trading and market timing practices and for tax identification that may be mandated by Luxembourg or foreign legislation and regulations (including laws and regulations relating to FATCA and the CRS); (iv) to comply with applicable anti-money laundering regulations. Data provided by shareholders is also processed (v) to administer the Company's register of shareholders. In addition, personal data may be used (vi) for marketing purposes.

The above-mentioned legitimate interests include:

- the purposes listed in points (ii) and (vi) of the previous paragraph of this data protection section for which data may be processed;
- meeting the accounting and supervisory obligations of the Company in general;
- carrying out the Company's business in accordance with appropriate market standards.

For this purpose and in accordance with the provisions of the data protection legislation, the Company may transfer personal data to its data recipients (the "recipients"), who may be affiliated or external companies that assist the Company in its activities in relation to the above-mentioned purposes. These include in particular the management company, the UCI Administrator, the distributors, the depositary, the paying agent, the investment manager, the domiciliary agent, the global distributor, the auditor and the legal advisor of the Company.

The recipients may pass on the personal data on their own responsibility to their representatives and/or agents (the "sub-recipients"), who may process the personal data solely for the purpose of assisting the recipients in performing their services for the Company and/or in meeting their legal obligations.

The recipients and sub-recipients may be located in countries inside or outside the European Economic Area (EEA) where data protection legislation may not provide an appropriate level of protection.

When transferring personal data to recipients and/or sub-recipients located in a country outside the EEA which does not have appropriate data protection standards, the Company shall establish contractual safeguards to ensure that investors' personal data is afforded the same protection as that provided by the data protection legislation and may use the model clauses approved by the European Commission to do so. Investors are entitled to request copies of the relevant documents that enable the transfer of personal data to these countries by sending a written request to the Company's address listed above.

When subscribing to shares, every investor is explicitly reminded that their personal data may be transferred to and processed by the above-mentioned recipients and sub-recipients, including companies located outside the EEA and in particular in countries that may not offer an appropriate level of protection.

The recipients and sub-recipients may process the personal data as processors when handling the data on the Company's instructions, or as controllers in their own right when processing the personal data for their own purposes, i.e. to meet their own legal obligations. The Company may also transfer personal data to third parties in accordance with the applicable legislation and regulations, such as government and supervisory authorities, including tax authorities inside or outside the EEA. In particular, personal data may be passed on to the Luxembourg tax authorities which in turn act as controllers and can forward this data to foreign tax authorities.

In accordance with the provisions of the data protection legislation, every investor has the right, by sending a written request to the Company's address listed above, to the following:

- Access to their personal data (i.e. the right to obtain confirmation from the Company as to whether their personal data is being processed, the right to obtain certain information as to how the fund processes their personal data, the right of access to such data and the right to obtain a copy of the personal data processed (subject to any statutory exemptions));
- Rectification of their personal data if it is inaccurate or incomplete (i.e. the right to oblige the Company to update or correct inaccurate or incomplete personal data or factual errors accordingly);
- Restriction of the use of their personal data (i.e. the right to request that the processing of their personal data is restricted to the storage of such data in certain circumstances until they give consent);
- Objecting to the processing of their personal data, including to the processing of their personal data for marketing purposes (i.e. the right to object, on grounds relating to the specific situation of the investor, to the processing of personal data based on the performance of a task carried out in the public interest or the legitimate interests of the

Company; the Company terminates such processing unless it can prove that there are compelling legitimate grounds for the processing which override the interests, rights and freedoms of the investor or that they need to process the data for the establishment, exercise or defence of legal claims);

- Deletion of their personal data (i.e. the right to request the erasure of personal data under certain conditions, including when processing of such data by the Company is no longer necessary in relation to the purposes for which it was collected or processed);
- Data portability (i.e. the right, if technically feasible, to request the transfer of the data to the investor or another controller in a structured, widely used and machine-readable format).

Investors also have the right to lodge a complaint with the National Data Protection Commission at 1, Avenue du Rock'n'Roll, L-4361 Esch-sur-Alzette, Grand Duchy of Luxembourg, or with another national data protection authority if they are resident in another Member State of the European Union.

Personal data will not be stored for longer than required for the purpose for which the data is being processed. The relevant statutory time limits for data storage shall apply.

### **Liquidation of the Company and its sub-funds; merger of sub-funds**

#### **Liquidation of the Company and its sub-funds**

The Company may be dissolved at any time by the general meeting of shareholders in due observance of the legal provisions governing the quorum and majority voting requirements.

If the total net assets of the Company fall below two thirds or one quarter of the prescribed minimum capital, the Board of Directors of the Company must ask for a vote by the general meeting of shareholders on whether to liquidate the Company. If the Company is liquidated, it will be wound up by one or more liquidators. These shall be designated by the general meeting of shareholders, which will also determine their remuneration and the scope of the powers granted to them. The liquidators will realise the Company's assets in the best interests of the shareholders and distribute the net proceeds from the liquidation of these sub-funds to the shareholders of these sub-funds or share classes in proportion to their respective holdings. Any liquidation proceeds which cannot be distributed to the shareholders at the end of the liquidation process (which can take up to nine months), will be deposited immediately at the Caisse de Consignation in Luxembourg.

Defined maturity sub-funds are automatically wound up and liquidated upon expiry of their respective terms.

If the total net asset value of a sub-fund, or share class within a sub-fund, has fallen below or failed to reach a value required for that sub-fund or share class to be managed with economic efficiency; or in the event of a substantial change in the political, economic and monetary environment; or as part of a rationalisation; the general meeting of shareholders or the Board of Directors of the Company may decide to redeem all shares of the corresponding share class(es) at the net asset value (taking into account the actual investment realisation rates and expenses) as at the valuation day or time at which the decision takes effect.

The provisions of the section "General meeting of the Company or of the shareholders of the relevant sub-fund" shall apply accordingly to the decision of the general meeting of shareholders. The Board of Directors may also dissolve and liquidate a sub-fund or share class in accordance with the provisions described in the above sentence.

The shareholders of the respective sub-fund will be informed of the decision taken by the general meeting of shareholders or the Company's Board of Directors to redeem shares in the manner described above in the section titled "Regular reports and publications".

#### **Merger of the Company or of sub-funds with another undertaking for collective investment ("UCI") or with a sub-fund thereof; merger of sub-funds**

"**Mergers**" are transactions in which

- a) one or more UCITS or sub-funds of such UCITS (the "**absorbed UCITS**"), upon being wound up without liquidation, transfer all assets and liabilities to another existing UCITS or a sub-fund of that UCITS (the "**absorbing UCITS**"), and the shareholders of the absorbed UCITS receive in return shares in the absorbing UCITS and, if applicable, a cash payment not exceeding 10% of the net asset value of such shares;
- b) two or more UCITS or sub-funds of such UCITS (the "**absorbed UCITS**"), upon being wound up without liquidation, transfer all their assets and liabilities to another UCITS formed by them or a sub-fund of that UCITS (the "**absorbing UCITS**"), and the shareholders of the absorbed UCITS receive in return shares in the absorbing UCITS and, if applicable, a cash payment not exceeding 10% of the net asset value of such shares;
- c) one or more UCITS or sub-funds of such UCITS (the "**absorbed UCITS**") that continue to exist until liabilities have been paid off transfer all net assets to another sub-fund of the same UCITS, to another UCITS formed by them or to another existing UCITS or a sub-fund of that UCITS (the "**absorbing UCITS**").

Mergers are permissible under the conditions provided for in the Law of 2010. The legal consequences of a merger are defined in the Law of 2010.

Under the conditions described in the section "Liquidation of the Company and its sub-funds", the Board of Directors of the Company may decide to allocate the assets of a sub-fund or of a share class to another existing sub-fund or share class of the Company, or to another Luxembourg UCI pursuant to Part I of the Law of 2010, or to a foreign UCITS pursuant to the provisions of the Law of 2010; and to redesignate the shares of the sub-fund or share class in question as shares of another sub-fund or of another share class (as a result of the scission or consolidation, if necessary, and through the payment of an amount that corresponds to the pro rata entitlement of the shareholders). Notwithstanding the powers of the Board of Directors of the Company mentioned in the previous section, the decision to merge sub-funds, as described above, may also be taken by the general meeting of the shareholders of the sub-fund in question.

Shareholders will be informed of any such decision in the manner described above in the section entitled "Regular reports and publications". During the 30 days following the notification of such a decision, shareholders will have the right to redeem all or part of their shares at the prevailing net asset value, free of redemption charge or other administrative charges, in accordance with the established procedure outlined under "Redemption of shares". Shares not presented for redemption will be exchanged based on the net asset values of the sub-funds concerned, calculated for the same day as the one used to determine the conversion ratio. If units in an investment fund established as a "fonds commun de placement" are allocated, the decision is binding only for the investors who voted in favour of the allocation.

#### **General meeting of the Company or of the shareholders of the relevant sub-fund**

For both the liquidation and merger of sub-funds, no minimum quorum is required at the General meeting of the Company or of the shareholders of the relevant sub-fund, and decisions can be approved by a simple majority of the shares present or represented at this general meeting.

#### **Applicable law, place of performance and legally binding document language**

The Luxembourg District Court shall have jurisdiction to hear all legal disputes between the shareholders, the Company, the Management Company and the Depositary. Luxembourg law shall apply. However, in matters concerning the claims of investors from other countries, the Company and/or the Depositary may elect to make themselves subject to the jurisdiction of the countries in which the shares were bought and sold.

Only the English version of this Sales Prospectus shall be legally binding. However, the Company and the Depositary may recognise translations (they themselves have approved) into the languages of the countries in which shares are offered or sold to investors as binding upon themselves in matters concerning those shares.

#### **Investment principles**

The following conditions also apply to the investments made by each sub-fund:

##### **1. Permitted investments of the Company**

- 1.1 The investments of the Company may consist exclusively of one or more of the following components:
  - a) Securities and money market instruments that are listed or traded on a "regulated market" as defined in Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments;
  - b) Securities and money market instruments that are traded in a Member State on another market which is recognised, regulated, operates regularly and is open to the public. The term "**Member State**" designates a member country of the European Union; countries that are parties to the agreement on the European Economic Area but are not Member States of the European Union are considered equivalent to Member States of the European Union, within the limits of said agreement and its related agreements;
  - c) Securities and money market instruments admitted to official listing on a stock exchange in a non-Member State or traded on another market of a European, American, Asian, African or Australasian country (hereinafter "**approved state**") which operates regularly and is recognised and open to the public;
  - d) Newly issued securities and money market instruments, provided the terms of issue stipulate that an application must be made for admission to official listing on one of the securities exchanges or regulated markets mentioned under Points 1.1(a)–(c), and that this admission must be granted within one year of the issue of the securities;
  - e) Units of UCITS admitted pursuant to Directive 2009/65/EC and/or other UCIs within the meaning of Article 1(2)(a) and (b) of Directive 2009/65/EC with their registered office in a Member State as defined in the Law of 2010, or in a non-Member State, provided that:
    - such other UCIs have been approved in accordance with legislation subjecting them to prudential supervision that, in the opinion of the CSSF, is equivalent to that which applies under Community law, and that adequate provision exists for ensuring cooperation between authorities;
    - the level of protection afforded to unitholders in the other UCIs is equivalent to that afforded to shareholders in the Company and, in particular, regulations apply that are equivalent to those in Directive 2009/65/EC

governing the segregation of assets, borrowing, lending and the short-selling of securities and money market instruments;

- the business operations of the other UCI are the subject of annual and semi-annual reports that permit an assessment to be made of the assets and liabilities, income and transactions arising during the reporting period;
- the UCITS or such other UCIs, the units of which are to be acquired, may invest no more than 10% of its assets in units of other UCITS or UCIs pursuant to its Management Regulations or its founding documents.

Each sub-fund may invest no more than 10% of its assets in other UCITS or UCIs, unless otherwise stipulated in the investment policy of that sub-fund.

- f) Sight deposits or deposits at notice at credit institutions with a term of up to 12 months, provided the credit institution has its registered office in an EU Member State, or (if the credit institution's registered office is located in a non-Member State) it is subject to supervisory regulations that the CSSF deems equivalent to those under Community law;
- g) Derivative financial instruments ("derivatives"), including equivalent cash-settled instruments, which are traded on one of the regulated markets listed in (a), (b) and (c) above, or derivatives that are not traded on a stock exchange ("OTC derivatives"), provided that:
  - the use of derivatives is in accordance with the investment purpose and investment policy of the respective sub-fund and is suited to achieving their goals;
  - the underlying securities are instruments in accordance with the definition given under points 1.1(a) and 1.1(b) or financial or macroeconomic indices, interest rates, currencies or other underlying instruments in which the Company may invest either directly or indirectly via other existing UCI or UCITS pursuant to its investment policy;
  - the sub-funds ensure, through adequate diversification of the underlying assets, that the diversification requirements applicable to them and listed in the section entitled "Risk diversification" are adhered to;
  - the counterparties in transactions involving OTC derivatives are institutions subject to prudential supervision and belonging to the categories admitted by the CSSF and expressly approved by the Company. The approval process by the Company is based on the principles drawn up by UBS AM Credit Risk and concerning, *inter alia*, the creditworthiness, reputation and experience of the relevant counterparty in settling transactions of this type, as well as their willingness to provide capital. The Company maintains a list of counterparties it has approved;
  - the OTC derivatives are valued daily in a reliable and verifiable manner and may be sold, liquidated or settled by means of a back-to-back transaction at any time, upon the Company's initiative and at the appropriate fair value; and
  - the counterparty is not granted discretion regarding the composition of the portfolio managed by the relevant sub-fund (e.g. in the case of a total return swap or a derivative financial instrument with similar characteristics), or regarding the underlying of the relevant OTC derivative.
- h) Money market instruments within the meaning of the provisions set out under "Investment Policy" which are not traded on a regulated market, provided that the issue or issuer of these instruments is already subject to regulations on deposit and investor protection, and provided that these instruments are:
  - issued or guaranteed by a central, regional or local authority or the central bank of a Member State, the European Central Bank, the European Union or European Investment Bank, a non-Member State, or, in the case of a federal state, a Member State of the federation, or by a public international institution of which at least one Member State is a member;
  - issued by an undertaking whose securities are traded on the regulated markets listed under Point 1.1(a), (b) and (c);

- issued or guaranteed by an institution subject to prudential supervision in accordance with the criteria laid down in Community law, or by an institution subject to supervision that, in the opinion of the CSSF, is at least as stringent as that provided for in Community law, and that complies with Community law; or
- issued by other issuers belonging to a category approved by the CSSF, provided that regulations protecting investors that are equivalent to those in the first, second or third points above apply to investments in these instruments, and provided that the issuers constitute either a company with equity capital amounting to at least 10 million euro (EUR 10,000,000) that prepares and publishes its annual accounts in accordance with the Fourth Council Directive 78/660/EEC, or an entity within a group encompassing one or more listed companies and responsible for its financing, or an entity which is to fund the securitisation of liabilities by means of a credit line provided by a bank.

- 1.2 In derogation of the investment restrictions set out in Point 1.1, each sub-fund may invest up to 10% of its net assets in securities and money market instruments other than those named in Point 1.1.
- 1.3 The Company ensures that the overall risk associated with derivatives does not exceed the overall net value of the Company portfolio. As part of its investment strategy, each sub-fund may invest in derivatives within the limits set out in Points 2.2 and 2.3, provided the overall risk of the underlying instruments does not exceed the investment limits stipulated in Point 2.
- 1.4 Each sub-fund may hold ancillary liquid assets.

## **2. Risk diversification**

- 2.1 In accordance with the principle of risk diversification, the Company is not permitted to invest more than 10% of the net assets of a sub-fund in securities or money market instruments from a single institution. The Company may not invest more than 20% of the net assets of a sub-fund in deposits with a single institution. In transactions by a sub-fund in OTC derivatives, counterparty risk must not exceed 10% of the assets of that sub-fund if the counterparty is a credit institution as defined in Point 1.1(f). The maximum allowable counterparty risk is reduced to 5% in transactions with other counterparties. The total value of all positions in the securities and money market instruments of those institutions that account for more than 5% of the net assets of a sub-fund may not exceed 40% of the net assets of that sub-fund. This restriction does not apply to deposits and transactions in OTC derivatives with financial institutions that are subject to prudential supervision.
- 2.2 Regardless of the maximum limits set out in Point 2.1, each sub-fund may not invest more than 20% of its net assets in a single institution through a combination of:

- securities or money market instruments issued by this institution,
- deposits with that institution and/or
- OTC derivative contracts with this institution.

- 2.3 In derogation of the above, the following applies:

- a) The maximum limit of 10% mentioned in Point 2.1 is raised to 25% for certain bonds that fall within the definition of covered bonds in Article 3(1) of Directive (EU) 2019/2162 of the European Parliament and of the Council, and for bonds issued before 8 July 2022 issued by credit institutions domiciled in an EU Member State and subject, in that particular country, to special prudential supervision by public authorities designed to protect the holders of these instruments. In particular, funds originating from the issue of such bonds issued before 8 July 2022 must, in accordance with the law, be invested in assets that provide sufficient cover for the obligations arising from them during the entire term of the bonds and that provide a preferential right to payment of the capital and interest in the event of insolvency of the issuer. If a sub-fund invests more than 5% of its net assets in bonds of a single issuer, then the total value of these investments may not exceed 80% of the value of the net assets of the sub-fund.
- b) The maximum limit of 10% is raised to 35% for securities or money market instruments issued or guaranteed by an EU Member State or its local authorities, by another approved state, or by public international bodies of which one or more EU Member States are members. Securities and money market instruments that come under the special ruling referenced in Point 2.3(a) and (b) are not accounted for in calculating the aforementioned 40% maximum limit pertaining to risk diversification.
- c) The limits set out in points 2.1, 2.2, 2.3(a) and (b) may not be aggregated; therefore, the investments listed in these paragraphs made in securities or money market instruments of a single issuing institution, or in deposits with that institution or derivatives thereof, may not exceed 35% of the net assets of a given sub-fund.

d) Companies belonging to the same group for the purposes of consolidated accounts, as defined by Council Directive 83/349/EEC or recognised international accounting rules, must be treated as a single issuer for the calculation of the investment limits set out in this section.

However, investments by a sub-fund in securities and money market instruments of a single corporate group may total up to 20% of the assets of that sub-fund.

e) **In the interest of risk diversification, the Company is authorised to invest up to 100% of a sub-fund's net assets in securities and money market instruments from various issues that are guaranteed or issued by an EU Member State or its local authorities, another authorised OECD member state, China, Russia, Brazil, Indonesia or Singapore, or by public international bodies of which one or more EU Member States are members. These securities and money market instruments must be divided into at least six different issues, with securities or money market instruments from a single issue not exceeding 30% of the total net assets of a sub-fund.**

2.4 The following provisions apply with regard to investments in other UCITS or UCIs:

a) The Company may invest up to 20% of the net assets of a sub-fund in units of a single UCITS or other UCI. In implementing this investment limit, each sub-fund of a UCI comprising multiple sub-funds is treated as an independent issuer, provided each of these sub-funds is individually liable in respect of third parties.

b) Investments in units of UCIs other than UCITS may not exceed 30% of the sub-fund's net assets. The assets of the UCITS or other UCI in which a sub-fund has invested are not included when calculating the maximum limits set out in Points 2.1, 2.2 and 2.3.

c) For sub-funds that, in accordance with their investment policies, invest a significant portion of their assets in units or shares of other UCITS and/or other UCIs, the maximum management fees chargeable by the sub-fund itself and by the other UCITS and/or other UCIs in which it invests are listed in the section titled "Expenses paid by the Company".

2.5 The sub-funds may subscribe, acquire and/or hold shares that are to be issued by or have been issued by one or more other sub-funds of the Company, provided that:

- the target sub-fund does not itself invest in the sub-fund that is investing in that target sub-fund; and
- the target sub-funds to be acquired may, in accordance with their sales prospectuses or articles of incorporation, invest no more than 10% of their own assets in units of other target sub-funds of the same UCI; and
- any voting rights associated with the securities in question are suspended for the period they are held by the sub-fund in question, regardless of their appropriate valuation in financial accounts and periodic reports; and
- as long as these securities are held by the sub-fund, their value is not, in any event, included in the calculation of the sub-fund's net asset value described in the Law of 2010 to verify the minimum net assets in accordance with that law; and
- no administration/subscription or redemption fees are double charged at the level of the sub-fund and that of the target sub-fund in which it invests.

2.6 The Company may invest up to 20% of a sub-fund's assets in equities and/or debt securities of a single issuer if, according to that sub-fund's investment policy, the sub-fund's objective is to replicate a specific equity or bond index recognised by the CSSF. This is subject to the following conditions:

- the composition of the index is sufficiently diversified;
- the index is an appropriate benchmark for the market it represents;
- the index is published in an appropriate manner.

The limit is 35% provided this is justified due to exceptional market conditions; particularly on regulated markets heavily predominated by certain securities or money market instruments. Investment up to this upper limit is only permitted in the case of a single issuer.

If the limits mentioned in Points 1 and 2 are exceeded unintentionally or as a consequence of the exercise of subscription rights, the Company must manage the sale of its securities so as to give top priority to amending the situation while working in the best interests of the shareholders.

For a period of six months after they are officially approved, newly launched sub-funds may deviate from the particular restrictions pertaining to risk diversification indicated, provided that they continue to observe the principle of risk diversification.

### **3. Investment restrictions**

The Company is prohibited from:

- 3.1 Acquiring securities, if the subsequent sale of these is restricted in any way by contractual agreements;
- 3.2 Acquiring shares with voting rights that would enable the Company, possibly in collaboration with other investment funds under its management, to exert a significant influence on the management of an issuer;
- 3.3 Acquiring more than:
  - 10% of the non-voting shares of a single issuer;
  - 10% of the debt instruments of a single issuer;
  - 25% of the units of a single UCITS or UCI;
  - 10% of the money market instruments of a single issuer.

In the latter three cases, the restrictions on acquiring securities need not be observed if, at the time of acquisition, it is impossible to determine the gross sum of debt instruments or money market instruments, and the net sum of units issued.

The following are exempt from the provisions of 3.2 and 3.3:

- securities and money market instruments issued or guaranteed by an EU Member State or its local authorities, or by another approved state;
- Securities and money market instruments issued or guaranteed by a non-Member State;
- securities and money market instruments issued by public international bodies to which one or more Member States of the European Union belong;
- Shares in a company in a non-Member State that primarily invests its assets in the securities of issuers domiciled in that non-Member State, where under that non-Member State's law, holding such shares is the only way to legally invest in the securities of that non-Member State's issuers. In doing so, the provisions of the Law of 2010 must be complied with; and
- Shares in subsidiary companies that carry out certain administrative, advisory or sales activities surrounding the repurchase of units at the behest of shareholders, in the country in which they are located and exclusively on behalf of the Company.

- 3.4 Short-selling securities, money market instruments or other instruments listed in Point 1.1(e), (g) and (h);
- 3.5 Acquiring precious metals or related certificates;
- 3.6 Investing in real estate and buying or selling commodities or commodities contracts;
- 3.7 Taking out loans, unless
  - the loan is a back-to-back loan to purchase foreign currency;
  - the loan is only temporary and does not exceed 10% of the net assets of the sub-fund in question;
- 3.8 Granting loans or acting as guarantor for third parties. This restriction does not prevent the acquisition of securities, money market instruments or the other instruments listed in Point 1.1(e), (g) and (h) if these are not fully paid up.

3.9 Notwithstanding the aforementioned prohibited investments, the Company is entitled to invest in the following financial instruments:

- certificates, in the broader sense, that have individual precious metals as underlying assets, that comply with the securities requirements stipulated in Article 2 of Directive 2007/16/EC, and that contain no embedded derivatives linked to the performance of an index.
- certificates, in the broader sense, that have individual commodities or commodities indices as underlying assets, that comply with the securities requirements stipulated in Article 2 of Directive 2007/16/EC, and that contain no embedded derivatives linked to the performance of an index.

The Company is authorised to introduce additional investment restrictions at any time in the interests of the shareholders, provided these are necessary to ensure compliance with the laws and regulations of those countries in which Company shares are offered and sold.

#### 4. Asset pooling

The Company may permit internal merging and/or the collective management of assets from particular sub-funds in the interest of efficiency. In such cases, assets from different sub-funds are managed collectively. A group of collectively managed assets is referred to as a "**pool**"; pooling is used exclusively for internal management purposes. Pools are not official entities and cannot be accessed directly by shareholders.

##### Pools

The Company may invest and manage all or part of the portfolio assets of two or more sub-funds (referred to as "**participating sub-funds**" in this context) in the form of a pool. Such an asset pool is created by transferring cash and other assets (provided these assets suit the relevant pool's investment policy) from each participating sub-fund to the asset pool. From then on, the Company can make transfers to the individual asset pools. Assets can also be returned to a participating sub-fund, up to the full amount equivalent to its participation.

A participating sub-fund's share in a particular asset pool is calculated in terms of notional units of equal value. When an asset pool is created, the Company must specify a starting value for the notional units (in a currency that the Company deems appropriate) and allot to each participating sub-fund notional units equivalent to the cash (or other assets) it has contributed. The value of a notional unit is then calculated by dividing the net assets of the asset pool by the number of existing notional units.

If additional cash or assets are contributed to or withdrawn from an asset pool, the notional units assigned to the relevant participating sub-fund are increased or reduced by a figure that is arrived at by dividing the cash or assets contributed or withdrawn by the participating sub-fund by the current value of that participating sub-fund's share in the pool. If cash is contributed to the asset pool, it is reduced for the purposes of calculation by an amount that the Company deems appropriate to cover any tax expenses, as well as for the closing charges and acquisition costs for the cash investment. If cash is withdrawn, a corresponding deduction may be made to account for any costs incurred in the disposal of securities or other assets of the asset pool.

Dividends, interest and other income-like distributions obtained from the assets of an asset pool are allocated to that asset pool, and thus increase its net assets. If the Company is liquidated, the assets of an asset pool are allocated to the participating sub-funds in proportion to their respective shares in the asset pool.

##### Collective management

To reduce operating and management costs while enabling broader diversification of investments, the Company may decide to manage part or all of the assets of one or more sub-funds collectively with those of other sub-funds or other undertakings for collective investment. In the following paragraphs, the term "**collectively managed entities**" refers to the Company and each of its sub-funds, as well as any entities with or between which a collective management agreement might exist. The term "**collectively managed assets**" refers to the whole of the assets of these collectively managed entities, which is managed in accordance with the aforementioned collective management agreement.

As part of the collective management agreement, the respective portfolio manager is entitled, on a consolidated basis for the relevant collectively managed entities, to make decisions on investments and sales of assets that affect the composition of the portfolio of the Company and its sub-funds. Each collectively managed entity holds a share in the collectively managed assets in proportion with its own net assets' contribution to the aggregate value of the collectively managed assets. This proportion held (referred to in this context as a "**proportionate share**") applies to all asset classes held or acquired under collective management. Investment and/or divestment decisions have no effect on a collectively managed entity's proportionate share, and future investments are allotted in proportion with it. When assets are sold, they are subtracted proportionately from the collectively managed assets held by each collectively managed entity.

When a new subscription is made with one of the collectively managed entities, subscription proceeds are allocated to each collectively managed entity taking into account the adjusted proportionate share of the jointly managed entity to which the subscription applies; this adjustment corresponds to the increase in that entity's net assets. Allocating assets from that collectively managed entity to the others changes the net asset total of each in line with its adjusted proportionate share. By the same token, when a redemption is ordered from one of the collectively managed entities, the requisite cash is taken from the collectively managed entities' cash reserves based on the proportionate shares as adjusted for the decrease in the net assets of the collectively managed entity to which the redemption applies. In this case, too, the total net assets of each will change to match its adjusted proportionate share.

Shareholders should note that the collective management agreement may lead to the composition of the assets of a particular sub-fund being affected by events (e.g. subscriptions and redemptions) that concern other collectively managed entities unless extraordinary measures are taken by the Company or an entity commissioned by the Company. Thus, all other things being equal, subscriptions received by an entity that is collectively managed with a sub-fund will result in an increase in that sub-fund's cash reserves. Conversely, redemptions received by an entity that is collectively managed with a sub-fund will serve to reduce that sub-fund's cash reserves. However, subscriptions and redemptions can be executed on the special account opened for each collectively managed entity outside the scope of the agreement, through which subscriptions and redemptions must pass. Because a large volume of subscriptions and redemptions may be ordered to these special accounts and because the Company or entities it commissions may decide to end a sub-fund's participation in the collective management agreement at any time, that sub-fund may avoid restructuring its portfolio if this could adversely affect the interests of the Company, its sub-funds and its shareholders.

If a change in the structure of the Company's portfolio, or the portfolio of one or more of its sub-funds, occurring as a result of redemptions or payments of fees and expenses associated with another collectively managed entity (i.e. one that cannot be counted as belonging to the Company or one of its sub-funds), could cause a breach of the investment restrictions on the Company or those sub-funds, the relevant assets will be excluded from the agreement before the change takes effect so that they are not impacted by the resulting adjustments.

Collectively managed assets of sub-funds will only be managed collectively with assets to be invested in pursuit of the same investment objectives. This serves to ensure that investment decisions can be reconciled with the investment policy of the relevant sub-fund in every respect. Collectively managed assets may only be managed together with assets for which the same Portfolio Manager is authorised to make investment and divestment decisions, and for which the Depositary also acts as depositary. This serves to ensure that the Depositary is fully capable of carrying out its functions and meeting its obligations to the Company and its sub-funds in accordance with the Law of 2010 and other legal requirements. The Depositary must always keep the assets of the Company separate from those of the other collectively managed entities; this allows it to accurately determine the assets of each individual sub-fund at any time. As the investment policies of the collectively managed entities need not correspond exactly with that of any sub-fund, the collective investment policy for these entities may be more restrictive than that of the sub-fund.

The Company may decide to terminate a collective management agreement at any time without giving prior notice.

At any time, shareholders may request information from the Company's registered office on the proportion of collectively managed assets and on the entities with which a collective management agreement exists at the time of their enquiry.

The composition and percentages of collectively managed assets must be stated in the annual reports.

Collective management agreements with non-Luxembourg entities are permissible if (i) the agreement involving the non-Luxembourg entity is governed by Luxembourg law and subject to Luxembourg jurisdiction or (ii) each collectively managed entity is endowed with such rights that no insolvency or bankruptcy administrator, or creditor, of the non-Luxembourg entity has access to the assets or is authorised to freeze them.

## 5. Special techniques and instruments with securities and money market instruments as underlying assets

Subject to the conditions and limits set out in the Law of 2010, the Company and its sub-funds may use repurchase agreements, reverse repurchase agreements, securities lending agreements and/or other techniques and instruments that have securities and money market instruments as underlying assets for efficient portfolio management purposes in accordance with the requirements defined by the CSSF (the "**techniques**"). If such transactions relate to the use of derivatives, the terms and limits must comply with the provisions of the Law of 2010. The techniques will be used on an ongoing basis as described in the section "Exposure to securities financing transactions", but it may be decided from time to time, depending on market conditions, to suspend or reduce exposure to securities financing transactions. The use of these techniques and instruments must be in accordance with the best interests of the investors.

Repurchase agreements are transactions in which one party sells a security to the other party with a simultaneous agreement to repurchase the security at a fixed future date at a stipulated price reflecting a market rate of interest unrelated to the coupon rate of the securities. A reverse repurchase agreement is a transaction whereby a sub-fund purchases securities from a counterparty and simultaneously commits to resell the securities to the counterparty at an agreed upon date and price. A securities lending agreement is an agreement whereby title to the "loaned" securities is transferred by a "lender" to a "borrower" with the borrower contracting to deliver "equivalent securities" to the lender at a later date ("**securities lending**").

Securities lending may be effected only via recognised clearing houses such as Clearstream International or Euroclear, or using first-class financial institutions that specialise in such activities and following the procedure specified by them.

In the case of securities lending transactions, the Company must, in principle, receive collateral, the value of which must at least correspond to the total value of the securities lent out and any accrued interest thereon. This collateral must be issued in a form of financial collateral permitted by the provisions of Luxembourg law. Such collateral is not required if the transaction is effected via Clearstream International or Euroclear, or another organisation which guarantees the Company that the value of the securities lent will be refunded.

The provisions of the section entitled "Collateral management" shall apply accordingly to the management of collateral that was left to the Company within the scope of securities lending. In derogation of the provisions of the section entitled "Collateral management", shares from the finance sector are accepted as securities within the framework of securities lending.

Service providers that provide services to the Company in the field of securities lending have the right to receive a fee in return for their services that is in line with the market standards. The amount of this fee will be reviewed and adapted where appropriate, on an annual basis.

Currently, 60% of the gross revenue received from securities lending transactions negotiated at arm's length is credited to the relevant sub-fund, while 30% of the gross revenue are retained as fees by UBS Switzerland AG as the securities lending service provider, responsible for the ongoing securities lending activities and collateral management, and 10% of the gross revenue

are retained as costs/fees by UBS Europe SE, Luxembourg Branch as the securities lending agent, responsible for the transactions management, ongoing operational activities and collateral safekeeping. All fees for operating the securities lending program are paid from the securities lending agent's portion of the gross income. This covers all direct and indirect costs incurred through securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group. Furthermore, the Company has drawn up internal framework agreements regarding securities lending. These framework agreements contain, among other things, the relevant definitions, the description of the principles and standards of the contractual management of the securities lending transactions, the quality of the collateral, the approved counterparties, the risk management, the fees to be paid to third parties and fees to be received by the Company, as well as the information to be published in the annual and semi-annual reports.

The Board of Directors of the Company has approved instruments of the following asset classes as collateral from securities lending transactions and determined the following **haircuts** to be used on these instruments:

Asset class	Minimum haircut (% deduction from market value)
<b>Fixed and variable-rate interest-bearing instruments</b>	
Instruments issued by a state belonging to the G-10 (excluding the US, Japan, the UK, Germany and Switzerland, including their federal states and cantons as issuers) and with a minimum rating of A*	2%
Instruments issued by the US, Japan, the UK, Germany and Switzerland, including their federal states and cantons**	0%
Bonds with a minimum rating of A	2%
Instruments issued by supranational organisations	2%
Instruments issued by an entity and belonging to an issue with a minimum rating of A	4%
Instruments issued by a local authority and with a minimum rating of A	4%
<b>Shares</b>	
Shares listed on the following indexes are accepted as permissible collateral:	Bloomberg ID
Australia (S&P/ASX 50 INDEX)	AS31
Austria (AUSTRIAN TRADED ATX INDEX)	ATX
Belgium (BEL 20 INDEX)	BEL20
Canada (S&P/TSX 60 INDEX)	SPTSX60
Denmark (OMX COPENHAGEN 20 INDEX)	KFX
Europe (Euro Stoxx 50 Pr)	SX5E
Finland (OMX HELSINKI 25 INDEX)	HEX25
France (CAC 40 INDEX)	CAC
Germany (DAX INDEX)	DAX
Hong Kong (HANG SENG INDEX)	HSI
Japan (NIKKEI 225)	NKY
Netherlands (AEX-Index)	AEX
New Zealand (NZX TOP 10 INDEX)	NZSE10

Singapore (Straits Times Index STI)	FSSTI
Sweden (OMX STOCKHOLM 30 INDEX)	OMX
Switzerland (SWISS MARKET INDEX)	SMI
Switzerland (SPI SWISS PERFORMANCE IX)	SPI
UK (FTSE 100 INDEX)	UKX
U.S. (DOW JONES INDUS. AVG)	INDU
U.S. (NASDAQ 100 STOCK INDEX)	NDX
U.S. (S&P 500 INDEX)	SPX
U.S. (RUSSELL 1000 INDEX)	RIY

\* In this table, "rating" refers to the rating scale used by S&P. Ratings by S&P, Moody's and Fitch are used with their corresponding scales. If the ratings given to a certain issuer by these rating agencies are not uniform, then the lowest rating shall apply.

\*\* Unrated issues by these states are also permissible. No haircut is applied to these either.

In general, the following requirements apply to repurchase/reverse repurchase agreements and securities lending agreements:

- (i) Counterparties to a repurchase/reverse repurchase agreement or securities lending agreement will be entities with legal personality typically located in OECD jurisdictions. These counterparties will be subject to a credit assessment. Where the counterparty is subject to a credit rating by any agency registered and supervised by ESMA, that rating shall be taken into account in the credit assessment. Where a counterparty is downgraded to A2 or below (or comparable rating) by such a credit rating agency, a new credit assessment in respect of the counterparty will be undertaken without delay.
- (ii) The Company must be able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.
- (iii) When the Company enters into a reverse repurchase agreement it must ensure that it is able at any time to recall the full amount of cash (including the interest incurred up to the time of being recalled) or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the Net Asset Value of the relevant sub-fund. Fixed-term reverse repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.
- (iv) When the Company enters into a repurchase agreement it must ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered. Fixed-term repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.
- (v) Repurchase/reverse repurchase agreements or securities lending do not constitute borrowing or lending for the purposes of the UCITS Directive.
- (vi) All the revenues arising from efficient portfolio management techniques, net of direct and indirect operational costs/fees, will be returned to the relevant sub-fund.
- (vii) Any direct and indirect operational costs/fees arising from efficient portfolio management techniques that may be deducted from the revenue delivered to the relevant sub-fund must not include hidden revenue. Such direct and indirect operational costs/fees will be paid to the entities outlined in the respective annual or semi-annual report of the Company, which shall indicate the amounts of the respective fees and whether the entities are related to the Management Company or the Depositary.

In general, the following applies to total return swaps:

- i) One hundred percent (100%) of the gross return from total return swaps less direct and indirect operating costs/fees reverts to the sub-funds.
- (ii) All direct and indirect operating costs/fees incurred on total return swaps will be paid to the entities outlined in the annual and semi-annual report of the Company.
- (iii) There are no fee-splitting arrangements for total return swaps.

The Company and its sub-funds may under no circumstances deviate from their investment objectives for these transactions. Equally, the use of these techniques may not cause the risk level of the sub-fund in question to increase significantly with regard to its original risk level (i.e. without the use of these techniques).

With regards to the risks inherent to the use of these techniques, reference is made here to the information contained in the section entitled "Risks connected with the use of efficient portfolio management techniques".

The Company ensures that it or one of its appointed service providers will monitor and manage the risks incurred through the use of these techniques, particularly counterparty risk, as part of the risk management procedure. The monitoring of potential conflicts of interest arising from transactions with companies associated with the Company, the Management Company and the Depositary is primarily carried out through reviewing the contracts and corresponding processes on a regular basis. Furthermore, the Company ensures that, despite the use of these techniques and instruments, the investors' redemption orders can be processed at any time.

**Annex I – SFDR related information**

**Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:**

UBS (Lux) Key Selection SICAV - Asian Equities (USD)

**Legal entity identifier:**

549300FQCP7O10325K08

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

**Does this financial product have a sustainable investment objective?**

● ●  Yes

● ●  No

<p><input type="checkbox"/> It will make a minimum of <b>sustainable investments with an environmental objective</b>: _____ %</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It will make a minimum of <b>sustainable investments with a social objective</b>: _____ %</p>	<p><input type="checkbox"/> It <b>promotes Environmental/Social (E/S) characteristics</b> and while it does not have as its objective a sustainable investment, it will have a minimum proportion of _____ % of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with a social objective</p>

## What environmental and/or social characteristics are promoted by this financial product?

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51 % of assets invested in companies with a sustainability profile in the top half of the benchmark.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The characteristics are measured using the following indicators respectively:

For characteristic 1):

Scope 1 and 2 Weighted Average Carbon Intensity (WACI):

- Scope 1 refers to direct carbon emissions and therefore includes all direct greenhouse gas emissions from owned or controlled sources of the relevant entity or issuer.
- Scope 2 refers to indirect carbon emissions and therefore includes greenhouse gas emissions from the generation of electricity, thermal energy and/or steam that is consumed by the relevant entity or issuer.

Low absolute carbon profile is defined as below 100 tonnes of CO2 emissions per million US dollars of revenues.

For characteristic 2):

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile.

There is no minimum UBS Blended ESG Score at individual investment level.

With respect to the sub-fund's investments the Portfolio Manager includes ESG analysis by means of the UBS Blended ESG Score (by number of issuer) for at least (i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries and (ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Not applicable.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How have the indicators for adverse impacts on sustainability factors been taken into account?*

Not applicable.

*How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

***The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.***

***The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.***

***Any other sustainable investments must also not significantly harm any environmental or social objectives.***

### Does this financial product consider principal adverse impacts on sustainability factors?

Yes

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption, and anti - bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

1.4 “Exposure to companies active in the fossil fuel sector”:

- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.

1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:

- Companies violating the United Nations Global Compact (UNG) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded.

1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

- UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

The following PAI indicator is considered by virtue of the promoted characteristics:

1.3 "GHG intensity of investee companies"

The Portfolio Manager selects investments based upon a low scope 1+2 carbon intensity, either absolute or relative to a benchmark

Information on consideration of PAIs on sustainability factors is also available in the sub-fund's annual report.

No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

### **ESG Integration:**

ESG Integration is driven by taking into account material ESG risks as part of the research process. ESG integration enables the Portfolio Manager to identify financially relevant sustainability factors that impact investment decisions and to incorporate ESG considerations when implementing investment decisions, and allows ESG risks to be systematically monitored and compared to risk appetite and constraints. It also assists in portfolio construction through securities selection, investment conviction and portfolio weightings.

- For corporate issuers, this process utilises an internal UBS ESG material issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager employs an internal UBS ESG risk dashboard that combines multiple internal and external ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process.
- For non-corporate issuers, the Portfolio Manager applies a qualitative or quantitative ESG risk assessment that integrates data on material ESG factors.

The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.

### **Sustainability Exclusion Policy:**

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding element(s) of the investment strategy are used to select the investments to attain the characteristic(s) promoted by this financial product:

Characteristic 1):

A lower Scope 1 and 2 Weighted Average Carbon Intensity (WACI) than its benchmark or a low absolute carbon profile.

Characteristic 2):

A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

The calculations do not take account of cash, derivatives and unrated investment instruments.

The characteristic(s) and the minimum proportion of investments used to meet the environmental and/or social characteristics promoted by the financial product are calculated at quarter end using the average of all business days' values in the quarter.

**Sustainability Exclusion Policy:**

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

- ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

Not applicable.

- ***What is the policy to assess good governance practices of the investee companies?***

Good corporate governance is a key driver of sustainable performance and is therefore embedded in the Portfolio Manager's investment strategy. The Portfolio Manager employs a proprietary ESG Risk Dashboard that combines multiple ESG data sources from internal and recognised external providers in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process. The assessment of good governance includes consideration of board structure and independence, remuneration alignment, transparency of ownership and control, and financial reporting.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflecting the share of revenue from green activities of investee companies  
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**What is the asset allocation planned for this financial product?**

The minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product is 51%.

- ***How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?***

Derivatives are not used for the attainment of the characteristics promoted by this financial product. Derivatives are primarily used for hedging and liquidity management purposes.

## To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Not applicable.

### ● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?

Yes:  
 In fossil gas       In nuclear energy  
 No

*The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.*

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

■ Taxonomy-aligned (no fossil gas & nuclear)  
■ Non Taxonomy-aligned

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned (no fossil gas & nuclear)  
■ Non Taxonomy-aligned

This graph represents x% \*\* of the total investments

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

\*\* No percentage has been inserted as it is not relevant (no Taxonomy-aligned investments)

### ● What is the minimum share of investments in transitional and enabling activities?

Not applicable.

## What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

Not applicable.

## What is the minimum share of socially sustainable investments?

Not applicable.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

**Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?**

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**  
Not applicable.
- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**  
Not applicable.
- **How does the designated index differ from a relevant broad market index?**  
Not applicable.
- **Where can the methodology used for the calculation of the designated index be found?**  
Not applicable.

**Where can I find more product specific information online?**

More product-specific information can be found on the website: [www.ubs.com/funds](http://www.ubs.com/funds)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:**

UBS (Lux) Key Selection SICAV- Climate Diversified (EUR)

**Legal entity identifier:**

## What environmental and/or social characteristics are promoted by this financial product?

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The following characteristics are promoted by the financial product:

- 1) At least 80% of the sub-fund's net assets (excluding cash, cash equivalents, and derivatives) will be invested (a) in investment strategies that promote environmental (E) and/or social (S) characteristics and comply with Article 8 of the Regulation on sustainability-related disclosures in the financial services sector ("SFDR"), or are deemed equivalent, or (b) in investment strategies with sustainable investment as their objective and comply with Article 9 of SFDR or that have the reduction of carbon emissions as an objective and comply with Article 9 of SFDR, or are deemed equivalent.
- 2) Reduction of weighted average carbon intensity (WACI) by an average of at least 3% to 7% annually over a 5-year rolling time-horizon.

No ESG reference benchmark has been designated for the purpose of attaining the above characteristics promoted by the financial product.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The above characteristics are measured using the following indicators:

Characteristic 1)

- A) The disclosure that the target fund is classified as Article 8 or Article 9 in accordance with SFDR (where applicable).

Additionally, for investment via actively managed, third-party funds, UBS Asset Management's manager research team evaluates strategies of external asset managers to ensure that they meet UBS sustainability standards ("equivalency principle"). When evaluating these strategies, UBS Asset Management pays particular attention to the existing ESG resources of the external asset managers, such as the quality of the team of research and investment staff dedicated to ESG issues, the experience of the individual staff members in the sustainability area, the analytical and research tools used to assess the ESG risks of companies, or the investment process with regard to the consideration of ESG risks in portfolio construction. Where appropriate, UBS Asset Management compares the ESG approaches of the external asset managers with its own ESG approaches in order to gain an additional perspective on the external asset managers' ability to actually achieve their stated objectives.

- B) For UBS Asset Management managed active investment strategies to qualify, the strategy must promote one or more measurable environmental/social characteristics or commit to making an investment in sustainable investments with an environmental or social objective. The strategies must also apply the exclusion policy, whose link can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus. Strategies which meet these requirements are classified by UBS Asset Management as "Sustainability Focus" or "Impact" with Impact strategies being those that have a measurable, verifiable investor and/or company impact using a recognised impact framework (e.g. the UN Sustainable Development Goals).

Characteristic 2)

Scope 1 and 2 Weighted Average Carbon Intensity (WACI):

- Scope 1 refers to direct carbon emissions and therefore includes all direct greenhouse gas emissions from owned or controlled sources of the relevant entity or issuer.
- Scope 2 refers to indirect carbon emissions and therefore includes greenhouse gas emissions from the generation of electricity, thermal energy and/or steam that is consumed by the relevant entity or issuer.

	<ul style="list-style-type: none"> <li>● <b>What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?</b></li> </ul>
	<p>The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.</p>
	<ul style="list-style-type: none"> <li>● <b>How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?</b></li> </ul>
	<p>When assessing “do no significant harm” (DNSH), we consider selected principal adverse impact indicators based on availability and appropriateness. 	<p><input type="checkbox"/> No</p>
<p><b>The investment strategy</b> guides investment decisions based on factors such as investment objectives and risk tolerance.</p>	<p><b>What investment strategy does this financial product follow?</b></p> <p>This sub-fund utilises underlying investment strategies to achieve its investment objective.</p> <p><b><u>ESG Integration</u></b></p> <p>The Portfolio Manager takes ESG integration into account when allocating to underlying investment strategies. In the case of underlying strategies managed by UBS, the Portfolio Manager identifies ESG-integrated assets on the basis of the below mentioned research on ESG integration. For externally managed strategies, ESG integrated assets are identified via UBS Asset Management's manager research process described in the section on Sustainability Indicators above.</p> <p>For investments in active equity and fixed income strategies managed by UBS Asset Management, ESG Integration is driven by taking into account material ESG risks as part of the research process. ESG integration enables the Portfolio Manager of the investment strategy to identify financially relevant sustainability factors that impact investment decisions and to incorporate ESG considerations when implementing investment decisions, and allows ESG risks to be systematically monitored and compared to risk appetite and constraints. It also assists in portfolio construction through securities selection, investment conviction and portfolio weightings.</p> <p>For corporate issuers, this process utilises an internal UBS ESG material issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager of the investment strategy employs an internal UBS ESG risk dashboard that combines multiple internal and external ESG data sources in order to identify companies with material ESG risks. An actionable risk signal</p>

	<p>highlights ESG risks to the investment strategy's Portfolio Manager for incorporation in their investment decision making process.</p> <p>For non-corporate issuers, the Portfolio Manager of the investment strategy applies a qualitative or quantitative ESG risk assessment that integrates data on material ESG factors.</p> <p>The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.</p> <p><b><u>Sustainability Exclusion Policy</u></b></p> <p>The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.</p>
	<ul style="list-style-type: none"> <li>● <b><i>What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?</i></b></li> </ul> <p>The following binding element(s) of the investment strategy are used to select the investments to attain the characteristic(s) promoted by this financial product:</p> <p>Characteristic 1):</p> <p>A minimum of 80% of the sub-fund's net assets (excluding cash, cash equivalents, and derivatives) will be invested (a) in investment strategies that promote environmental (E) and/or social (S) characteristics and comply with Article 8 of the Regulation SFDR, or are deemed equivalent, or (b) in investment strategies with sustainable investment as their objective and which comply with Article 9 of SFDR or that have the reduction of carbon emissions as an objective and comply with Article 9 of SFDR, or are deemed equivalent thereto.</p> <p>Strategies are classified as eligible via the assessment outlined above under "What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?".</p> <p>The characteristic(s), the minimum proportion of sustainable investments and the minimum proportion of investments used to meet the environmental and/or social characteristics promoted by the financial product are calculated at quarter end using the average of all business days' values in the quarter.</p> <p><b><u>Sustainability Exclusion Policy</u></b></p> <p>The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.</p> <p>Characteristic 2):</p> <p>Reduction of Scope 1 and 2 WACI by an average of least 3% to 7% annually over a 5-year rolling time-horizon.</p> <p>The calculation does not take account of cash, derivatives and unrated investment instruments.</p> <p>The binding element is calculated on a five-year rolling basis at every quarter end. The calculation uses an average of the previous quarter's month-end values (daily, where available). The intent is to meet the objective on a five-year rolling basis. As a result, the objective will not necessarily be met when utilizing a shorter time-horizon such as quarterly or annually.</p>

	<ul style="list-style-type: none"> <li>● <b>What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?</b></li> </ul>
	Not applicable.
	<ul style="list-style-type: none"> <li>● <b>What is the policy to assess good governance practices of the investee companies?</b></li> </ul>
<b>Good governance</b> practices include sound management structures, employee relations, remuneration of staff and tax compliance.	<p>This sub-fund utilises underlying investment strategies to achieve its investment objective:</p> <p>For investments in active equity and fixed income strategies managed by UBS Asset Management, good corporate governance is embedded in the investment strategy of the underlying portfolio manager. The assessment of good governance includes consideration of board structure and independence, remuneration alignment, transparency of ownership and control, and financial reporting. For active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager employs a proprietary ESG Risk Dashboard that combines multiple ESG data sources from internal and recognised external providers in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the portfolio manager for incorporation in their investment decision making process.</p> <p>For investments in passively managed strategies that track an ESG index, good governance practices of the investee companies are assessed by the index provider as appropriate to the index family.</p> <p>Investments in third party managed funds are assessed via the UBS Asset Management manager research process. UBS Asset Management evaluates the strategies of external asset managers to ensure that they meet UBS sustainability standards ("equivalency principle").</p>
 <b>Asset allocation</b> describes the share of investments in specific assets.	<p><b>What is the asset allocation planned for this financial product?</b></p> <p>The minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product is 80%. The minimum proportion of sustainable investments of the financial product is 20%.</p>  <pre> graph LR     Investments[Investments] --&gt; Aligned[ #1 Aligned with E/S characteristics: 80%]     Investments --&gt; Other[ #2 Other]     Aligned --&gt; Sustainable[ #1A Sustainable: 20%]     Aligned --&gt; OtherES[ #1B Other E/S characteristics]     Sustainable --- OtherEnv[Other environmental]     Sustainable --- Social[Social]   </pre>
<b>Taxonomy-aligned</b> activities are expressed as a share of: - <b>turnover</b> reflecting the share of revenue from green activities of investee companies - <b>capital expenditure</b> (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy. - <b>operational</b> <b>expenditure</b> (OpEx) reflecting green operational activities of investee companies.	<p><b>#1 Aligned with E/S characteristics</b> includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.</p> <p><b>#2 Other</b> includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.</p> <p>The category <b>#1 Aligned with E/S characteristics</b> covers:</p> <ul style="list-style-type: none"> <li>-The sub-category <b>#1A Sustainable</b> covers sustainable investments with environmental or social objectives.</li> <li>-The sub-category <b>#1B Other E/S characteristics</b> covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.</li> </ul>

	<ul style="list-style-type: none"> <li>● <b>How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?</b></li> </ul>
	<p>Derivatives are not used for the attainment of the characteristics promoted by this financial product.</p> <p>Derivatives are primarily used for hedging and liquidity management purposes.</p>
	<p><b>To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?</b></p>
	<p>It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation ("Taxonomy Aligned Investments"). On that basis, the financial product has 0% Taxonomy Aligned Investments.</p>
	<ul style="list-style-type: none"> <li>● <b>Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>2</sup>?</b></li> </ul>
	<p><input type="checkbox"/> Yes:</p> <p><input type="checkbox"/> In fossil gas      <input type="checkbox"/> In nuclear energy</p> <p><input checked="" type="checkbox"/> No</p>

*The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

\*\* No percentage has been inserted as it is not relevant (no Taxonomy-aligned investments)

	<ul style="list-style-type: none"> <li>● <b>What is the minimum share of investments in transitional and enabling activities?</b></li> </ul>
	<p>There is no commitment to a minimum proportion of investments in transitional and enabling activities.</p>

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are  
environmentally  
sustainable  
investments **that do  
not take into  
account the criteria**  
for environmentally  
sustainable  
economic activities  
under the EU  
Taxonomy.

### What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainably investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

### What is the minimum share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

### What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

### Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

Not applicable.

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

Not applicable.

- **How does the designated index differ from a relevant broad market index?**

Not applicable.

- **Where can the methodology used for the calculation of the designated index be found?**

Not applicable.

### Where can I find more product specific information online?

More product-specific information can be found on the website: [www.ubs.com/funds](http://www.ubs.com/funds)

**Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:**

UBS (Lux) Key Selection SICAV - Digital Transformation Themes (USD)

**Legal entity identifier:**

549300HZC1RPILEBHN95

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

**Does this financial product have a sustainable investment objective?**

● ●  Yes

● ●  No

<p><input type="checkbox"/> It will make a minimum of <b>sustainable investments with an environmental objective</b>: _____ %</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It will make a minimum of <b>sustainable investments with a social objective</b>: _____ %</p>	<p><input type="checkbox"/> It <b>promotes Environmental/Social (E/S) characteristics</b> and while it does not have as its objective a sustainable investment, it will have a minimum proportion of _____ % of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with a social objective</p>

It promotes E/S characteristics, but **will not make any sustainable investments**

## What environmental and/or social characteristics are promoted by this financial product?

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51 % of assets invested in companies with a sustainability profile in the top half of the benchmark.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The characteristics are measured using the following indicators respectively:

For characteristic 1):

Scope 1 and 2 Weighted Average Carbon Intensity (WACI):

- Scope 1 refers to direct carbon emissions and therefore includes all direct greenhouse gas emissions from owned or controlled sources of the relevant entity or issuer.
- Scope 2 refers to indirect carbon emissions and therefore includes greenhouse gas emissions from the generation of electricity, thermal energy and/or steam that is consumed by the relevant entity or issuer.

Low absolute carbon profile is defined as below 100 tonnes of CO2 emissions per million US dollars of revenues.

For characteristic 2):

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile.

There is no minimum UBS Blended ESG Score at individual investment level.

With respect to the sub-fund's investments the Portfolio Manager includes ESG analysis by means of the UBS Blended ESG Score (by number of issuer) for at least (i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries and (ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Not applicable.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How have the indicators for adverse impacts on sustainability factors been taken into account?*

Not applicable.

*How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### Does this financial product consider principal adverse impacts on sustainability factors?

Yes

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption and anti - bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

1.4 “Exposure to companies active in the fossil fuel sector”:

- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.

1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:

- Companies violating the United Nations Global Compact (UNGCG) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded.

1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

- UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

The following PAI indicator is considered by virtue of the promoted characteristics:

1.3 “GHG intensity of investee companies”

The Portfolio Manager selects investments based upon a low scope 1+2 carbon intensity, either absolute or relative to a benchmark

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption and anti - bribery matters.

Information on consideration of PAIs on sustainability factors is also available in the sub-fund's annual report.

No

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

## What investment strategy does this financial product follow?

### **ESG Integration:**

ESG Integration is driven by taking into account material ESG risks as part of the research process. ESG integration enables the Portfolio Manager to identify financially relevant sustainability factors that impact investment decisions and to incorporate ESG considerations when implementing investment decisions, and allows ESG risks to be systematically monitored and compared to risk appetite and constraints. It also assists in portfolio construction through securities selection, investment conviction and portfolio weightings.

- For corporate issuers, this process utilises an internal UBS ESG material issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager employs an internal UBS ESG risk dashboard that combines multiple internal and external ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process.
- For non-corporate issuers, the Portfolio Manager applies a qualitative or quantitative ESG risk assessment that integrates data on material ESG factors.

The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.

### **Sustainability Exclusion Policy:**

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding element(s) of the investment strategy are used to select the investments to attain the characteristic(s) promoted by this financial product:

Characteristic 1):

A lower Scope 1 and 2 Weighted Average Carbon Intensity (WACI) than its benchmark or a low absolute carbon profile.

Characteristic 2):

A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

The calculations do not take account of cash, derivatives and unrated investment instruments.

The characteristic(s) and the minimum proportion of investments used to meet the environmental and/or social characteristics promoted by the financial product are calculated at quarter end using the average of all business days' values in the quarter.

### **Sustainability Exclusion Policy:**

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

- **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**  
Not applicable.

- **What is the policy to assess good governance practices of the investee companies?**

Good corporate governance is a key driver of sustainable performance and is therefore embedded in the Portfolio Manager's investment strategy. The Portfolio Manager employs a proprietary ESG Risk Dashboard that combines multiple ESG data sources from internal and recognised external providers in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process. The assessment of good governance includes consideration of board structure and independence, remuneration alignment, transparency of ownership and control, and financial reporting.

**Good governance**  
practices include  
sound management  
structures, employee  
relations,  
remuneration of staff  
and tax compliance.

**Asset allocation**  
describes the share  
of investments in  
specific assets.

**Taxonomy-aligned**  
activities are  
expressed as a share  
of:  
- **turnover** reflecting  
the share of revenue  
from green activities  
of investee  
companies  
- **capital expenditure**  
(CapEx) showing the  
green investments  
made by investee  
companies, e.g. for a  
transition to a green  
economy.  
- **operational**  
**expenditure** (OpEx)  
reflecting green  
operational activities  
of investee  
companies.

### What is the asset allocation planned for this financial product?

The minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product is 51%.

- **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Derivatives are not used for the attainment of the characteristics promoted by this financial product.  
Derivatives are primarily used for hedging and liquidity management purposes.

### To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>3</sup>?

Yes:

In fossil gas

In nuclear energy

No

*The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned (no fossil gas & nuclear)
- Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned (no fossil gas & nuclear)
- Non Taxonomy-aligned

This graph represents x% \*\* of the total investments

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

\*\* No percentage has been inserted as it is not relevant (no Taxonomy-aligned investments)

● What is the minimum share of investments in transitional and enabling activities?

Not applicable.

Not applicable.

Not applicable.

What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

<sup>3</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**  
Not applicable.
- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**  
Not applicable.
- **How does the designated index differ from a relevant broad market index?**  
Not applicable.
- **Where can the methodology used for the calculation of the designated index be found?**  
Not applicable.

#### Where can I find more product specific information online?

More product-specific information can be found on the website: [www.ubs.com/funds](http://www.ubs.com/funds)

**Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:**

UBS (Lux) Key Selection SICAV - European Financial Debt (EUR)

**Legal entity identifier:**

391200UJLVH6HMLHPQ17

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

**Does this financial product have a sustainable investment objective?**

● ●  Yes

It will make a minimum of **sustainable investments with an environmental objective**: \_\_\_\_\_ %

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective**: \_\_\_\_\_ %

● ●  No

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 10% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

## What environmental and/or social characteristics are promoted by this financial product?

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The following characteristic is promoted by the financial product:

- A sustainability profile that is higher than its benchmark's sustainability profile.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

- **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The above characteristic is measured using the following indicators respectively:

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile. There is no minimum UBS Blended ESG Score at individual investment level.

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

When assessing “do no significant harm” (DNSH), we consider selected principal adverse impact indicators based on availability and appropriateness. These indicators are combined into a signal based on individual thresholds defined per indicator. A fail on a single indicator leads to an investment failing the DNSH criteria.

*How have the indicators for adverse impacts on sustainability factors been taken into account?*

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption, and anti-bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

	<p><u>1.4 “Exposure to companies active in the fossil fuel sector”:</u></p> <ul style="list-style-type: none"> <li>- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.</li> <li>- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal-based power generation are excluded.</li> </ul> <p><u>1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:</u></p> <ul style="list-style-type: none"> <li>- Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded.</li> </ul> <p><u>1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:</u></p> <ul style="list-style-type: none"> <li>- UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (&gt;50% ownership stake) of such a company.</li> </ul> <p>The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.</p> <p>The following PAI indicators are additionally part of the DNSH signal:</p> <p><u>1.3 “GHG intensity of investee companies”</u></p> <ul style="list-style-type: none"> <li>- The Portfolio Manager selects investments based upon a low scope 1+2 carbon intensity, either absolute or relative to a benchmark</li> </ul> <p><u>1.7 “Activities negatively affecting bio-diversity-sensitive areas”</u></p> <p><u>1.13 “Board gender diversity”</u></p> <p><u>1.15. “GHG Intensity”</u></p> <p><u>1.16. “Investee countries subject to social violations”</u></p>
	<p><i>How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?</i></p>
	<p>Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded.</p>
<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.</i></p> <p><i>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</i></p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>	

## Does this financial product consider principal adverse impacts on sustainability factors?

Yes

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption and anti - bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

### 1.4 “Exposure to companies active in the fossil fuel sector”:

- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded
- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal-based power generation are excluded.

### 1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:

- Companies violating the United Nations Global Compact UNGC principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded

### 1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

- UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non- Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

When assessing “do no significant harm” (DNSH), we consider selected principal adverse impact indicators based on availability and appropriateness. These indicators are combined into a signal based on individual thresholds defined per indicator. A fail on a single indicator leads to an investment failing the DNSH criteria. The following PAI indicators are additionally part of this signal:

### 1.7 “Activities negatively affecting bio-diversity-sensitive areas”

### 1.13 “Board gender diversity”

### 1.15. “GHG Intensity”

### 1.16. “Investee countries subject to social violations”

Information on consideration of PAIs on sustainability factors is also available in the sub-fund’s annual report.

No

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

## What investment strategy does this financial product follow?

### ESG Integration:

ESG Integration is driven by taking into account material ESG risks as part of the research process. ESG integration enables the Portfolio Manager to identify financially relevant sustainability factors that impact investment decisions and to incorporate ESG considerations when implementing investment decisions, and allows ESG risks to be systematically monitored and compared to risk appetite and constraints. It also assists in portfolio construction through securities selection, investment conviction and portfolio weightings.

- For corporate issuers, this process utilises an internal UBS ESG material issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager employs an internal UBS ESG risk dashboard that combines multiple internal and external ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process.
- For non-corporate issuers, the Portfolio Manager applies a qualitative or quantitative ESG risk assessment that integrates data on material ESG factors.

The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.

### Fund specific exclusions:

Issuers are assessed for ESG risks using a proprietary UBS ESG Risk Recommendation, which rates issuers using a five-point scale (1 – negligible, 2 – low, 3 – moderate, 4 – high and 5 – severe ESG risk). The sub-funds will generally exclude corporate issuers with risks identified in the ESG Risk Dashboard (described in the ESG Integration section) unless the overall UBS ESG risk recommendation is between 1 and 3. Due to diversification requirements, it is permitted to hold in the portfolio securities of issuers with identified ESG risks of up to 20% rated 4 and up to 10% unrated (for example, due to new issuance or availability of information).

### Sustainability Exclusion Policy:

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding element(s) of the investment strategy are used to select the investments to attain the characteristic(s) promoted by this financial product:

A sustainability profile that is higher than the benchmark's sustainability profile.

The calculations do not take account of cash, derivatives and unrated investment instruments.

The characteristic(s), the minimum proportion of sustainable investments and the minimum proportion of investments used to meet the environmental and/or social characteristics promoted by the financial product are calculated at quarter end using the average of all business days' values in the quarter.

### Fund specific exclusions:

	<p>Issuers are assessed for ESG risks using a proprietary UBS ESG Risk Recommendation, which rates issuers using a five-point scale (1 – negligible, 2 – low, 3 – moderate, 4 – high and 5 – severe ESG risk). The sub-funds will generally exclude corporate issuers with risks identified in the ESG Risk Dashboard (described in the ESG Integration section) unless the overall UBS ESG risk recommendation is between 1 and 3. Due to diversification requirements, it is permitted to hold in the portfolio securities of issuers with identified ESG risks of up to 20% rated 4 and up to 10% unrated (for example, due to new issuance or availability of information).</p> <p><b><u>Sustainability Exclusion Policy:</u></b></p> <p>The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. <p><b>Asset allocation</b> describes the share of investments in specific assets.</p>	<p><b>What is the asset allocation planned for this financial product?</b></p>
	<p>The minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product is 80%. The minimum proportion of sustainable investments of the financial product is 10%.</p>
<p><b>Taxonomy-aligned</b> activities are expressed as a share of:</p> <ul style="list-style-type: none"> <li>- <b>turnover</b> reflecting the share of revenue from green activities of investee companies</li> <li>- <b>capital expenditure</b> (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.</li> <li>- <b>operational expenditure</b> (OpEx) reflecting green operational activities of investee companies.</li> </ul>	 <p><b>#1 Aligned with E/S characteristics</b> includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.</p> <p><b>#2 Other</b> includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.</p> <p>The category <b>#1 Aligned with E/S characteristics</b> covers:</p> <ul style="list-style-type: none"> <li>-The sub-category <b>#1A Sustainable</b> covers sustainable investments with environmental or social objectives.</li> </ul>

-The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

<p>To comply with the EU Taxonomy, the criteria for <b>fossil gas</b> include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For <b>nuclear energy</b>, the criteria include comprehensive safety and waste management rules.</p>	<p><b>How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?</b></p> <p>Derivatives are not used for the attainment of the characteristics promoted by this financial product. Derivatives are primarily used for hedging and liquidity management purposes.</p>
	<p><b>To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?</b></p>
	<p>It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation ("Taxonomy Aligned Investments"). On that basis, the financial product has 0% Taxonomy Aligned Investments.</p>
	<p>● <b>Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>4</sup>?</b></p> <p><input type="checkbox"/> Yes:  <input type="checkbox"/> In fossil gas      <input type="checkbox"/> In nuclear energy  <input checked="" type="checkbox"/> No</p>

*The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

\*\* No percentage has been inserted as it is not relevant (no Taxonomy-aligned investments)

<sup>4</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are  
environmentally  
sustainable  
investments **that do  
not take into  
account the criteria**  
for environmentally  
sustainable  
economic activities  
under the EU  
Taxonomy.

**Reference  
benchmarks** are  
indexes to measure  
whether the financial  
product attains the  
environmental or  
social characteristics  
that they promote.

	<ul style="list-style-type: none"> <li>● <b>What is the minimum share of investments in transitional and enabling activities?</b></li> </ul>
	There is no commitment to a minimum proportion of investments in transitional and enabling activities.
	<p><b>What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?</b></p>
	The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainably investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.
	<p><b>What is the minimum share of socially sustainable investments?</b></p>
	The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.
	<p><b>What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?</b></p>
	Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.
	<p><b>Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?</b></p>

## ANNEX II

### Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Product name:

UBS (Lux) Key Selection SICAV - Global Equity Value Opportunity (USD)

#### Legal entity identifier:

391200IC6YSLI061P181

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Does this financial product have a sustainable investment objective?

#### ● Yes

- It will make a minimum of **sustainable investments with an environmental objective**: \_\_\_\_ %
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It will make a minimum of **sustainable investments with a social objective**: \_\_\_\_ %

#### ● No

- It promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of \_\_\_\_ % of sustainable investments
  - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
  - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
  - with a social objective
- It promotes E/S characteristics, but **will not make any sustainable investments**

**Sustainability indicators**  
measure how the sustainable objectives of this financial product are attained.

## What environmental and/or social characteristics are promoted by this financial product?

The following characteristics is promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51 % of assets invested in companies with a sustainability profile in the top half of the benchmark.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

- **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The above characteristics is measured using the following indicators respectively:

Characteristic 1):

Scope 1 and 2 Weighted Average Carbon Intensity (WACI):

- Scope 1 refers to direct carbon emissions and therefore includes all direct greenhouse gas emissions from owned or controlled sources of the relevant entity or issuer.

- Scope 2 refers to indirect carbon emissions and therefore includes greenhouse gas emissions from the generation of electricity, thermal energy and/or steam that is consumed by the relevant entity or issuer. Low absolute carbon profile is defined as below 100 tonnes of CO2 emissions per million US dollars of revenues.

Characteristic 2):

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile.

There is no minimum UBS Blended ESG Score at individual investment level.

With respect to the sub-fund's investments the Portfolio Manager includes ESG analysis by means of the UBS Blended ESG Score (by number of issuer) for at least (i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries and (ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

Not applicable.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

	Not applicable.
	<i>How have the indicators for adverse impacts on sustainability factors been taken into account?</i>
	Not applicable.
	<i>How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?</i>

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

#### Does this financial product consider principal adverse impacts on sustainability factors?

Yes

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption, and anti - bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

##### 1.4 “Exposure to companies active in the fossil fuel sector”:

- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.

##### 1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:

- Companies violating the United Nations Global Compact (UNG) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded.

##### 1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

- UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

The following PAI indicator is considered by virtue of the promoted characteristics:

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

	<p>1.3 "GHG intensity of investee companies"</p> <p>The Portfolio Manager selects investments based upon a low scope 1+2 carbon intensity, either absolute or relative to a benchmark.</p> <p>Information on consideration of PAIs on sustainability factors is also available in the sub-fund's annual report.</p>
	<p><input type="checkbox"/> No</p> <p><b>What investment strategy does this financial product follow?</b></p>
	<p><b>ESG Integration:</b></p> <p>ESG Integration is driven by taking into account material ESG risks as part of the research process. ESG integration enables the Portfolio Manager to identify financially relevant sustainability factors that impact investment decisions and to incorporate ESG considerations when implementing investment decisions, and allows ESG risks to be systematically monitored and compared to risk appetite and constraints. It also assists in portfolio construction through securities selection, investment conviction and portfolio weightings.</p> <ul style="list-style-type: none"> <li>For corporate issuers, this process utilises an internal UBS ESG material issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager employs an internal UBS ESG risk dashboard that combines multiple internal and external ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process.</li> <li>For non-corporate issuers, the Portfolio Manager applies a qualitative or quantitative ESG risk assessment that integrates data on material ESG factors.</li> </ul> <p>The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.</p> <p><b>Sustainability Exclusion Policy:</b></p> <p>The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.</p>
	<ul style="list-style-type: none"> <li><b>What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?</b></li> </ul> <p>The following binding element(s) of the investment strategy are used to select the investments to attain the characteristic(s) promoted by this financial product:</p> <p><b>Characteristic 1):</b> A lower Scope 1 and 2 Weighted Average Carbon Intensity (WACI) than its benchmark or a low absolute carbon profile.</p> <p><b>Characteristic 2):</b> A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark. The calculations do not take account of cash, derivatives and unrated investment instruments.</p> <p>The characteristic(s) and the minimum proportion of investments used to meet the environmental and/or social characteristics promoted by the financial product are calculated at quarter end using the average of all business days' values in the quarter.</p>

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflecting the share of revenue from green activities of investee companies  
 - **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

	<p><b>Sustainability Exclusion Policy:</b>          The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.</p>
	<ul style="list-style-type: none"> <li>● <b>What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?</b></li> </ul>

**Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:**

UBS (Lux) Key Selection SICAV – European Equity Value Opportunity (EUR)

**Legal entity identifier:**

5493007CX6PW9LDY7592

## What environmental and/or social characteristics are promoted by this financial product?

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a UBS Blended ESG Score between 7 and 10 (indicating a strong sustainability profile).

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

- **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The above characteristics are measured using the following indicators respectively:

Characteristic 1):

Scope 1 and 2 Weighted Average Carbon Intensity (WACI):

- Scope 1 refers to direct carbon emissions and therefore includes all direct greenhouse gas emissions from owned or controlled sources of the relevant entity or issuer.
- Scope 2 refers to indirect carbon emissions and therefore includes greenhouse gas emissions from the generation of electricity, thermal energy and/or steam that is consumed by the relevant entity or issuer.

Low absolute carbon profile is defined as below 100 tonnes of CO2 emissions per million US dollars of revenues.

Characteristic 2):

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalised ESG assessment data from UBS and two recognised external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile. There is no minimum UBS Blended ESG score at individual investment level.

With respect to the sub-fund's investments the Portfolio Manager includes ESG analysis by means of the UBS Blended ESG Score (by number of issuer) for at least (i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries and (ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

Not applicable.

	<ul style="list-style-type: none"> <li>● <b>How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?</b></li> </ul>
	Not applicable.
	<i>How have the indicators for adverse impacts on sustainability factors been taken into account?</i>
	Not applicable.
	<i>How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i>
	Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

#### Does this financial product consider principal adverse impacts on sustainability factors?

Yes

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption, and anti - bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

##### 1.4 “Exposure to companies active in the fossil fuel sector”:

- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.

##### 1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:

- Companies violating the United Nations Global Compact (UNGCG) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded.

##### 1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

- UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

The following PAI indicator is considered by virtue of the promoted characteristics:

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

	<p>1.3 "GHG intensity of investee companies"</p> <p>The Portfolio Manager selects investments based upon a low scope 1+2 carbon intensity, either absolute or relative to a benchmark.</p> <p>Information on consideration of PAIs on sustainability factors is also available in the sub-fund's annual report.</p> <p><input type="checkbox"/> No</p>

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are environmentally sustainable investments that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

	<p><b>What is the minimum share of socially sustainable investments?</b></p>								
	<p>Not applicable.</p>								
	<p><b>What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?</b></p> <p>Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.</p>								

<sup>6</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

	<p><b>Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?</b></p> <p>No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.</p>
	<ul style="list-style-type: none"><li>● <b>How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?</b> Not applicable.</li><li>● <b>How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?</b> Not applicable.</li><li>● <b>How does the designated index differ from a relevant broad market index?</b> Not applicable.</li><li>● <b>Where can the methodology used for the calculation of the designated index be found?</b> Not applicable.</li></ul>
	<p><b>Where can I find more product specific information online?</b></p> <p>More product-specific information can be found on the website: <a href="http://www.ubs.com/funds">www.ubs.com/funds</a></p>
