PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Sub-Fund is only suitable for investors who:
 - seek investment results that track as closely as possible, before fees and expenses, the returns of the Index, by investing in shares of the Underlying Fund;
 - seek an “index-based” approach to reflect the performance of the Japanese stock market, specifically the 225 stocks listed on the Tokyo Stock Exchange Prime Market; and
 - are comfortable with the volatility and risks of an equity fund which seeks to invest all, or substantially all, of its Net Asset Value into the Underlying Fund.

You should consult your financial advisers if in doubt about whether this product is suitable for you.

Further Information

Refer to Appendix II of the Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in an exchange traded fund constituted in Singapore that aims to track as closely as possible, before fees and expenses, the returns of the Index, by investing in shares of the Underlying Fund.
- The Index is administered by Nikkei Inc.
- Unlike “actively managed” unit trusts and mutual funds, the Manager does not attempt to outperform the Index nor does it seek temporary defensive positions when markets decline or appear overvalued by some standards.
- Distributions, if any, will be determined by the Manager. Currently, no distributions will be made for the SGD Share Class.

Refer to Appendix II and Annex to Appendix II of the Prospectus for further information on features of the product.

Information on the Index and the Index methodology is available at <http://indexes.nikkei.co.jp>.

¹ The Prospectus is available from the Company at 10 Collyer Quay, #26-01 Ocean Financial Centre Building Singapore 049315 during normal business hours or accessible at <https://secure.ifastfm.com/ifast-fm/home>.

² Subject to change by the SGX-ST from time to time.

The base currency of the Sub-Fund is SGD and the Sub-Fund will issue Shares denominated in SGD (for SGD Share Class).	
Investment Strategy	
- The Sub-Fund is a Feeder Fund and seeks to achieve its investment objective by investing all, or substantially all, of its Net Asset Value into the Underlying Fund. - The investment objective of the Underlying Fund is to track, before fees and expenses, the performance of the Japanese stock market, specifically the 225 stocks listed on the Tokyo Stock Exchange Prime Market. The Underlying Fund is passively managed and is a full replication fund. To achieve the investment objective, the Underlying Fund will attempt to replicate the Index by buying all or a substantial number of, the constituents of the Index. - The Nikkei 225 is calculated with 225 market representative stocks from the Tokyo Stock Exchange Prime Market. By calculating with highly liquid stocks, the Index is aimed at fulfilling two objectives, one is to maintain its long-term continuity and the other is to reflect the changes in the industry structure.	Refer to Appendix II and Annex to Appendix II of the Prospectus setting out the description of the investment strategy of the Sub-Fund.
Parties Involved	
WHO ARE YOU INVESTING WITH? - The Issuer/Company is iFAST Global ETFs Select Series VCC. - The Manager is iFAST Financial Pte. Ltd. - The Underlying Fund Management Company is DWS Investment S.A. - The Underlying Fund Investment Manager is DWS Investment GmbH. - The Custodian is Standard Chartered Trust (Singapore) Limited.	Refer to Sections II and III and Annex to Appendix II of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? You should be aware that the price of Shares can go down as well as up. The value of the product and its dividends or coupons may rise or fall. The following are key risk factors that may cause you to lose some or all of your investment:	Refer to Section IX and Appendix II of the Prospectus for further information on risks of the product.
Market and Credit Risks	
Shares may trade at prices other than NAV - The secondary market price of Shares may sometimes trade above or below the NAV per Share. This deviation is dependent on various factors but will be accentuated when there is a large imbalance between market supply and demand for Shares on the SGX-ST. There is a risk that you may not be able to buy or sell at a price close to the NAV per Share. You are exposed to market risk - The price of securities comprised in the portfolio of the Sub-Fund and the Shares, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the corporations whose securities are comprised in the portfolio and the market's perception of the securities.	
Liquidity Risks	
You are exposed to liquidity risk - The extent of market liquidity is dependent on the size and state of the markets and therefore affects the Sub-Fund's ability to acquire or dispose of securities at the price and time it so desires. You should be aware there is a minimum creation and redemption size - Shares will only be issued or redeemed at the Company's discretion in Creation Unit or Redemption Unit aggregations by or through Participating Dealers. If you do not hold the minimum redemption number of Shares (i.e. 50,000 Shares), you will only be able to realise the value of your Shares by	

selling your Shares on the SGX-ST at the prevailing trading price of the Shares. However, do note that the Participating Dealers are under no obligation to redeem your Shares. • Trading in Shares on SGX-ST may be suspended or even delisted ○ You will not be able to purchase or sell Shares on the SGX-ST during any period that the SGX-ST suspends trading in the Shares. Subject to the provisions of the Code, the creation and redemption of Shares will also be suspended if the trading of Shares on the SGX-ST is suspended. ○ The Sub-Fund may not be able to continue to meet the requirements necessary to maintain the listing of Shares on the SGX-ST. The Sub-Fund may be terminated if its Shares are delisted from the SGX-ST.	Refer to Section XIII of the Prospectus for situations in which trading of Shares may be suspended.
Product-Specific Risks	
• You are exposed to tracking error risk ○ Changes in the NAV of the Sub-Fund or the Underlying Fund are unlikely to replicate exactly changes in the Index due to various factors. Factors such as fees and expenses of the Sub-Fund or the Underlying Fund, liquidity of the market, imperfect correlation of returns between the Underlying Fund's securities and those in the Index, changes to the Index and regulatory policies may affect the Manager's or the Underlying Fund Investment Manager's ability to achieve close correlation with the Index. • You are exposed to feeder risk ○ The Sub-Fund, as a Feeder Fund, is subject to the risks associated with the Underlying Fund and its performance will depend on the performance of the Underlying Fund. The ability of the Sub-Fund to meet its investment objective is also largely dependent on the Underlying Fund. The Sub-Fund does not have control of the investments of the Underlying Fund and there is no assurance that the investment objective and strategy of the Underlying Fund will be successfully achieved, which may have a negative impact to the Net Asset Value of the Sub-Fund. Shareholders also do not have any direct interest in the shares of the Underlying Fund and will not be able to exercise any voting rights in respect of the Underlying Fund. • You are exposed to duplication of costs when investing in Underlying Fund ○ The Sub-Fund incurs costs of its own management and other fees. In addition, the Sub-Fund incurs similar costs in its capacity as an investor in the Underlying Fund, which in turn pays similar fees to its manager and other service providers. As a consequence, the direct and indirect costs borne by the Sub-Fund is likely to represent a higher percentage of the net asset value than would typically be the case with collective investment schemes which invest directly in securities. • You are exposed to single country/region risk ○ Where the Sub-Fund invests in a single country, it will be exposed to fluctuations in the economies of this country, and the market, currency, political, social environment and other risks related specifically to this country, which may affect the market price of its investments in this country. Exposure to a single country also increases the potential volatility of the Sub-Fund due to the increased concentration risk as they are less diversified compared to exposure to global markets.	
FEES AND CHARGES	
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? There are fees and charges payable by Participating Dealers (for Primary Market transactions) in respect of the Sub-Fund as set out in the Prospectus. The fees and charges paid by the Participating Dealers may be borne by investors in full or in part, depending on the relevant Participating Dealer.	Refer to Appendix II of the Prospectus for further information on fees and charges.

Fees and Charges payable directly by you

- **For purchase and sale of Shares on the SGX-ST using cash or SRS monies**
 - If you deal on the SGX-ST, you will typically not bear any costs related to the creation and redemption of Shares. However, you will need to pay brokers' commissions, clearing fees and other costs associated with dealing on the SGX-ST. These amounts are subject to your individual agreement with, and are paid directly by you to, your broker, the CDP and your other service providers (including SRS operators).
- **For subscription and/or redemption of Shares in cash or in-kind (if permitted) by or through Participating Dealers**
 - Duties and Charges of up to 0.50% of the subscription amount and up to 0.50% of the redemption amount, depending on the size of the Creation Request or Redemption Request (as the case may be) and Transaction Fees of S\$500 (for Creation Request) or S\$600 (for Redemption Request) will be payable to the Sub-Fund. Normal brokerage and other fees apply.

Fees and charges payable by the Sub-Fund from invested proceeds

- The Sub-Fund will have to pay the following fees and charges out of its assets:

Management Fee	Currently 0.25% per annum of the Sub-Fund Asset Maximum: 0.90% per annum of the Sub-Fund Asset The Management Fee is retained by the Manager as the Manager does not pay any trailer fees with respect to the Sub-Fund.
Other Fees and Charges	Other fees and charges, including inter alia Custodian, Registrar and Administrator fees may each amount to or exceed 0.10% per annum, depending on the proportion that each fee or charge bears to the Sub-Fund Asset.

Fees charged by the Underlying Fund

- The Sub-Fund will have to pay the following fees and charges out of its assets:

Underlying Fund Management Company fee[#]	Up to 0.01% p.a. (Class 1C)
Fixed fee[^]	0.08% p.a.
All-in fee[*]	Up to 0.09%

[#] The Underlying Fund Investment Manager's fee is paid out of the Underlying Fund Management Company fee.

[^] The fixed fee means the comprehensive fee payable by the Fund Management Company for the Underlying Fund in respect of the ordinary fees, expenses and costs incurred by the Underlying Fund.

^{*} The All-in fee comprises the fixed fee and the Underlying Fund Management Company fee.
